Lost Fathers:

Lost Fathers Laraine Herring, 2005-03-03 Examines the long term ramifications for adult women who as adolescent girls lost their fathers to death divorce or addiction helps them understand how their behaviors were shaped by that loss at a pivotal developmental stage and provides some interactive exercises to help them heal Original *Lost Fathers* Cynthia R. Daniels, 2000-04 This book brings together the voices of a highly diverse group of scholars to reflect on the culturally and politically charged concept of fatherlessness in contemporary American politics **Absent Fathers, Lost Sons** Guy Corneau, 2018-03-27 A Jungian analyst examines masculine identity and the psychological repercussions of fatherlessness whether literal spiritual or emotional in the baby boom generation An experience of the fragility of conventional images of masculinity is something many modern men share Psychoanalyst Guy Corneau traces this experience to an even deeper feeling men have of their fathers silence or absence sometimes literal but especially emotional and spiritual Why is this feeling so profound in the lives of the postwar baby boom generation men who are now approaching middle age Because he says this generation marks a critical phase in the loss of the masculine initiation rituals that in the past ensured a boy's passage into manhood In his engaging examination of the many different ways this missing link manifests in men's lives Corneau shows that for men today regaining the essential second birth into manhood lies in gaining the ability to be a father to themselves not only as a means of healing psychological pain but as a necessary step in the process of becoming whole

Among the Tartar Tents, Or, The Lost Fathers. A Tale Anne Bowman, 1861 Bureau Publication , 1960

Children who Receive Services from Public Child Welfare Agencies Helen Rankin Jeter, 1961 **Phenylketonuria** Edith Glicksman Neisser, George H. Weber, Helen Rankin Jeter, Reba Estelle Choate, United States. Children's Bureau, Willard R. Centerwall, William B. Tollen, 1960 **Fathers, Families, and the State in France, 1914-1945** Kristen Stromberg Childers, 2018-07-05 The state's policy with regard to fathers and fatherhood had a great impact on concepts of citizenship and gender in France in the era of the two World Wars Drawing on new material that has only recently become available from the archives of the Vichy regime Kristen Stromberg Childers analyzes the ways fathers were promoted as saviors of the nation after France's humiliating defeat by the Germans in June 1940 Childers argues that concern for the family and for the status of fathers in modern France was not merely a response to falling birthrates and German aggression but was fundamental to the very notion of citizenship and political participation The debate on men as gendered beings Childers

demonstrates is central to the political social and cultural history of France in the modern age The father figure became a focus as participants from all classes and across the political spectrum debated what was wrong with the French family and what policies were needed to remedy the problem Childers examines how these policies were implemented what they reveal about the development of the welfare state in France and how they help explain the importance of Vichy in twentieth century French history Twenty eight illustrations including fifteen photographs many never previously published complement her argument
