Modern Hatreds Stuart J. Kaufman, 2001-05-31 Ethnic conflict has been the driving force of wars all over the world yet it remains an enigma What is it about ethnicity that breaks countries apart and drives people to acts of savage violence against their lifelong neighbors Stuart Kaufman rejects the notion of permanent ancient hatreds as the answer Dissatisfied as well with a purely rationalist explanation he finds the roots of ethnic violence in myths and symbols the stories ethnic groups tell about who they are Ethnic wars Kaufman argues result from the politics of these myths and symbols appeals to flags and faded glories that aim to stir emotions rather than to address interests Popular hostility based on these myths impels groups to follow extremist leaders invoking such emotion laden ethnic symbols If ethnic domination becomes their goal ethnic war is the likely result Kaufman examines contemporary ethnic wars in the Caucasus and southeastern Europe Drawing on information from a variety of sources including visits to the regions and dozens of personal interviews he demonstrates that diplomacy and economic incentives are not enough to prevent or end ethnic wars The key to real conflict resolution is peacebuilding the often overlooked effort by nongovernmental organizations to change hostile attitudes at both the elite and the grassroots levels

Crisis in Kirkuk Liam Anderson, Gareth Stansfield, 2011-09-21 Despite dramatic improvements in the security environment in most parts of Iraq still unresolved are many core political issues foremost of which is the conflict over the city and region of Kirkuk With immense oil reserves and a diverse population of Kurds Arabs and Turkmens Kirkuk in recent history has been scarred by interethnic violence and state sponsored ethnic cleansing Throughout the twentieth century successive Arab Iraqi governments engaged in a brutal campaign to increase Kirkuk's Arab population at the expense of Kurds and Turkmens Following the invasion of Iraq in 2003 a newly empowered Kurdish leadership has sought to reverse the effects of the Arabization campaign and to hold a referendum on incorporating

Kirkuk into the Kurdistan Region The Kurds efforts are however strongly opposed by Kirkuk s Turkmens Arabs and also most states in the region In Crisis in Kirkuk Liam Anderson and Gareth Stansfield offer a dispassionate analysis of one of Iraq s most pressing and unresolved problems Drawing on extensive research and fieldwork the authors investigate the claims to ownership made by each of Kirkuk s competing communities They consider the constitutional mechanisms put in place to address the issue and the problems that have plagued their implementation The book concludes with an assessment of the measures needed to resolve the crisis in Kirkuk stressing that finding a compromise acceptable to all sides is vital to the future stability of Iraq *The Palgrave Encyclopedia of Peace and Conflict Studies* Oliver P. Richmond, Gëzim

Visoka, 2022-06-21 This encyclopaedia provides a comprehensive overview of major theories and approaches to the study of peace and conflict across different humanities and social sciences disciplines Peace and conflict studies PCS is one of the major sub disciplines of international studies including political science and international relations and has emerged from a need to understand war related systems and concepts and how to respond to it afterward As a living reference work easily discoverable and searchable the Palgrave Encyclopedia of Peace and Conflict Studies offers solid material for understanding the foundational historical and contemporary themes concepts theories events organisations and frameworks concerning peace conflict security rights institutions and development The Palgrave Encyclopaedia of Peace and Conflict Studies brings together leading and emerging scholars from different disciplines to provide the most comprehensive and up to date resource on peace and conflict studies ever produced *The Balkans* Mark Biondich, 2011-02-17 The Balkans has long been a place of encounter among different peoples religions and civilizations resulting in a rich cultural tapestry and mosaic of nationalities But it has also been burdened by a traumatic post colonial experience The transition from traditional multinational empires to modern nation states has been accompanied by large scale political violence that has resulted in the deaths of hundreds of thousands and the permanent displacement of millions more Mark Biondich examines the origins of these conflicts while treating the region as an integral part of modern European history shaped by much the same forces and intellectual impulses It reminds us that political violence and ethnic cleansing have scarcely been unique to the Balkans As Biondich shows the political violence that has bedevilled the region since the late nineteenth century stemmed from modernity and the ideology of integral nationalism employed by states that were dominated by democratizing or authoritarian nationalizing elites committed to national homogeneity Throughout this period the Balkan proponents of democratic governance civil society and multiculturalism were progressively marginalized The history of revolution war political violence and ethnic cleansing in the modern Balkans is above all the story of this tragic marginalization **Islam, Nationalism, and 1000 Years of European Poetry** David Aberbach, 2025-08-29 Islam Nationalism and 1000 Years of European Poetry considers the long history of Islam and European poetry and its central importance in the development of European culture David Aberbach offers a panoramic history of European poetry as it was affected by the centuries long conflict between Islam and Christianity from the early

medieval Old French chanson de geste The Song of Roland set against the Muslim invasion of France in the eighth century to
 Fishta's The Highland Lute the early twentieth century Albanian epic of the struggle for independence from Ottoman rule
 achieved in 1912 Aberbach surveys some of the outstanding poetry set against Islamic conquests and domination particularly
 in Spain and the Balkans The book includes detailed comparisons between medieval and modern Arabic and Hebrew poetry
 closely linked in technique and subject matter but moving apart after 1789 A result of constant religious warfare in Europe
 was disillusionment with religion increasing focus on humanistic concerns and the evolution of a secular State separate from
 religion This captivating history of Islam and European poetry will be of great interest to any scholars of nationalism Jewish
 and Islamic Studies history comparative literature and cultural studies [Making Democratic Governance Work](#) Pippa
 Norris, 2012-08-27 Is democratic governance good for economic prosperity Does it accelerate progress towards social welfare
 and human development Does it generate a peace dividend and reduce conflict at home Within the international community
 democracy and governance are widely advocated as intrinsically desirable goals Nevertheless alternative schools of thought
 dispute their consequences and the most effective strategy for achieving critical developmental objectives This book argues
 that both liberal democracy and state capacity need to be strengthened to ensure effective development within the
 constraints posed by structural conditions Liberal democracy allows citizens to express their demands hold public officials to
 account and rid themselves of ineffective leaders Yet rising public demands that cannot be met by the state generate
 disillusionment with incumbent officeholders the regime or ultimately the promise of liberal democracy ideals Thus
 governance capacity also plays a vital role in advancing human security enabling states to respond effectively to citizen's
 demands **The Routledge Handbook of Ethnic Conflict** Karl Cordell, Stefan Wolff, 2016-01-22 A definitive global survey
 of the interaction of ethnicity nationalism and politics this handbook blends rigorous theoretically grounded analysis with
 empirically rich illustrations to provide a state of the art overview of the contemporary debates on one of the most pervasive
 international security challenges today Fully updated for the second edition the book includes a new section which offers
 detailed analyses of contemporary cases of conflict such as in Ukraine Kosovo the African Great Lakes region and in the
 Kurdish areas across the Middle East thus providing accessible examples that bridge the gap between theory and practice
 The contributors offer a 360 degree perspective on ethnic conflict from the theoretical foundations of nationalism and
 ethnicity to the causes and consequences of ethnic conflict and to the various strategies adopted in response to it Without
 privileging any specific explanation of why ethnic conflict happens at a particular place and time or why attempts at
 preventing or settling it might fail or succeed The Routledge Handbook of Ethnic Conflict enables readers to gain a better
 insight into such defining moments in post Cold War international history as the disintegration of the Soviet Union and
 Yugoslavia and their respective consequences the genocide in Rwanda and the relative success of conflict settlement efforts
 in Northern Ireland By contributing to understanding the varied and multiple causes of ethnic conflicts and to learning from

the successes and failures of their prevention and settlement the Handbook makes a powerful case that ethnic conflicts are neither unavoidable nor unresolvable but rather that they require careful analysis and thoughtful and measured responses

Regime Transition in Central Asia Dagikhudo Dagiev, 2013-10-30 Presenting a study of regime transition political transformation and the challenges that faced the post Communist republics of Central Asia on independence this book focuses on the process of transition in Tajikistan and Uzbekistan and the obstacles that these newly independent states are facing in the post Communist period The book analyses how in the early stages of their independence the governments of Central Asia declared that they would build democratic states but that in practice they demonstrated that they are more inclined towards authoritarianism With the declaration of independence Tajikistan and Uzbekistan like many other former Soviet national republics were faced with the issues of nationalism ethnicity identity and territorial delimitation This book looks at how the discourse of patrimonial nationalism in post Communist Tajikistan and Uzbekistan has been the elites strategy to address all these issues to maintain the stateness of their respective countries to preserve the unity of their nation to fill the ideological void of post Communism to prevent the rise of Islam and to legitimize their authoritarian practice Arguing against the claim that the Central Asian states have undergone divergent paths of transition the book discusses how they are in fact all authoritarian although exhibiting different degrees of authoritarianism This book provides a useful contribution to studies on Central Asian Politics and International Relations **China's Western Horizon** Daniel

Markey, 2020-02-03 A crucial assessment of how global and regional politics converge in the swath of Eurasia that includes South Asia Central Asia and the Middle East Under the ambitious leadership of President Xi Jinping China is transforming its wealth and economic power into tools of global political influence But China s foreign policy initiatives even Belt and Road will be shaped and redefined as they confront the ground realities of local and regional politics outside China In China s Western Horizon Daniel S Markey previews how China s efforts are likely to play out along its western horizon across the swath of Eurasia that includes South Asia Central Asia and the Middle East Drawing from extensive interviews travels and historical research Markey describes how perceptions of China vary widely within states such as Pakistan Kazakhstan and Iran On balance Markey anticipates that China s deepening involvement will play to the advantage of regional strongmen and exacerbate the political tensions within and among Eurasian states To make the most of America s limited influence along China s western horizon and elsewhere he argues that US policymakers should pursue a selective and localized strategy to serve America s specific aims in Eurasia and to better compete with China over the long run **Patriotism and the Cross**

Glenn M. E. Duerr, 2020-12-16 Every follower of Christ has a coterminous sense of citizenship s he is at the same time a citizen of a country or countries on earth but also has a heavenly allegiance through faith in Jesus Christ How then should Christians live in light of these tensions What does the Bible teach about issues of nationality nationalism and patriotism Designed around seven chapters this book investigates the issue of national identity for the follower of Christ Specifically this

book delves into more than the binary of whether a Christian can be patriotic or not Or whether a Christian can be nationalistic or not What should a Christian do in light of differing political conditions around them because in this situation Christians still need to share the gospel and make disciples of all nations As a result answers are proffered by the author based on Old and New Testament examples on national identity free trade and supranational groupings secessionist agitation and independence referendums as well as transnational linkages that connect followers of Christ around the globe This book ends with sixteen conclusions on how Christians should live in the modern world with respect to nationalism and patriotism

Armenia's Future, Relations with Turkey, and the Karabagh Conflict Levon Ter-Petrossian, 2017-09-18 This project addresses recurring questions about Armenian Turkish relations the legacy of the Armenian genocide of 1915 and relations between the Armenian diaspora and the Republic of Armenia Additionally it discusses the ongoing conflict with Azerbaijan and the Armenian government's handling of the commemoration of the one hundredth anniversary of the Armenian genocide

Sectarianism in Iraq Fanar Haddad, 2014-05-03 Viewing Iraq from the outside is made easier by compartmentalising its people at least the Arabs among them into Shi as and Sunnis But can such broad terms inherently resistant to accurate quantification description and definition ever be a useful reflection of any society If not are we to discard the terms Shi a and Sunni in seeking to understand Iraq Or are we to deny their relevance and ignore them when considering Iraqi society How are we to view the common Iraqi injunction that we are all brothers or that we have no Shi as and Sunnis against the fact of sectarian civil war in 2006 Are they friends or enemies Are they united or divided indeed are they Iraqis or are they Shi as and Sunnis Fanar Haddad provides the first comprehensive examination of sectarian relations and sectarian identities in Iraq Rather than treating the subject by recourse to broad based categorisation his analysis recognises the inherent ambiguity of group identity The salience of sectarian identity and views towards self and other are neither fixed nor constant rather they are part of a continuously fluctuating dynamic that sees the relevance of sectarian identity advancing and receding according to context and to wider socioeconomic and political conditions What drives the salience of sectarian identity How are sectarian identities negotiated in relation to Iraqi national identity and what role do sectarian identities play in the social and political lives of Iraqi Sunnis and Shi as These are some of the questions explored in this book with a particular focus on the two most significant turning points in modern Iraqi sectarian relations the uprisings of March 1991 and the fall of the Ba ath in 2003 Haddad explores how sectarian identities are negotiated and seeks finally to put to rest the alarmist and reductionist accounts that seek either to portray all things Iraqi in sectarian terms or to reduce sectarian identity to irrelevance

Just and Unjust Peace Daniel Philpott, 2015 In the wake of massive injustice how can justice be achieved and peace restored Is it possible to find a universal standard that will work for people of diverse and often conflicting religious cultural and philosophical backgrounds

Dilemmas of Diversity After the Cold War Michele R. Rivkin-Fish, Elena Trubina, 2010

Creating Military Power Risa Brooks, 2007-04-09 Creating

Military Power examines how societies cultures political structures and the global environment affect countries military organizations Unlike most analyses of countries military power which focus on material and basic resources such as the size of populations technological and industrial base and GNP this volume takes a more expansive view The study s overarching argument is that states global environments and the particularities of their cultures social structures and political institutions often affect how they organize and prepare for war and ultimately impact their effectiveness in battle The creation of military power is only partially dependent on states basic material and human assets Wealth technology and human capital certainly matter for a country s ability to create military power but equally important are the ways a state uses those resources and this often depends on the political and social environment in which military activity takes place [Why Not Kill Them All?](#)

Daniel Chirot, Clark McCauley, 2010-07-01 Genocide mass murder massacres The words themselves are chilling evoking images of the slaughter of countless innocents What dark impulses lurk in our minds that even today can justify the eradication of thousands and even millions of unarmed human beings caught in the crossfire of political cultural or ethnic hostilities This question lies at the heart of Why Not Kill Them All Cowritten by historical sociologist Daniel Chirot and psychologist Clark McCauley the book goes beyond exploring the motives that have provided the psychological underpinnings for genocidal killings It offers a historical and comparative context that adds up to a causal taxonomy of genocidal events Rather than suggesting that such horrors are the product of abnormal or criminal minds the authors emphasize the normality of these horrors killing by category has occurred on every continent and in every century But genocide is much less common than the imbalance of power that makes it possible Throughout history human societies have developed techniques aimed at limiting intergroup violence Incorporating ethnographic historical and current political evidence this book examines the mechanisms of constraint that human societies have employed to temper partisan passions and reduce carnage Might an understanding of these mechanisms lead the world of the twenty first century away from mass murder Why Not Kill Them All makes clear that there are no simple solutions but that progress is most likely to be made through a combination of international pressures new institutions and laws and education If genocide is to become a grisly relic of the past we must fully comprehend the complex history of violent conflict and the struggle between hatred and tolerance that is waged in the human heart In a new preface the authors discuss recent mass violence and reaffirm the importance of education and understanding in the prevention of future genocides **The Caucasus** Thomas de

Waal, 2010-09-10 In this fascinating book noted journalist Thomas de Waal author of the highly acclaimed Black Garden makes the case that while the Caucasus is often treated as a sub plot in the history of Russia or as a mere gateway to Asia the five day war in Georgia which flared into a major international crisis in 2008 proves that this is still a combustible region whose inner dynamics and history deserve a much more complex appreciation from the wider world In The Caucasus de Waal provides this richer deeper and much needed appreciation one that reveals that the South Caucasus Armenia Azerbaijan and

Georgia and their many smaller regions enclaves and breakaway entities is a fascinating and distinct world unto itself Providing both historical background and an insightful analysis of the period after 1991 de Waal sheds light on how the region has been scarred by the tumultuous scramble for independence and the three major conflicts that broke out with the end of the Soviet Union Nagorny Karabakh Abkhazia and South Ossetia The book examines the region as a major energy producer and exporter offers a compelling account of the Rose Revolution in Georgia the rise of Mikheil Saakashvili and the August 2008 war and considers the failure of the South Caucasus thus far to become a single viable region In addition the book features a dozen or so boxes which provide brief snapshots of such fascinating side topics as the Kurds Turkish Armenian rapprochement the promotion of the region as the Soviet Florida and the most famous of all Georgians Stalin The Caucasus delivers a vibrantly written and timely account of this turbulent region one that will prove indispensable for all concerned with world politics It is as well a stimulating read for armchair travelers and for anyone curious about far flung corners of the world

Extreme Politics Charles King, 2010-01-14 Why do some violent conflicts endure across the centuries while others become dimly remembered ancient struggles among forgotten peoples Is nationalism really the powerful force that it appeared to be in the 1990s This wide ranging work examines the conceptual intersection of nationalist ideology social violence and the political transformation of Europe and Eurasia over the last two decades The end of communism seemed to usher in a period of radical change an era of extreme politics that pitted nations ethnic groups and violent entrepreneurs against one another from the wars in the Balkans and Caucasus to the apparent upsurge in nationalist mobilization throughout the region But the last twenty years have also illustrated the incredible diversity of political life after the end of one party rule Extreme Politics engages with themes from the micropolitics of social violence to the history of nationalism studies to the nature of demographic change in Eurasia Published twenty years since the collapse of communism Extreme Politics charts the end of Eastern Europe as a place and chronicles the ongoing revolution in the scholarly study of the post communist world
