**The Modern American Urban Novel** Arnold L. Consuming Urban Culture in Contemporary Vietnam Lisa Drummond, Mandy Thomas, 2005-07-25 Vietnam is currently undergoing a metamorphosis from a relatively closed society with a centrally planned economy to a rapidly urbanising one with a global outlook These changes have been the catalyst for an exciting ferment of activity in popular culture This volume contains contributions from scholars engaged in the most up to date social research in Vietnam as well as some of Vietnam s most popular cultural producers who are forging new ways of imagining the present whilst at the same time engaging actively in reinterpreting the past The diverse ways that Vietnam is culturally and socially negotiating the future are examined as the book addresses issues of indigenisation of cultural influences ambivalence surrounding change and the consistent blurring of boundaries between informal non state cultural activities and formal institutional structures in the evolution of a civil society in Vietnam **Faulkner and the Ecology of the South** Joseph R. Urgo, Ann J.

Abadie, 2009-09-18 In 1952 Faulkner noted the exceptional nature of the South when he characterized it as the only really authentic region in the United States because a deep indestructible bond still exists between man and his environment The essays collected in Faulkner and the Ecology of the South explore Faulkner s environmental imagination seeking what Ann Fisher Wirth calls the ecological counter melody of his texts Ecology was not a term in common use outside the sciences in Faulkner s time However the word environment seems to have held deep meaning for Faulkner Often he repeated his abiding interest in man in conflict with himself with his fellow man or with his time and place his environment Eco criticism has led to a renewed interest among literary scholars for what in this volume Cecelia Tichi calls humanness within congeries of habitats and environments Philip Weinstein draws on Pierre Bourdieu s notion of habitus Eric Anderson argues that Faulkner s fiction has much to do with ecology in the sense that his work often examines the ways in which human communities interact with the natural world and Fran ois Pitavy sees Faulkner s wilderness as unnatural in the ways it represents reflections of man s longings and frustrations Throughout these essays scholars illuminate in fresh ways the precarious

**Subversive Voices** Evelyn Jaffe Schreiber, 2001 In *Subversive Voices* Evelyn Jaffe Schreiber investigates the intersection of identity and culture as manifested in the novels of William Faulkner and Toni Morrison Drawing on the psychoanalytic theory of Jacques Lacan as well as on various cultural studies theories Schreiber offers provocative new insights into these two writers and what their work reveals about the possibilities of social change Schreiber considers how blacks and women through their subversive voices and articulation of difference produce change despite the psychic and cultural structures that would determine identity The author begins her examination of these marginalized voices by analyzing the patriarchal structure depicted in Faulkner's *Go Down Moses* She goes on to trace the subversive voices of women in the *Snopes* trilogy before considering the emergent voices of blacks in Faulkner's work generally as well as specifically in *Intruder in the Dust* In the second half of the book Schreiber analyzes the articulation of difference that Morrison presents through the black and female characters of *The Bluest Eye* *Song of Solomon* *Beloved* and *Paradise* In Faulkner's work Schreiber argues nostalgia provides a screen that preserves the power of patriarchal structures and serves to eroticize the other for the dominant culture by using marginalized others to fulfill the desire for an imagined wholeness Yet in spite of this screen agency or empowerment does emerge for these marginalized voices in Faulkner In Morrison's novels the absence of a nostalgic screen highlights these subversive voices the dominant culture's eroticized imagined other becomes a threatening entity and gains agency Schreiber suggests that meaningful action and change can occur through encounters with what Lacan calls the real an awareness of the nothingness at the core of identity Recognition of this nothingness allows the reality of the other to manifest itself and have agency in the social world The works of both Faulkner and Morrison reveal whether obliquely or directly how subversive voices emerge to expose this

lack Such exposure then creates a form of self awareness that can lead to cultural transformation The Author Evelyn Jaffe Schreiber is an assistant professor of English at George Washington University Her articles have appeared in the Faulkner Journal Style Mississippi Quarterly and other publications      **Mixed Media in Contemporary American Literature** Joelle Mann, 2021-06-28 Mixed Media in Contemporary American Literature Voices Gone Viral investigates the formation and formulation of the contemporary novel through a historical analysis of voice studies and media studies After situating research through voices of nineteenth and twentieth century American literature this book examines the expressions of a multi media vocality examining the interactions among cultural polemics aesthetic forms and changing media in the twenty first century The novel studies shown here trace the ways in which the viral aesthetics of the contemporary novel move language out of context recontextualizing human testimony by galvanizing mixed media forms that shape contemporary literature in our age of networks Through readings of American authors such as Claudia Rankine David Foster Wallace Jennifer Egan Junot Diaz Michael Chabon Joseph O Neill Michael Cunningham and Colum McCann the book considers how voice acts as a site where identities combine conform and are questioned relationally By listening to and tracing the spoken and unspoken voices of the novel the author identifies a politics of listening and speaking in our mediated informational society      *The Palgrave Encyclopedia of Urban Literary Studies* Jeremy Tambling, 2022-10-29 This encyclopaedia will be an indispensable resource and recourse for all who are thinking about cities and the urban and the relation of cities to literature and to ways of writing about cities Covering a vast terrain this work will include entries on theorists individual writers individual cities countries cities in relation to the arts film and music urban space pre early and modern cities concepts and movements and definitions amongst others Written by an international team of contributors this will be the first resource of its kind to pull together such a comprehensive overview of the field      **Publishers Trade List Annual, 1992** ,1992
