Lost Empires, Living Tribes National Geographic Book Service,1982 Donated **John Lloyd Stephens and Frederick Catherwood** Peter O. Koch,2013-01-16 Daring exploits and astounding achievements were common for two 19th century adventurers John Lloyd Stephens a New York lawyer and best selling author and Frederick Catherwood a London architect and renowned topographical artist Separately these explorers covered much of the same ground touring Italy Greece Egypt Arabia and the Holy Land in search of ancient sites that were of historical significance Jointly these adventurers endured many life threatening obstacles in a determined effort that led to the discovery of nearly fifty forgotten Mayan cities buried deep in the jungles of Central America and Mexico The vivid accounts penned by Stephens coupled with the magnificent drawings of ruins by Catherwood brought back to life a vanished civilization that both considered equal to the greatness of ancient Egypt Greece and Rome The story concludes with the premature and tragic deaths of the two

volume responds to such approaches by expanding the framework for understanding public relations history investigating broad conceptual questions concerning the ways in which public relations rose as a practice and a field within different cultures and countries at different times in history With its unique cultural and contextual emphasis Pathways to Public Relations shifts the paradigm of public relations history away from traditional methodologies and assumptions and provides a new and unique entry point into this complicated arena

Eldorado and the Quest for Fortune and Glory in South America Peter O. Koch, 2021-07-05 This book traces the origin of the legend of El Dorado and the various expeditions that set out to locate that mysterious land of untold wealth in South America Motivated by both fanciful rumors of a golden city ruled by a man who coated himself daily with gold dust and the more practical allure of a region abundant in cinnamon trees a spice that was worth its weight in gold to Europeans many conquistadors convinced themselves that another native empire awaited their conquest These quests for fortune and glory would lead to an encounter with fierce female warriors who were believed to be the Amazons of ancient Greek lore and the discovery of the mighty river later named for the legendary Amazon tribe The first half of this book details the lesser known accounts of German interest in locating the wealth of a golden kingdom called Xerira and an elusive passage at Venezuela s Lake Maracaibo which supposedly led to the Pacific Ocean The second section focuses on the various Spanish efforts to discover El Dorado each of which was eventually doomed to despair disappointment and death

Nurturing Doubt Elmer S. Miller, 1995 Unique in ethnography Nurturing Doubt documents the

transforming effects of field experiences on a young Mennonite who went to Argentina to work with the Toba first as a missionary and later as an anthropologist Elmer Miller insightfully probes the documents diaries field journals and letters of both his lives revealing as he does the ways in which his perceptions of the Toba and theirs of him changed when his role changed Deeply affected by an upbringing in which he had been taught that doubting was sinful Miller gradually found that he doubted not only the validity of the missionary mandate but also his ethnographic mandate and the whole practice of anthropology His exploration of how his doubt was transformed from a negative activity into a positive philosophical attitude underscores the richness of his relationships with the Toba In depicting the move from theological to anthropological discourse Miller contributes to current debates over the form and purpose of ethnographic investigation and reporting
