Modern Britain Julian Petley,2011-05-17 How does film and video censorship operate in Britain Why does it exist And is it too strict Starting in 1979 the birth of the domestic video industry and the first year of the Thatcher government this critical study explains how the censorship of films both in cinemas and on video and DVD has developed in Britain As well as presenting a detailed analysis of the workings of the British Board of Film Classification Petley casts his gaze well beyond the BBFC to analyse the forces which the Board has to take into account when classifying and censoring These range from laws such as the Video Recordings Act and Obscene Publications Act and how these are enforced by the police and Crown Prosecution Service and interpreted by the courts to government policy on matters such as pornography In discussing a climate heavily coloured by 30 years of lurid video nasty stories propagated by a press which is at once censorious and sensationalist and which has played a key role in bringing about and legitimating one of the strictest systems of film and video DVD censorship in Europe this book is notable for the breadth of its contextual analysis its critical stance and its

belief in England and Scotland between c 1650 and c 1750 It enriches our understanding through examining hundreds of discussions of the relationship between human nature and religion from a variety of genres and contexts It shows that belief in religious innatism was a ubiquitous and enduring claim about human nature across the continuum of Christian thought in early modern Britain and one deployed for a variety of reasons While the doctrine of innate religious ideas did fall out of use the belief that human nature was framed for religion continued in new forms into the eighteenth century **Contemporary**
