Lost Parrots Of America:

The Lost Parrots of America Terry Dunnahoo, 1989 Discusses the extinction of several species of parrots including the Carolina parakeet and the Cuban red macaw **The Carolina Parakeet** Carole Boston Weatherford, 2005 *Restoring North America's Birds* Robert A. Askins, 2008-10-01 DIVThe decline of bird species in a wide range of North American habitats forests prairies shrublands mountain regions marshes and deserts has inspired two decades of intense scientific study of bird ecology and conservation But for professional scientists and amateur birders alike interpreting the results of these diverse studies is often complex and bewildering This accessible book pulls together recent research on bird species and habitats to show how basic ecological principles apply in seemingly different situations Robert A Askins provides an engaging introduction to bird ecology and concepts of landscape ecology focusing on such intriguing species as Bachman s Warbler Red Crossbill Mountain Plover and Marbled Murrelet Understanding the ancient landscapes of North America and how humans have changed them Askins says is essential for devising plans to protect and restore bird populations In addition to such obvious changes to the landscape as the clearing of forests and plowing of prairies more subtle changes also dramatically affect birds Species may disappear when we interrupt natural disturbances by suppressing wildfires or trapping out beaver or when we disrupt habitat with roads and housing developments Askins challenges some of the assumptions that underlie current conservation efforts and offers concrete recommendations based on sound ecological principles for protecting the rich natural diversity of North America s birds div **Gone Forever: The lost parrots of America** , Each book describes the history life cycle and characteristics of an extinct species The Condor , 1919 **Bulletin of the Cooper Ornithological Club of California** , 1918 Gulls of Europe, Asia and North America Klaus Malling Olsen, 2010-06-30 This eagerly awaited guide offers the most comprehensive treatment ever published on the gulls of Europe Asia and North America A total of 43 species is treated and every species is described in considerable detail with a full description of each plumage and racial variation Gulls are intelligent versatile opportunistic and ecological generalists As such they exploit a variety of habitats both coastal and inland take a wide range of food and are often extremely abundant They are also great wanderers with several American species regularly appearing in Western Europe and vice versa As well as identification criteria this book includes an up to date assessment of the range and status of every species together with information on patterns of vagrancy This important guide is published at a critical time in the development of dull taxonomy The large white headed forms occurring in the region comprise a superspecies complex with the precise relationships between the various components still under considerable debate A thorough illustrative and textual treatment of the group is much needed and this book provided the most complete overview of the complex The text is complemented not only by superb colour paintings by Hans Larrson but also by a large selection of colour photographs sourced from some of the finest bird photographers in the world This is the essential reference to a fascinating and endlessly challenging group of birds

American Pigeon Journal ,1928 American Indians and the American Imaginary Pauline Turner Strong,2015-11-17

American Indians and the American Imaginary considers the power of representations of Native Americans in American public culture The book s wide ranging case studies move from colonial captivity narratives to modern film from the camp fire to the sports arena from legal and scholarly texts to tribally controlled museums and cultural centres The author s ethnographic approach to what she calls representational practices focus on the emergence use and transformation of representations in the course of social life Central themes include identity and otherness indigenous cultural politics and cultural memory property performance citizenship and transformation American Indians and the American Imaginary will interest general readers as well as scholars and students in anthropology history literature education cultural studies gender studies American Studies and Native American and Indigenous Studies It is essential reading for those interested in the processes through which national tribal and indigenous identities have been imagined contested and refigured **The Best**

Elephant Slaves & Pampered Parrots Louise E. Robbins,2003-04-29 This lively history adds a new dimension to our understanding of 18th century France by exploring the Parisian fashion of importing exotic animals American Historical Review In 1775 a visitor to Laurent Spinacuta s Grande Menagerie at the annual winter fair in Paris would have seen two tigers several kinds of monkeys an armadillo an ocelot and a condor in all forty two live animals In the streets of the city one could observe performing elephants and a fighting polar bear Those looking for unusual pets could purchase parrots flying squirrels and capuchin monkeys The royal menagerie at Versailles displayed lions cranes an elephant a rhinoceros and a zebra which in 1760 became a major court attraction For Enlightenment era Parisians exotic animals piqued scientific curiosity and conveyed social status Their variety and accessibility were a boon for naturalists like Buffon author of *Histoire naturelle* Louis XVI use his menagerie to demonstrate his power while critics saw his caged animals as metaphors of slavery and oppression In her engaging account Robbins considers nearly every aspect of France s obsession with exotic fauna from the animals transportation and care to the inner workings of the oiseleurs birdsellors guild Based on wide ranging research Elephant Slaves and Pampered Parrots offers a major contribution to the history of human animal relations eighteenth century culture and French colonialism **The American Horticultural Magazine** ,1927 American Ornithology

Alexander Wilson,1812 **Outdoor America** ,1927 **American Ornithology** Alexander Wilson,Charles Lucian Bonaparte,2023-02-02 Reprint of the original The publishing house Anatiposi publishes historical books as reprints Due to their age these books may have missing pages or inferior quality Our aim is to preserve these books and make them available

to the public so that they do not get lost **Wicihitowin** Gord Bruyere (Amawaajibitang), Michael Anthony Hart (Kaskitémahikan), Raven Sinclair (Ótiskewápiwskew), 2020-05-06T00:00:00Z W icihitowin is the first Canadian social work book written by First Nations Inuit and Métis authors who are educators at schools of social work across Canada The book begins by presenting foundational theoretical perspectives that develop an understanding of the history of colonization and theories of decolonization and Indigenist social work It goes on to explore issues and aspects of social work practice with Indigenous people to assist educators researchers students and practitioners to create effective and respectful approaches to social work with diverse populations Traditional Indigenous knowledge that challenges and transforms the basis of social work with Indigenous and other peoples comprises a third section of the book W icihitowin concludes with an eye to the future which the authors hope will continue to promote the innovations and creativity presented in this groundbreaking work
