Gender Politics in Modern China Tani E. Barlow, 1993 Through the lens of modern Chinese literature *Gender Politics in Modern China* explores the relationship between gender and modernity notions of the feminine and masculine and shifting arguments for gender equality in China Ranging from interviews with contemporary writers to historical accounts of gendered writing in Taiwan and semi-colonial China to close feminist readings of individual authors these essays confront the degree to which textual strategies construct notions of gender Among the specific themes discussed are how femininity is produced in texts by allocating women to domestic space the extent to which textual production lies at the base of a changing historically specific code of the feminine the extent to which women in modern Chinese societies are products of literary canons the ways in which the historical processes of gendering have operated in

Searching for Life's Meaning Luo Xu, 2002 Chronicles the changing worldviews of Chinese youth in the tumultuous decade leading up to the Tiananmen demonstrations

Chinese Recorder and Missionary Journal, 1926

China in the 1990s Robert Benewick, Paul Wingrove, 1999 Now updated with a chapter length afterword by the editors on the end of the Deng era and its aftermath China in the 1990s provides a comprehensive survey of a nation in transition An understanding of this complex process requires a multidisciplinary and multidimensional approach which the editors have achieved by bringing together experts from Britain the United States Europe Australia and Hong Kong who examine China s economic political military cultural and social achievements and problems The difficulties China still faces are enormous some of them of its own making pollution urban sprawl the insecurity of food supplies the risks of political authoritarianism and the perils of liberalisation Its population is still growing dramatically and is likely to be 1.5 billion by 2015 three times what it was when the P R C was established in 1949 But since embarking on a reform programme which at the time seemed experimental and hard to reconcile with official ideology it has gone from being the sick man of Asia to being one of the world s largest and fastest developing economies in what now looks to be a remarkably effective and well managed transition

Conceptions of Chinese Democracy David J. Lorenzo, 2013-05-15 Close attention to the writings of the founding fathers of the Republic of China on Taiwan shows that democracy is indeed compatible with Chinese culture Conceptions of Chinese Democracy provides a coherent and critical introduction to the democratic thought of three fathers of modern Taiwan Sun Yat sen Chiang Kai shek and Chiang Ching kuo in a way that is accessible and grounded in

broader traditions of political theory David J Lorenzo's comparative study allows the reader to understand the leaders' democratic conceptions and highlights important contradictions, strengths and weaknesses that are central to any discussion of Chinese culture and democratic theory. Lorenzo further considers the influence of their writings on political theorists, democracy advocates and activists on mainland China. Students of political science and theory, democratization and Chinese culture and history will benefit from the book's substantive discussions of democracy and scholars and specialists will appreciate the larger arguments about the influence of these ideas and their transmission through time. Political Leaders of Modern China Pak-Wah Leung, 2002-10-30 Through the individual characteristics of China's political leaders, a nation-building process began. Chinese leaders fell into two categories: reformers, conservative and liberal. Conservative reformers saw a corruption of the moral order of society that needed to be eliminated in order to restore the country's moral integrity, while liberal reformers attempted to embrace the flaws and lead China toward Socialism. One hundred Chinese leaders from the Opium War to 2001 are profiled in this comprehensive biographical dictionary. This book provides the most up-to-date coverage of modern Chinese political leadership during the Imperial, Republican and Communist periods. Political leaders throughout each period had a common desire for reform within the country while maintaining China's political and cultural legacy. Leung invokes the uniqueness of those leaders in their struggle for personal gain and national improvement as they fought to preserve traditional values. Written by 30 international scholars and experts in the field using both Western and Chinese sources, this is the most authoritative dictionary on the subject. *The Avant-Garde and the Popular in Modern China* Liang Luo, 2014-07-15 Provides a new perspective on the Chinese avant-garde through the figure of artist and activist Tian Han. **China's Quest for Political Legitimacy** Baogang Guo, 2010-09-23 This book examines the new equity-enhancing politics in China in the context of Chinese traditional cognitive patterns of political legitimacy and its implication for Chinese political development in the near future. Based on an analysis of the new governing philosophy, the generation of political elite and a new set of public policies, the book reaffirms the emergence of a new Chinese polity that infuses one-party rule with limited electoral and deliberative democracies. Unlike many scholars who perceive the contemporary Chinese history as a constant search for democracy, this book takes a very different approach. It asserts that the enduring question in political development in China today is no different from what was sought after throughout Chinese history: namely, the constant search for political legitimacy. Even though the quest for democracy is instrumental to that end, it may not ultimately lead to the embrace of a full-fledged liberal democracy. The new politics is not only a rationalization of the efficiency-based development but also a major paradigm shift in China's developmental strategy.
