Modeled Portrait Sculpture Louis E. Marrits, 1970 *Portrait Sculpting* Philippe Faraut, Charisse Faraut, 2004-01-01

Step by step techniques for modeling the portrait in clay firing methods and mold making **Ancient Greek Portrait Sculpture** Sheila Dillon, 2006-04-24 This book offers a new approach to the history of Greek portraiture by focusing on portraits without names. Comprehensively illustrated, it brings together a wide range of evidence that has never before been studied as a group. Sheila Dillon considers the few original bronze and marble portrait statues preserved from the Classical and Hellenistic periods together with the large number of Greek portraits known only through Roman copies. In focusing on a series of images that have previously been ignored, Dillon investigates the range of strategies and modes utilized in these portraits to construct their subject's identity. Her methods undermine two basic tenets of Greek portraiture: first, that it was only in the late Hellenistic period under Roman influence that Greek portraits exhibited a wide range of styles including descriptive realism; and second, that in most cases one can easily tell a subject's public role, that is, whether he is a philosopher or an orator, from the visual traits used in this portrait. The sculptures studied here instead show that the proliferation of portrait styles takes place much earlier in the late Classical period and that the identity encoded in these portraits is much more complex and layered than has previously been realized. Despite the fact that these portraits lack the one feature most prized by scholars of ancient portraiture—a name—they are evidence of utmost importance for the history of Greek portraiture. **The Encyclopedia of Sculpting Techniques** John Plowman, 2003 A guide to the techniques of sculpture covers such topics as materials, equipment, assemblage, kiln firing, moldmaking, welding, and use of color.

This publication includes an introduction on the history of the collection's formation, particularly in the context of the Museum's early years of acquisitions, and discusses the outstanding personalities involved. Metropolitan Museum of Art website **Native American and First Nation Figures in Sculpture** Fred F. Poyner IV, 2025-04-10 The art of public structure is nearly as old as society itself, and its figurative representations and gaps represent deep wells of insight into culture. This book examines sculptors, both old and new, and how the work of each one has presented Native Americans and First Nations peoples as figurative subjects found throughout the public sculpture of North America over the past 200 years. Offering thorough examination of artworks by 50 different sculptors throughout the United States and Canada, this book profiles how artists have incorporated either traditional native styles and techniques or European artistic styles and training to create these figurative subjects in wood.
