Political Belief in France, 1927-1945 Caroline Campbell, 2015-12-09 In the inter war era the rise of the largest political movement in modern French history the powerful Croix de Feu 1927 1936 and its successor the Parti Social Fran ais or PSF 1936 1945 led to a sharp rightward turn in France s political culture Political Belief in France 1927 1945 traces the central role of women in this shift arguing that they transformed the Croix de Feu PSF from a paramilitary league for veterans into a social reform movement that sought to remake the politics society and culture of the French Republic Following the creation of a Women s Section in 1934 the women of the Croix de Feu PSF developed a wide array of social programs including welfare services youth development and health care initiatives At a time of economic depression and high unemployment these popular programs tempered the organization s fearsome reputation as a violent paramilitary group While the efforts of the Women s Section had the veneer of moderation they accentuated the long standing conservative image of France as a deeply Christian society and sought to assimilate people of different ethnoreligious backgrounds into the dominant national community Croix de Feu PSF women promoted their social agenda as a religious and patriotic duty a reflection of the individual s responsibility to make personal sacrifices on behalf of their vision for France s Christian civilization The Croix de Feu PSF s ethnoreligious nationalism circulated throughout the French imperial nation state making the movement the premier defender of an empire at the height of its power But women in North African branches faced substantial marginalization and the movement remained dangerously sectarian in the Maghreb driving indigenous activists from reformism to anticolonialism The Croix de Feu PSF thus set the stage for both the authoritarian anti Semitic Vichy regime and the decolonization that followed the war The first book on women of the French far right in the age of fascism Political Belief in France 1927 1945 contributes to the fields of French history gender studies the history of fascism and the history of empire

Susan E. Waltz, 2022-07-15 Independence from colonial rule did not usher in the halcyon days many North Africans had hoped for as the new governments in Morocco Tunisia and Algeria soon came to rely on repression to reinforce and maintain power In response to widespread human rights abuses individuals across the Maghrib began to form groups in the late 1970s to challenge the political practices and structures in the region and over time these independent human rights organizations became prominent political actors The activists behind them are neither saints nor revolutionaries but political reformers intent on changing political patterns that have impeded democratization This study the first systematic comparative analysis of North African politics in more than a decade explores the ability of society including Islamist forces to challenge the powers of states Locating Maghribi polities within their cultural and historical contexts Waltz traces state society relations in the contemporary period Even as Algeria totters at the brink of civil war and security concerns rise across the region the human rights groups Susan Waltz examines implicitly challenge the authoritarian basis of political governance Their efforts have not led to the democratic transition many had hoped but human rights have become a crucial new element of North African political discourse This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 *Remaking the Modern World 1900 - 2015 C. The Agony of Algeria Martin Stone, 1997 Stone provides a brief historical overview of Algeria since 1830, before focusing on three crucial phases of the postcolonial era: that of Ben Bella and Boumedienne, the reform era of Chadli Benjedid, and the political and economic crisis under the Higher States Committee (HCE) He examines the dominant state institutions, the army, and the FLN, and outlines the increasingly bitter divisions, social and political, which account for the current crisis Since the Algerian military annulled an election in January 1992 that would have brought to power the world's first democratically elected Islamist government, a civil war has raged in which more than 100,000 Algerians have died The military takeover polarized the country between the political and military elite and the mass of the population The elite were perceived as interested only in personal gain and holding on to power, while most Algerians faced intense hardship But the brutality of the Islamists' insurgency, including car bombings, the murder of immodestly dressed women, the assassination of intellectuals, and the

wiping out of whole villages has lost them support Most Algerians no longer want the Islamic republicanism of the FIS or the millenarianism of the GIA Martin Stone provides a brief overview of Algeria since 1830 before focusing on three crucial phases of the postcolonial era those of Ben Bella Boumedienne and the reformist Chadli Bendjedid and the political and economic crisis under the Haut Comit d tat HCE He examines the dominant state institutions the army and the FLN and the increasingly bitter divisions behind the current conflict especially the factionalism that has hampered ALgeria s attempts to realize its great potential The book also deals with the large Berber minority relations with France the economic background foreign policy the 1997 elections and the administration of President Lamine Zeroual In conclusion it examines whether the state can reconcile the moderate conservative Islam of the majority with the minorities on either pole both Islamic radicals and secularists and create a political landscape where genuine political pluralism can flourish and extremism be suppressed

Citizenship after Orientalism Engin Isin, 2016-04-29 This edited volume presents a critique of citizenship as exclusively and even originally a European or Western institution It explores the ways in which we may begin to think differently about citizenship as political subjectivity *The Palgrave Handbook of African Colonial and Postcolonial History* Martin S. The Imperial Nation Josep M. Fradera, 2021-06-08 How the legacy of monarchical empires shaped Britain France Spain and the United States as they became liberal entities Historians view the late eighteenth and early nineteenth centuries as a turning point when imperial monarchies collapsed and modern nations emerged Treating this pivotal moment as a bridge rather than a break *The Imperial Nation* offers a sweeping examination of four of these modern powers Great Britain France Spain and the United States and asks how after the great revolutionary cycle in Europe and America the history of monarchical empires shaped these new nations Josep Fradera explores this transition paying particular attention to the relations between imperial centers and their sovereign territories and the constant and changing distinctions placed between citizens and subjects Fradera argues that the essential struggle that lasted from the Seven Years War to the twentieth century was over the governance of dispersed and varied peoples each empire tried to ensure domination through subordinate representation or by denying any representation at all The most common approach echoed Napoleon s special laws which allowed France to reinstate slavery in its Caribbean

possessions The Spanish and Portuguese constitutions adopted specialness in the 1830s the United States used comparable guidelines to distinguish between states territories and Indian reservations and the British similarly ruled their dominions and colonies In all these empires the mix of indigenous peoples European origin populations slaves and indentured workers immigrants and unassimilated social groups led to unequal and hierarchical political relations Fradera considers not only political and constitutional transformations but also their social underpinnings Presenting a fresh perspective on the ways in which nations descended and evolved from and throughout empires The Imperial Nation highlights the ramifications of this entangled history for the subjects who lived in its shadows The Nation and Its New Women Ellen

Fleischmann,2003-04-01 Though they are almost completely absent from the historical record Palestinian women were extensively involved in the unfolding national struggle in their country during the British mandate period Led primarily by urban educated women from the middle and upper classes of Arab society Palestinian women struggled against British colonialism and against Jewish settlement by holding a national congress meeting with government officials smuggling arms demonstrating and participating in regional and international conferences This book is the first comprehensive historical study of the emergence and development of the Palestinian women s movement in this important historical period Drawing from little studied source material including oral histories newspapers memoirs and government documents Ellen Fleischmann not only shows what these women accomplished within the political arena but also explores the social cultural and economic contexts within which they operated Charting the emergence of an indigenous feminism in Palestine this work joins efforts to broaden European and American definitions of feminism by incorporating non Western perspectives **A**

Butenschøn,Kristian Berg Harpviken,2024-04-19 Showcasing the legacy of Norwegian political scientist and sociologist Stein Rokkan this volume ushers in a new vision in the field of state formation and nation building After Appomattox Gregory P. Downs,2019-08-13 Original and revelatory David Blight author of Frederick Douglass Avery O Craven Award Finalist A Civil War Memory Civil War Monitor Best Book of the Year In April 1865 Robert E Lee wrote to Ulysses S Grant asking for peace Peace was beyond his authority to negotiate Grant replied but surrender terms he would discuss The distinction proved prophetic After Appomattox reveals that the Civil War did not end with Confederate capitulation in 1865 Instead a second phase of the war began which lasted until 1871 not the project euphemistically called Reconstruction but a state of genuine belligerence whose mission was to shape the peace Using its war powers the U S Army oversaw an ambitious occupation stationing tens of thousands of troops in outposts across the defeated South This groundbreaking history shows that the purpose of the occupation was to crush slavery in the face of fierce and violent resistance but there were limits to its effectiveness the occupying army never really managed to remake the South The United States Army has been far too neglected as a player a force in the history of Reconstruction Downs wants his work to speak to the present and indeed it

should David W Blight *The Atlantic Striking Downs* chronicles a military occupation that was indispensable to the uprooting of slavery Boston Globe *Downs* makes the case that the final end to slavery and the establishment of basic civil and voting rights for all Americans was born in the face of bayonets A remarkable necessary book Slate *Encyclopedia of African History* Kevin Shillington,2005 Offers more than one thousand entries covering all aspects of African history civilization and culture *Understanding and Teaching the Modern Middle East* Omnia El Shakry,2020-10-20 Many students learn about the Middle East through a sprinkling of information and generalizations deriving largely from media treatments of current events This scattershot approach can propagate bias and misconceptions that inhibit students abilities to examine this vitally important part of the world *Understanding and Teaching the Modern Middle East* moves away from the Orientalist frameworks that have dominated the West s understanding of the region offering a range of fresh interpretations and approaches for teachers The volume brings together experts on the rich intellectual cultural social and political history of the Middle East providing necessary historical context to familiarize teachers with the latest scholarship Each chapter includes easy to explore sources to supplement any curriculum focusing on valuable and controversial themes that may prove pedagogically challenging including colonization and decolonization the 1979 Iranian revolution and the US led war on terror By presenting multiple viewpoints the book will function as a springboard for instructors hoping to encourage students to negotiate the various contradictions in historical study *Guerrilla War, Counterinsurgency, and State Formation in Ottoman Yemen, 1872-1911* Vincent Wilhite,2024-06-03 Scholarship on Ottoman Yemen in the 19th and early 20th centuries is still in the beginning stages and there are no modern military histories in European languages of that period This book captures the turbulence of late Ottoman Yemen with vivid descriptions of the battles and campaigns between the Zayd Shiite tribesmen of Yemen and the Ottoman forces It also provides a clear analysis of the political context of these wars discussing how the political structures and ideologies of both the Ottomans and the Zayd rebels impacted the course of these wars and in turn how these wars affected these political structures and ideologies
