Paine,2019-02-18 Now in a fully updated edition this accessible text provides a balanced history of modern China in a global context Through years of living and research in China Taiwan Japan and Russia the authors are deeply qualified to understand China s internal dynamics as well as its foreign relations over centuries Arguing that modern Chinese history cannot be understood without a deep appreciation of the outside factors that have influenced the country the authors focus on China s near neighbors especially Japan and Russia They also emphasize the tragic role of almost endless warfare throughout Chinese history Providing a unique comparative approach the authors bridge the cultural divide separating Chinese history from Western readers trying to understand it Specifically geared to the teaching requirements of the semester system the book is divided into four parts and a total of twenty eight chapters corresponding either to two chapters per week in a fourteen week semester or one chapter per week in a two semester course **Commercial Networks in Modern Asia** Linda Grove,Shinya Sugiyama,2013-12-19 This volume brings together an international team of scholars who examine the development of commercial networks in Asia from the 18th century to the 20th century on a stage that stretches from Yokohama and Pusan to Istanbul The studies based on extensive archival research focus on the trading firms and merchant groups that were the chief actors in the creation of the commercial networks that crisscrossed Asia linking the various Asian economies to each other and to Europe and the Americas While some of this work has been available in Japanese Chinese and Dutch this is the first time that such a broad range of essays has been made available to an English speaking audience The thirteen essays can be roughly divided into two groups The first group includes essays that look at the development of large scale networks and plot the competition between competing indigenous and foreign merchant groups in the trade in such products as sugar and cotton yarn in China cotton goods in Japan silk in Iran Japanese manufactures in Dutch Indonesia and rice and cotton in India The second group of essays focuses on the activities of specific firms as a way to explore the development of trading networks This group includes essays that look at the activities of Chinese and Japanese merchants in Korea at the growth of a

commercial empire built on the sale of patent drugs in Southeast Asia and at the activities of European trading firms in Asia. The book should appeal to a wide range audience. Most directly concerned are economic historians.

Historical Archaeology of Early Modern Colonialism in Asia-Pacific Maria Cruz Berrocal, Cheng-hwa Tsang, 2017-12-28. The essential source for scholarly reassessment of the Asia Pacific region's diverse and significant archaeology and history. James P. Delgado coauthor of *The Maritime Landscape of the Isthmus of Panama*. Underpins a nuanced picture of Asia Pacific that shows how the activities of the Chinese and Japanese in East Asia, the spread of Islam from South Asia and the efforts of the Iberians and especially the Spanish from southern Europe ushered in a world of complex interaction and rapid and often profound change in local regional and wider cultural patterns. Ian Lilley editor of *Archaeology of Oceania*. Australia and the Pacific Islands. The history of Asia Pacific since 1500 has traditionally been told with Europe as the main player ushering in a globalized capitalist world. But these volumes help decentralize that global history revealing that preexisting trade networks and local authorities influenced the region before and long after Europeans arrived. In the volume *The Southwest Pacific and Oceanian Regions* case studies from Alofi, Vanuatu, the Marianas, Hawaii, Guam and Taiwan compare the development of colonialism across different islands. Contributors discuss human settlement before the arrival of Dutch, French, British and Spanish explorers tracing major exchange routes that were active as early as the tenth century. They highlight rarely examined sixteenth and seventeenth century encounters between indigenous populations and Europeans and draw attention to how cross cultural interaction impacted the local peoples of Oceania. The volume *The Asia Pacific Region* looks at colonialism in the Philippines, China, Japan and Vietnam emphasizing the robust trans regional networks that existed before European contact. Southeast Asia had long been influenced by Buddhist, Hindu and Muslim traders in ways that helped build the region's ethnic and political divisions. Essays show the complexity and significance of maritime trade during European colonization by investigating galleon wrecks in Manila, Japan's porcelain exports and Spanish coins discovered off China's coast. Packed with archaeological and historical evidence from both land and underwater sites impressive in geographical scope and featuring perspectives of scholars from many different countries and traditions these volumes illuminate the often misunderstood nature of early colonialism in Asia Pacific.
