Understanding the Military Design Movement Ben Zweibelson,2023-06-09 This book explains the history and development of the military design movement featuring case studies from key modern militaries Written by a practitioner the work shows how modern militaries think and arrange actions in time and space for security affairs and why designers are disrupting challenging and reconceptualizing everything previously upheld as sacred on the battlefield It is the first book to thoroughly explain what military design is where it came from and how it works at deep philosophically grounded levels and why it is potentially the most controversial development in generations of war fighters The work explains the tangled origins of commercial design and that of designing modern warfare the rise of various design movements and how today s military forces largely hold to a Newtonian stylization built upon mimicry of natural science infused with earlier medieval and religious inspirations Why does our species conceptualize war as such and how do military institutions erect barriers that become so powerful that efforts to design further innovation require entirely novel constructs outside the orthodoxy The book explains design stories from the Israel Defense Force the US Army the US Marine Corps the Canadian Armed Forces and the Australian Defence Force for the first time and includes the theory doctrine organizational culture and key actors involved Ultimately this book is about how small communities of practice are challenging the foundations of modern defence thinking This book will be of much interest to students of military and strategic studies defence studies and security studies as well as design educators and military professionals

A Military History of the Cold War, 1944-1962 Jonathan M.

House, 2014-04-28 The Cold War did not culminate in World War III as so many in the 1950s and 1960s feared, yet it spawned a host of military engagements that affected millions of lives. This book is the first comprehensive multinational overview of military affairs during the early Cold War, beginning with conflicts during World War II in Warsaw, Athens and Saigon, and ending with the Cuban Missile Crisis. A major theme of this account is the relationship between government policy and military preparedness and strategy. Author Jonathan M. House tells of generals engaging in policy confrontations with their governments' political leaders, among them Anthony Eden, Nikita Khrushchev and John F. Kennedy, many of whom made military decisions that hamstrung their own political goals. In the pressure-cooker atmosphere of atomic preparedness, politicians as well as soldiers seemed instinctively to prefer military solutions to political problems. And national security policies had military implications that took on a life of their own. The invasion of South Korea convinced European policy makers that effective deterrence and containment required building up and maintaining credible forces. Desire to strengthen the North Atlantic alliance militarily accelerated the rearmament of West Germany and the drive for its sovereignty. In addition to examining the major confrontations, nuclear and conventional, between Washington, Moscow and Beijing, including the crises over Berlin and Formosa, House traces often overlooked military operations against the insurgencies of the era, such as French efforts in Indochina and Algeria, and British struggles in Malaya, Kenya, Cyprus and Aden. Now more than fifty

years after the events House describes understanding the origins and trajectory of the Cold War is as important as ever By the late 1950s the United States had sent forces to Vietnam and the Middle East setting the stage for future conflicts in both regions House s account of the complex relationship between diplomacy and military action directly relates to the insurgencies counterinsurgencies and confrontations that now occupy our attention across the globe **The History**

Australia joined the United States in fighting a communist inspired insurgency war in the jungles of South Vietnam against infiltrators who sought to overthrow the local government Over 50 000 Australians served in Vietnam 519 lost their lives and the conflict ended ignominiously in the insurgents victory Over 30 years later Australia again finds itself joined with the United States in a struggle against an insurgency this time in the deserts of Iraq and the mountains of Afghanistan Although now in the past the Vietnam War resonates with lessons for the Australian Army as it strives to defeat not Communism but Terrorism Australian Military Operations in Vietnam highlights some of the successes and failures of an earlier generation of officers for the benefit of today s leaders *Colburn's United Service Magazine and Naval and Military Journal* , 1895
