Garden and Metaphor Ana Kučan, Mateja Kurir, 2023-10-24 Never before had the garden to fulfil so many demands as it does today It is a refuge from digitalised life and acts as a bridge to nature As a man made place where plants grow it is cultivated and untamable at the same time While for centuries the gardener's ambition was to control and subjugate nature today it serves more as a place for retreat a possible surrogate for wilderness a habitat for animals or it fulfils the dream of self sufficiency In this book landscape architects sociologists architects artists philosophers and historians illuminate different aspects of the garden in the Anthropocene in six chapters the garden as a place of community garden as art garden as a place of enchantment and rapture opening up questions of what garden as a model could stand for

Machine in the Studio Caroline A. Jones, 1996 Drawing on extensive interviews with artists and their assistants as well as close readings of artworks Jones explains that much of the major work of the 1960s was compelling precisely because it was mainstream central to the visual and economic culture of its time

Antimodernism and Artistic Experience Lynda Lee Jessup, 2001-12-15 Antimodernism is a term used to describe the international reaction to the onslaught of the modern world that swept across industrialized Western Europe North America and Japan in the decades around the turn of the twentieth century Scholars in art history anthropology political science history and feminist media studies explore antimodernism as an

artistic response to a perceived sense of loss in particular the loss of authentic experience Embracing the authentic as a redemptive antidote to the threat of unheralded economic and social change antimodernism sought out experience supposedly embodied in pre industrialized societies in medieval communities or oriental cultures in the Primitive the Traditional or Folk In describing the ways in which modern artists used antimodern constructs in formulating their work the contributors examine the involvement of artists and intellectuals in the reproduction and diffusion of these concepts In doing so they reveal the interrelation of fine art decorative art souvenir or tourist art and craft questioning the ways in which these categories of artistic expression reformulate and naturalise social relations in the field of cultural production

Monochrome Craig Staff, 2015-09-17 The monochrome a single colour of paint applied over the entirety of a canvas remains one of the more contentious modernist artistic inventions But whilst the manufacture of these pictures of nothing was ostensibly straightforward their subsequent theorisation has been anything but More than a history Monochrome Darkness and Light in Contemporary Art is the first account of the monochrome s lively

role in contemporary art Liberated from the burden of representation the monochrome first stood for emancipation an ideological and artistic impulse that characterised the avant garde of the early twentieth century Historically the monochrome embodied the most extreme form of abstraction and pure materiality Yet more recently adaptations of the art form have focused on a broader range of cultural and interpretive contexts Provocative innovative and timely this book argues that the latest artistic strategies go beyond stylistic concerns and instead seek to re engage with ideas around authorship process and the conditions of the visible as they are given and understood through both light and darkness Discussing works by artists such as Katie Paterson Hiroshi Sugimoto Tom Friedman Bruno Jakob Sherrie Levine and Ceal Floyer the book shows that the debates around an artwork s form and its possibility for meaning that the monochrome first engendered remain very much alive in contemporary visual culture *The Matter of High Words* Robert Chodat,2017 In a world of matter how can we express what matters This book examines a constellation of post WWII authors who pose this question through both art and argument Seeking to dramatize our highest words these postwar sages raise essential questions about meaning language science and modernity Modernism's Second Act: A Cultural Narrative I. Nadel,2012-12-17 European modernism underwent a massive change from 1930 to 1960 as war altered the cultural landscape This account of artists and writers in France and England explores how modernism survived under authoritarianism whether Fascism National Socialism or Stalinism and how these artists endured by balancing complicity and resistance

The Postcolonial City and its Subjects Rashmi Varma,2011-08-05 This book considers twentieth and twenty first century literary and cultural formations of the postcolonial city and the constitution of new subjects within it Varma offers a reading of both historical and contemporary debates on urbanism through the filter of postcolonial fictions and the cultural fields surrounding and containing them In particular she presents a representational history of London Nairobi and Bombay in the twentieth and twenty first centuries and engages three key theoretical frameworks the city within postcolonial theory and culture its troubled salience in the construction of postcolonial public

spheres and identities from local rural ethnic tribal and regional to national cosmopolitan and transnational subjects and spaces postcolonial fictions as constituting a new world literary space and as a site of the articulation of contending narratives of urban space global culture and postcolonial development and postcolonial feminist citizenship as a universal political project challenging current neo liberal and post neo liberal contractions and eviscerations of public spaces and rights

The Public Image Robert Hariman, John Louis Lucaites, 2016-11-07 Even as the media environment has changed dramatically in recent years one thing at least remains true photographs are everywhere From professional news photos to smartphone selfies images have become part of the fabric of modern life And that may be the problem Even as photography bears witness it provokes anxieties about fraudulent representation even as it evokes compassion it prompts anxieties about excessive exposure Parents and pundits alike worry about the unprecedented media saturation that transforms society into an image world And yet a great news photo can still stop us in our tracks and the ever expanding photographic archive documents an era of continuous change By confronting these conflicted reactions to photography Robert Hariman and John Louis Lucaites make the case for a fundamental shift in understanding photography and public culture In place of suspicions about the medium's capacity for distraction deception and manipulation they suggest how it can provide resources for democratic communication and thoughtful reflection about contemporary social problems The key to living well in the image world is to unlock photography from viewing habits that inhibit robust civic spectatorship Through insightful interpretations of dozens of news images *The Public Image* reveals how the artistry of the still image can inform challenge and guide reflection regarding endemic violence environmental degradation income inequity and other chronic problems that will define the twenty first century By shifting from conventional suspicions to a renewed encounter with the image we are challenged to see more deeply on behalf of a richer life for all and to acknowledge our obligations as spectators who are crucially also citizens

Writing for Hire Catherine L. Fisk, 2016-10-17 Professional writers may earn a tidy living for their work but they seldom own their writing Catherine Fisk traces the history of labor relations that defined authorship in film TV and advertising in the mid twentieth century showing why strikingly different norms of attribution emerged in these overlapping industries

The Symbolist Roots of Modern Art Professor Michelle Facos, Dr Thor J Mednick, 2015-07-28 The essays collected here which consider artists from France to Russia and Finland to Greece argue persuasively that Symbolist approaches to content form and subject helped to shape twentieth century Modernism Well known figures such as Kandinsky Khnopff Matisse and Munch are considered alongside lesser known artists such as Fini Gyzis Koen and Vrubel in order to demonstrate that Symbolist art did not constitute an isolated moment of wild experimentation but rather an inspirational point of departure for twentieth century developments
