Yeats and Angelos Sikelianos* Anastasia Psoni, 2018-12-19 Modernism as a powerful movement saw the literary and artistic traditions as well as pure science starting to evolve radically creating a crisis even chaos in culture and society Within this chaos myth offered an ordered picture of that world employing symbolic and poetic images Both W B Yeats and Angelos Sikelianos embraced myth and symbols because they liberate imagination and raise human consciousness bringing together humans and the cosmos Being opposed to the rigidity of scientific materialism that inhibits spiritual development the two poets were waiting for a new age and a new religion expecting that they themselves would inspire their community and usher in the change In their longing for a new age archaeology was a magnetic field for Yeats and Sikelianos as it was for many writers and thinkers After Sir Arthur Evans's discovery of the Minoan Civilization where women appeared so peacefully prominent the dream of re-creating a gynocentric mythology was no longer a fantasy In Yeats's and Sikelianos's gynocentric mythology the feminine figure appears in various forms and like in a drama it plays different roles Significantly a gynocentric mythology permeates the work of the two poets and this mythology is of pivotal importance in their poetry their poetics and even in their life as the intensity of their creative desire brought to them female personalities to inspire and guide them Indeed in Yeats's and Sikelianos's gynocentric mythology the image of the feminine holds a place within a historical context taking the reader into a larger social political and religious space Romania and World War II Kurt Treptow, 2022-11-01 Romania and World War II is a collection of studies in English and Romanian by distinguished American European and Romanian historians on the situation of Romania during World War II presented at the First International Conference of the Center for Romanian Studies held in Iași on 25-26 May 1995 commemorating the fiftieth anniversary of the end of World War II in Europe This book reveals the results of research by leading specialists from around the world addressing many important aspects of Romania's involvement in World War II The papers published in this volume include Charles King The Moldovan ASSR on the Eve of the War Cultural Policy in 1930s Transnistria Kurt W Treptow Alegerile din decembrie 1937 și instaurarea dictaturii regale Nicholas M Nagy Talavera Reminiscences of Iorga's Murderer Traian Boeru Florin Constantiniu Un episod puțin cunoscut al relațiilor rom-sovietice 1941 Larry L Watts Incompatible Alliances Small States of Central Europe during World War II

The Oxford Handbook of Early Modern European History, 1350-1750 Hamish Scott,2015-07-23 This Handbook re examines the concept of early modern history in a European and global context The term early modern has been familiar especially in Anglophone scholarship for four decades and is securely established in teaching research and scholarly publishing More recently however the unity implied in the notion has fragmented while the usefulness and even the validity of the term and the historical periodisation which it incorporates have been questioned The Oxford Handbook of Early Modern European History 1350 1750 provides an account of the development of the subject during the past half century but primarily offers an integrated and comprehensive survey of present knowledge together with some suggestions as to how the field is developing It aims both to interrogate the notion of early modernity itself and to survey early modern Europe as an established field of study The overriding aim will be to establish that early modern is not simply a chronological label but possesses a substantive integrity Volume II is devoted to Cultures and Power opening with chapters on philosophy science art and architecture music and the Enlightenment Subsequent sections examine Europe beyond Europe with the transformation of contact with other continents during the first global age and military and political developments notably the expansion of state power
