The Cambridge Companion to the Literature of Paris Anna-Louise Milne, 2013-08-01 No city more than Paris has had such a constant and deep association with the development of literary forms and cultural ideas The idea of the city as a space of literary self consciousness started to take hold in the sixteenth century By 1620 where this volume begins the first in a long line of extraordinary works of the human imagination in which the city represented itself to itself had begun to find form in print This collection follows that process through to the present day Beginning with the salon followed by the hybrid culture of libertinage and the revolutionary hotbeds of working class districts it explores the continuities and changes between the pre modern era and the nineteenth century when Paris asserted itself as cultural capital of Europe It goes on to explore how this vision of Paris as a key capital of modernity has shaped contemporary literature Zelda Sayre Fitzgerald Linda Wagner-Martin, 2004-07-30 Linda Wagner Martin s Zelda Sayre Fitzgerald is a twenty first century story Using cultural and gender studies as contexts Wagner Martin brings new information to the story of the Alabama judge s daughter who at seventeen met her husband to be Scott Fitzgerald Swept away from her stable home life into Jazz Age New York and Paris Zelda eventually learned to be a writer and a painter and she came close to being a ballerina An evocative portrayal of a talented woman s professional and emotional conflicts this study contains extensive notes and new photographs **The Essential Cult TV Reader** David Lavery, 2014-07-11 The Essential Cult TV Reader is a collection of insightful essays that examine television shows that amass engaged active fan bases by employing an imaginative approach to programming Once defined by limited viewership cult TV has developed its own identity with some shows gaining large mainstream audiences By exploring the defining characteristics of cult TV The Essential Cult TV Reader traces the development of this once obscure form and explains how cult TV achieved its current status as legitimate television The essays explore a wide range of cult programs from early shows such as Star Trek The Avengers Dark Shadows and The Twilight Zone to popular contemporary shows such as Lost Dexter and 24 addressing the cultural context that allowed the development of the phenomenon The contributors investigate the obligations of cult series to their fans the relationship of camp and cult the effects of DVD releases and the Internet and the globalization of cult TV The Essential Cult TV Reader answers many of the questions surrounding the form while revealing emerging debates on its future Enterprising Youth Monika Elbert, 2008-06-09 Recommended by Choice Enterprising Youth examines the agenda behind the shaping of nineteenth century children s perceptions and world views and the transmission of civic duties and social values to children by adults The essays in this book reveal the contradictions involved in the perceptions of children as active or passive as representatives of a new order or as receptacles of the transmitted values of their parents The question then is whether the business of telling children s stories becomes an adult enterprise of conservative indoctrination or whether children are enterprising enough to read what many of the contributors to this volume see as the subversive potential of these texts This collection of literary and historical

feminists generally considered modernism a reactionary misogynist and hegemonic mire not worth investigating. Since then enough studies of modernism have appeared that 17 feminist critics can now review and debate their treatment of the period. They evaluate the progress and goals of the new era of modernist scholarship. As the authors in this volume suggest, instead of condemning writers for not practicing or portraying an acceptable politics of gender, we ought instead to show how their assumptions about the nature of the sexes inform their texts both in their creation and in their reception. This also allows examination of the complex and changing relationship between human subjectivity and aesthetics. This volume is a highly reflective dialogue, introspective and evaluative at a moment of crisis within modernist studies and feminist studies. The analysis of critical work on early twentieth century literature not only helps reread and redefine a definition of modernism, it also intends to redirect and reintegrate feminist theory.

Hard-boiled Masculinities Christopher Breu, 2005. The persona of the American male in the period between the two world wars was characterized by physical strength, emotional detachment, aggressive behavior, and an amoral worldview. This ideal of a hard-boiled masculinity can be seen in the pages and even more vividly on the covers of magazines such as *Black Mask*, which shifted from Victorian-influenced depictions of men in top hats and mustaches in the early 1920s to the portrayal of much more overtly violent and muscular men. Looking closely at this transformation, Christopher Breu offers a complex account of how and why hard-boiled masculinity emerged during an unsettled time of increased urbanization and tenuous peace and traces the changes in its cultural conception as it moved back and forth across the divide between high and low culture as well as the color line that bifurcated American society. Examining the work of Ernest Hemingway, Dashiell Hammett, Chester Himes, and William Faulkner, as well as many lesser-known writers for the hypermasculine pulp magazines of the 1920s and 1930s, Breu illustrates how the tough male was a product of cultural fantasy, one that shored up gender and racial stereotypes as a way of lashing out at the destabilizing effects of capitalism and social transformation. Christopher Breu is assistant professor of English at Illinois State University.

Subject Guide to Books in Print, 1997 **Arts & Humanities Citation Index**, 1998 *Memories of Colonisation in Medieval and Modern Castile* Rebecca De Souza, 2024-10-31. *Memories of Colonisation in Medieval and Modern Castile*: Rereading and Refashioning al Andalus traces the evolving memory of a dominant al Andalus in medieval Castilian and later modern Spanish literature and its overlap with contemporary formations of collective identity, race, and nation. It presents a series of close readings of neomedievalist literary works that look back to the socioeconomic apogee of al Andalus, the tenth-century Umayyad Caliphate of Cordoba, from the thirteenth to the nineteenth century. These works rewrite what has become known as the story of the siete infantes de Lara, although it is their Andalusí half brother Mudarra who takes centre stage from the early modern period on. In its earliest form, it is a story of a weak conflictual county of Castile dependent socioeconomically and morally upon Andalusí intervention. This book therefore traces how a story of Castilian weakness is repeatedly rewritten once the reverse colonial dynamic had taken hold and Castile had begun conquering al Andalus.

Memories of Colonisation asks why Mudarra and the infantes continue to reappear in medieval chronicles from the Estoria de Espa a to lesser known regional historiography early modern ballads comedias and nineteenth century Romantic poetry and prose By examining how each of these texts remember tenth century Iberia s fluid geographical and interracial boundaries it explores how they support or challenge dominant contemporary discourses of collective identity race and nation from the neogothic aspirations of thirteenth century Castile to the antisemitism of fifteenth century Toledo expansion in the Mediterranean the Islamophobia of the morisco expulsion and the partisan manipulation of al Andalus under nineteenth century liberalism As the first study of the development of Spanish neomedievalism it explores how this serves as a productive prescient discourse of cultural memory through which chroniclers poets playwrights and authors can look forward It questions the inevitability of Christian Castilian colonial hegemony by invoking a narrative of Christian Iberia s own subjugation by a superior Umayyad Caliphate It also explores how each text exposes the task of reconstructing historical memory in the present and thereby challenges the notion of a stable incontestable past for Castile and Spain

the profound extent to which theological debates about evolution were rooted in such matters as anxieties over control of education the politics of race relations the nature of local scientific traditions and challenges to traditional cultural identity In some settings conciliation with the new theory even endorsement was possible demonstrating that attending to the specific nature of individual communities subverts an inclination to assume a single relationship between science and religion in general evolution and Christianity in particular Livingstone concludes with contemporary examples to remind us that what scientists can say and what others can hear in different venues differ today just as much as they did in the past
