Modern Italian Social Theory Richard Bellamy, 2015-09-16 This text provides a clear and systematic introduction to the development of social and political theory in modern Italy. The work concentrates on six major thinkers examining how their theoretical ideas influenced their analysis of political behaviour. The thinkers concerned are Pareto, Mosca, Labriola, Croce, Gentile, and Gramsci. In discussing the respective theories of each author, the book situates them within the intellectual and social contexts to which they were addressed. The concluding chapter focuses on the recent debates between Bobbio, della Volpe, and others about the validity of the Italian road to socialism and its compatibility with the liberal values and institutions of Western democracies.

trichotomic Canada were and second whether Bossy's understanding of the third force precedes or is related in any way to postwar debates on liberal multiculturalism at the core of which was the existence of a third force This book will be of interest to students and researchers of multiculturalism radical right ideology and the far right and Canadian history and politics

**Caesar and the Fading of the Roman World** Peter Baehr, 2017-11-30 For many centuries Julius Caesar was a name that evoked strong feelings among educated people Some of these responses were complimentary but others came from the point of view of political republicanism which envisaged Caesar as a historical symbol for some of the most dangerous tendencies a polity could experience Caesar represented everything that republicans detested corruption demagoguery usurpation and as such provided an antimodel against which genuine political virtue could be measured Caesar and the Fading of the Roman World examines the reception of Caesar in republican thought until the late eighteenth century and his transformation in the nineteenth when he enjoyed a major rehabilitation in the literary culture and historiography of the day Critical of hereditary monarchy and emphasizing the collective political obligations citizens owed to their city or commonwealth republican thinkers sought to cultivate institutions and mores best adapted to self governing liberty The republican idiom became an integral element in the discourse of the American revolutionaries and constitution builders during the eighteenth century and of their counterparts in France In the nineteenth century Caesar enjoyed a major rehabilitation from being a pariah he was elevated in the writings of people like Byron De Quincey Mommsen Froude and Nietzsche to the greatest statesman of his age Simultaneously Caesar's name continued to function as a term of polemic in the emergence of a new debate on what came to be called Caesarism While the metamorphosis of Caesar's reputation is studied here as a process in its own right it is also meant to highlight the increasing enfeeblement of the republican tradition The transformation of Caesar's image is a sure sign of changes within the wider present day political culture and evidence of the emergence of new problems and challenges Drawing on history political theory and sociology Caesar and the Fading of the Roman World uses the image of Caesar as a way of interpreting broader political and cultural tendencies Peter Baehr discusses the significance of living not in a postmodern society but in a postclassical one in which ideas of political obligation have become increasingly emaciated and in which the theoretical resources for the care of our public world have become correspondingly scarce This volume is an important study that will be of value to sociologists political theorists and historians

*Giovanni Gentile and the State of Contemporary Constructivism* James Wakefield, 2015-02-12 This book presents Giovanni Gentile's actual idealism as a radical constructivist doctrine for use in moral theory The first half describes the moral theory that Gentile explicitly identifies with actual idealism according to which all thinking rather than an exclusive domain of practical reason has a moral character It is argued that after Gentile's turn to Fascism in the early 1920s this theory is increasingly conflated with his political doctrine This entails several major changes that cannot be squared with the underlying metaphysics The second half of the book develops a more plausible account of Gentilean moral constructivism

based on the pre Fascist idea of reasoning as an internal dialogue Comparisons and contrasts are drawn with contemporary constructivist doctrines as well as theories employing dialogical conceptions of reason The internal dialogue is presented as a device enabling the thinking subject to make objective judgments about real world problems despite the impossibility of her occupying a fully objective standpoint Thus actual idealist moral theory is offered as an example of constructivism at its most radical inviting advocates of less radical varieties to reassess the foundations on which their theories are built     The Afterlife of Idealism Admir Skodo,2016-06-01 This book examines the legacy of philosophical idealism in twentieth century British historical and political thought It demonstrates that the absolute idealism of the nineteenth century was radically transformed by R G Collingwood Michael Oakeshott and Benedetto Croce These new idealists developed a new philosophy of history with an emphasis on the study of human agency and historicist humanism This study unearths the impact of the new idealism on the thought of a group of prominent revisionist historians in the welfare state period focusing on E H Carr Isaiah Berlin G R Elton Peter Laslett and George Kitson Clark It shows that these historians used the new idealism to restate the nature of history and to revise modern English history against the backdrop of the intellectual social and political problems of the welfare state period thus making new idealist revisionism a key tradition in early postwar historiography     **The Routledge Dictionary of Twentieth-Century Political Thinkers** Robert Benewick,Philip Green,2002-09-11 This edition has been revised and extended to include eleven new entries on Berlin Chomsky Derrida Rorty and many others Comprising 169 entries it also includes non Western political thinkers
