Law of Evidence and Rationality Applied in the Johannine Christology Henry Hock Guan Teh, 2016-02-10 Those who give primacy to evidence in the apologetic task have long maintained that 1 this is exactly the biblical writers approach maintaining as they do that they saw and heard the things of which they speak and 2 such reasoning is fundamental to society in general as exemplified in every civilised legal system Henry Hock Guan Teh concretises these vital points by way of the Gospel of John where the Apostle consistently marshals eyewitness evidence to show that Jesus is the Christ the Son of God and that believing you might have life through His name John 20 31 No finer or more scholarly support for a biblically grounded factual juridically sophisticated defence of Christian truth is available Professional and lay evangelists and anyone endeavouring to preach the gospel to every creature simply must obtain and be nefit from this book And sceptical lawyers needless to say owe it to themselves to wrestle with the author s case for the only historical religion that holds up in court John Warwick Montgomery Ph D D The ol LL D Professor Emeritus of Law and Humanities University of Bedfordshire England Distinguished Research Professor of Philosophy Concordia University Wisconsin USA Director International Academy of Apologetics Evangelism and Human Rights Strasbourg France Dr Teh s book is in the same genre as those by Simon Greenleaf professor Dr John Warwick Montgomery Craig Parton Esq and Prof Dr Ross Clifford As can be seen by the title Dr Teh concentrates on the Gospel of John chapter by chapter His powerful argument can even be comprehended by those of us not legally trained Recommended Dr Rod Rosenblatt Professor of Theology Concordia University Irvine 1517legacy com This book will greatly help people understand the legal historical and rational case for Christianity Dr Henry

Teh uniquely focuses on John's gospel and establishes the Case for Jesus Resurrection through the best evidence principle. This emphasis on John's gospel establishes that it is a key text for Christian apologetics. The book is a compelling read for those who take 1 Peter 3:15 seriously. And for those who believe Jesus is a fairy tale, it will cause them to reconsider the fact of his Resurrection. It is well written and a must addition to one's apologetic armoury. Rev Dr Ross Clifford AM, Principal of Morling Theological College Sydney Australia, Author of John Montgomery's Legal Apologetic, Henry Hock Guan Teh obtained his Ph D from Trinity Theological Seminary Indiana USA where he studied apologetics under Prof John Warwick Montgomery and also at International Academy of Apologetics Evangelism Human Rights Strasbourg France. With two British law degrees, he was also a trial lawyer and chief law examiner. Presently, Henry Teh is adjunct lecturer in Philosophy, Ethics and Law.

The Principles of the Law of Evidence William Mawdesley Best, 1883 **5 Ideas from Global Diplomacy** Marvin Cheung, 2024-08-12. Why are we stuck here and how do we move forward? Amidst escalating global crises and growing climate anxiety, *5 Ideas from Global Diplomacy* offers actionable recommendations to aspiring changemakers to close the compliance gap between political commitment and action and advance the 2030 Sustainable Development Goals. The book journeys beyond sustainability, which is typically associated with climate action, and towards sustainable development, which includes a critical peace component. Cheung uncovers processes for global change behind the complex global governance landscape through a novel approach known as Transdisciplinary Systems Research. His wit and candor as he navigates the realities of sustainable development make the book a compelling read for a wide audience. *5 Ideas from Global Diplomacy* is an open access preprint well grounded in the events of our time. It is a must read for anyone interested in shaping the future of global governance, sustainable development, and our health. **A Digest of the Law of Evidence** James Fitzjames Stephen, 1886

The Mythology of Modern Law Peter Fitzpatrick, 2002-09-11. The Mythology of Modern Law is a radical reappraisal of the role of myth in modern society. Peter Fitzpatrick uses the example of law as an integral category of modern social thought to challenge the claims of modernity which deny the relevance of myth to modern society. **Law and Literature** Brook Thomas, 2002. The Judicial Assessment of Expert Evidence Déirdre Dwyer, 2008-12-18. Deirdre Dwyer examines how a court can decide when to accept an expert's opinion, focusing on English civil justice. **Rethinking Evidence** William Twining, 1994. Evidence, proof, and probabilities, rationality, skepticism, and narrative in legal discourse, and the reform of criminal evidence, have all been the subject of lively debates in recent years. This book brings together seminal and new essays from a leading contributor to this new evidence scholarship. *Rethinking Evidence* contains a series of linked essays which consider historical, theoretical, and applied themes from a broad interdisciplinary perspective. It brings together well known papers and also includes substantial new essays on the nature and scope of the law of evidence, lawyers' stories, and the case of Edith Thompson. These readable and provocative essays represent a major contribution, not only to legal theory but also to the general study of discourse about evidence in many disciplines. **Proof, Evidence and Hate Crime** Tshepo

Bogosi Mosaka, 2025-07-18 Proof is the property of a disputed fact being established inferentially from an extant fact This book explicates the structural components of this phenomenon in the context of hate crimes across various jurisdictions around the world It departs from the orthodox conception of evidence and proof as being a general value neutral or non normative and epistemic subject and offers a relativistic conception of this area of law The core argument is that proof is both semantically and methodologically determined by three conditions of materiality process and probativity This argument is then justified by the context specific application of this relativistic theory of proof to hate crimes This theoretical application of proof is sustained throughout the book using multiple examples and illustrations of hate crimes around the world The discussion both at the level of proof and hate crimes while focusing on the grounds of race religion and ethnicity specifically is framed in jurisprudential cross jurisdictional and interdisciplinary terms The book will be of interest to academics and researchers working in the areas of criminal law legal philosophy and procedural law **California Law**

Review, 1915 The Principles and Practice of the Law of Evidence Edmund Powell, 1869 **Improperly Obtained Evidence in Anglo-American and Continental Law** Dimitrios Giannouloupoulos, 2019-02-21 This is the first book to offer an extensive cosmopolitan cross cultural insight into the perennial controversy over the use of improperly obtained evidence in criminal trials It challenges the conventional view that exclusionary rules are idiosyncratic of Anglo American law and highlights the constitutionalisation and internationalisation of criminal evidence and procedure as a cause of rapprochement or divergence beyond the Anglo American and Continental law divide Analysis focuses on confessional evidence and evidence obtained by search and seizure telephone interceptions and other means of electronic surveillance The laws of England and Wales France Greece and the United States are systematically compared and contrasted throughout this study but where appropriate analysis extends to other Anglo American and Continental legal systems The book reviews exclusionary rules vis vis the operation of judicial discretion and explores the normative justifications that underpin them It attempts to reinvigorate the idea of excluding evidence to protect constitutional or human rights the rights thesis arguing that there is significant scope for Anglo American and Continental legal systems to place a renewed emphasis on it particularly in relation to confessional evidence obtained in violation of custodial interrogation rights we can locate an emerging rapprochement and unique potential for European Court of Human Rights jurisprudence to build consensus in this respect In marked contrast remaining divergence with regard to evidence obtained by privacy violations means there is little momentum to adopt a reinvigorated rights thesis more widely Longlisted for the Inner Temple Book Prize 2022 **Rhetoric and Evidence** Peter Schneck, 2011-10-27 The book traces the changing relation and intense debates between law and literature in U S American culture using examples from the 18th to the 20th century including novels by Charles Brockden Brown James Fenimore Cooper Harper Lee and William Gaddis Since the early American republic the critical representation of legal matters in literary fictions and cultural narratives about the law served an important function for the cultural imagination and

legitimation of law and justice in the United States One of the most essential questions that literary representations of the law are concerned with the study argues is the unstable relation between language and truth or more specifically between rhetoric and evidence In examining the truth claims of legal language and rhetoric and the evidentiary procedures and protocols which are meant to stabilize these claims literary fictions about the law aim to provide an alternative public discourse that translates the law s abstractions into exemplary stories of individual experience Yet while literature may thus strive to institute itself as an ethical counter narrative to the law in order to become in Shelley s famous phrase the legislator of the world it has to face the instability of its own relation to truth The critical investigation of legal rhetoric in literary fiction thus also and inevitably entails a negotiation of the intrinsic value of literary evidence *Northwestern University Law Review* ,1915 **Evolution** Sewall Wright,1986-09 This volume emphasizes the period before 1950 During this period Wright thought of himself primarily as an experimental physiological geneticist rather than as a theoretical population geneticist
