Modern English Sentences And Complex Structure:

Modern English Structures - Second Edition Bernard O'Dwyer, 2006-06-14 *Modern English Structures* is a clear and accessible text that follows a structural approach to teaching basic English grammar. The book is divided into three parts: what a sentence constituent is, what a sentence constituent does, and where a sentence constituent goes. Form, Function, and Position. The objective of the book is to bring students to a better understanding of sentence constituents and sentence structures, providing them with appropriate terminology to discuss these forms and relationships. This second edition has been revised and updated throughout. The accompanying *Modern English Structures Workbook* parallels the text and provides useful training both in memorization and in higher order thinking skills. *The Linguistic Structure of Modern English* Laurel J. Brinton, Donna Brinton, 2010. This text is for advanced undergraduate and graduate students interested in contemporary English, especially those whose primary area of interest is English as a second language, primary or secondary school education, English stylistics, theoretical and applied linguistics, or speech pathology. The emphasis is on empirical facts of English rather than any particular theory of linguistics; the text does not assume any background in language or linguistics. In this newly revised edition, numerous example sentences are taken from the Corpus of Contemporary American English. A full glossary of key terms, an additional chapter on pedagogy, and new sections on cognitive semantics and politeness have been added. Other changes include completely updated print references, web links to sites of special interest and relevance, and a revised reader-friendly layout. A companion website that includes a complete workbook with self-testing exercises and a comprehensive list of web links accompanies the book. The website can be found at the following address: <http://dx.doi.org/10.1075/z.156.workbook>. Students completing the text and workbook will acquire a knowledge of the sound system of contemporary English, an understanding of the formation of English words, a comprehension of the structure of both simple and complex sentences in English, a recognition of complexities in the expression of meaning, an understanding of the context and function of use upon the structure of the language, and an appreciation of the importance of linguistic knowledge to the teaching of English to first and second language learners. Laurel J. Brinton is Professor of English Language at the University of British Columbia. Donna M. Brinton is Senior Lecturer in TESOL at the University of Southern California's Rossier School of Education. *The Linguistic Structure of Modern English* is a revised edition of *The Structure of Modern English* by Laurel J.
