Limits of Loyalty Laurence Cole, Daniel Unowsky, 2007-11-01 The overwhelming majority of historical work on the late Habsburg Monarchy has focused primarily on national movements and ethnic conflicts with the result that too little attention has been devoted to the state and ruling dynasty This volume is the first of its kind to concentrate on attempts by the imperial government to generate a dynastic oriented state patriotism in the multinational Habsburg Monarchy It examines those forces in state and society which tended toward the promotion of state unity and loyalty towards the ruling house These essays all original contributions and written by an international group of historians provide a critical examination of the phenomenon of dynastic patriotism and offer a richly nuanced treatment of the multinational empire in its final phase

The Monumental Nation Bálint Varga, 2016-12-01 From the 1860s onward Habsburg Hungary attempted a massive project of cultural assimilation to impose a unified national identity on its diverse populations In one of the more quixotic episodes in this Magyarization large monuments were erected near small towns commemorating the medieval conquest of the Carpathian Basin supposedly the moment when the Hungarian nation was born This exactly researched study recounts the troubled history of this plan which far from cultivating national pride provoked resistance and even hostility among provincial Hungarians Author Bálint Varga thus reframes the narrative of nineteenth century nationalism demonstrating the complex relationship between local and national memories

Blood Inscriptions Hillel J. Kieval, 2022-02-15 Although the Enlightenment had seemed to bring an end to the widely held belief that Jews murdered Christian children for ritual purposes charges of the so-called blood libel were surprisingly widespread in central and eastern Europe on either side of the turn to the twentieth century Well over one hundred accusations were made against Jews in this period and prosecutors and government officials in Germany Austria-Hungary and Russia broke with long established precedent to bring six of these cases forward in sensational public trials In *Blood Inscriptions* Hillel J. Kieval examines four cases the prosecutions that took place at Tiszaeszlár in Hungary 1882-83 Xanten in Germany 1891-92 Pölitz in Austrian Bohemia 1899-1900 and Konitz then Germany now in Poland 1900-1902 to consider the means by which discredited beliefs came to seem once again plausible Kieval explores how educated elites took up the accusations of Jewish ritual murder and considers the roles played by government bureaucracies the journalistic establishment forensic medicine and advanced legal practices in structuring the investigations and trials The prosecutors judges forensic scientists criminologists and academic scholars of Judaism and other expert witnesses all worked hard to establish their epistemological authority as rationalists Kieval contends Far from being a throwback to the Middle Ages these ritual murder trials were in all respects a product of post-Enlightenment politics and culture Harnessed to and disciplined by the rhetoric of modernity they were able to proceed

Collective Traumas Conny Mithander, 2007 *Collective Traumas* is about the traumatic European history of the 20th century war genocide dictatorship ethnic cleansing and how individuals communities and nations have dealt with their dark past through remembrance historiography and legal settlements Memories and

especially collective memories serve as foundations for national identities and are politically charged. Regardless whether memory is used to support or to challenge established ideologies it is inevitably subject to political tensions. Consequently memory history and amnesia tend to be used and abused for different political and ideological purposes. From the perspectives of historical literary and visual studies the essays focus on how the experiences of war and profound conflict have been represented and remembered in different national cultures and communities. This volume is a vital contribution to memory studies and trauma theory. Collective Traumas is a result of the multidisciplinary research project on Memory Culture that was initiated in 2002 at Karlstad University Sweden. A previous publication with Peter Lang is Memory Work: The Theory and Practice of Memory 2005.
