National Library of Medicine Current Catalog National Library of Medicine (U.S.),1965 **Cages of Reason** Bernard S. Silberman,1993-06 Blending political historical and sociological analysis Bernard S Silberman offers a provocative explanation for the bureaucratic development of the modern state The study of modern state bureaucracy has its origins in Max Weber s analysis of the modes of social domination which Silberman takes as his starting point Whereas Weber contends that the administration of all modern nation states would eventually converge in one form characterized by rationality and legal authority Silberman argues that the process of bureaucratic rationalization took in fact two courses One path is characterized by permeable organizational boundaries and the allocation of information by professionals The other features well defined boundaries and the allocation of information by organizational rules Through case studies of France Japan the United States and Great Britain Silberman demonstrates that this divergence stems from differences in leadership structure and in levels of uncertainty about leadership succession in the nineteenth century Silberman concludes that the rise of bureaucratic rationality was primarily a response to political problems rather than social and economic concerns *Cages of Reason* demonstrates how rationalization can have occurred over a wide range of cultures at various levels of economic development It will be of considerable interest to readers in a number of disciplines political science sociology history and public administration Silberman has produced an invaluable densely packed work that those with deep knowledge of public administrative development will find extremely rewarding David H Rosenbloom *American Political Science Review* An erudite incisive and vibrant book the product of intensive study and careful reflection Given its innovative theoretical framework and the wealth of historical materials contained in it this study will generate debate and stimulate research in sociology political science and organizational theory It is undoubtedly the best book on the comparative evolution of the modern state published in the last decade Mauro F Guillen *Contemporary Sociology* **Japanese Diplomacy** H. D. P. Envall,2015-02-17 A political leader is most often a nation s most high profile foreign policy figure its chief diplomat But how do individual leadership styles personalities perceptions or beliefs shape diplomacy In *Japanese Diplomacy* the question of what role leadership plays in diplomacy is applied to Japan a country where the individual is often viewed as being at the mercy of the group and where prime ministers have been largely thought of as reactive and weak In challenging earlier simplified ideas of Japanese political

leadership H D P Envall argues that Japan's leaders from early Cold War figures such as Yoshida Shigeru to the charismatic and innovative Koizumi Jun ichir to the present leadership of Abe Shinz have pursued leadership strategies of varying coherence and rationality often independent of their political environment He also finds that different Japanese leaders have shaped Japanese diplomacy in some important and underappreciated ways In certain environments individual difference has played a significant role in determining Japan's diplomacy both in terms of the country's strategic identity and summit diplomacy What emerges from Japanese Diplomacy therefore is a more nuanced overall picture of Japanese leadership in foreign affairs

Rechcigl,2018-01-18 The use of chemicals in agriculture and home gardens has become an area of concern due to improper use and negative environmental effects Environmentally Safe Approaches to Crop Disease Control addresses alternative approaches for managing crop diseases It gives a balanced overview of state of the art environmentally safe approaches to crop disease control and discusses the latest trends **Diplomacy, Communication, and Peace** William Maley,2020-11-15 This book is composed of interconnected essays which reflect on challenging new issues related to diplomacy communication and peace This book begins by drawing out some of the challenges for diplomacy that arise from modern theories of semantics and of strategic communication as well as those posed by the need for secrecy and by the activities of agents of influence It then proceeds to examine important issues in contemporary diplomacy including refugee diplomacy humanitarian diplomacy sovereignty norms and consular activities It concludes with an exploration of

dilemmas that confront attempts to promote peace through multilateral means such as the limitations of peacemaking diplomacy the difficulty of promoting democratic governance and the problems associated with dealing with morally repugnant actors The book is grounded in the conception of diplomacy as a social practice with multiple players and recognises that the state has many different elements and that state actors live in worlds shaped not just by their relations with other states but also by their own complex domestic politics This book will be of much interest to students of diplomacy foreign policy and International Relations

Child Guidance Centres in Japan Michael Rivera King, 2020-10-25 In contemporary Japan 85% of children in alternative care remain housed in large welfare institutions as opposed to family based foster care This publication examines how Japan has been isolated from global discourse on alternative care urging a shift in social work and alternative care policies As the first ethnographic account from inside child guidance centres it makes a key contribution towards understanding the closed world of Japan s social services including the decision making processes by which a child is removed from the family and placed into care In addition regional variation in policy implementation for alternative care is outlined with reference to detailed case studies and a discussion around organisational cultures of the child guidance centres Where foster care is constructed as anything other than professional it is often seen as a threat to the child s family bond with their natal parent and therefore not used Child Guidance Centres in Japan destabilises this construction of the family bond as singular and discrete highlighting new practices in alternative care Child Guidance Centres in Japan Alternative Care and the Family will be a vital resource for students scholars of social work and Japanese studies as well as practitioners and lobbyists involved in alternative care
