motifs related to aspects of human relationships in contemporary Irish women's short stories from the late 1960s to the present. These relationships examined embrace not only relationships between men and women as married couples and lovers but also women to women relationships as mothers, daughters, sisters or lovers. This book has uncovered certain recurrent motifs which may be construed as archetypal and are employed as a narrative device to express a certain level of feminist awareness by Irish female writers in their stories against the backdrop of Irish feminism emerged in the late 1960s. This feminist aspect of Irish women's stories appears to address the paradoxes of patriarchal ideology underlying male domination in male female courtship and marriages, the conflict between patriarchally loyal mothers and rebellious daughters, powerless but rival female siblings and peers competing for limited resources and male attention under the Father's law. Motifs of resistance and subversion serve in these stories as metaphors unveiling female protests against an ideology which defines and confines women in the Irish patriarchal context. This book demonstrates a process of transition during which Irish female writers progress from the depiction of women who struggle and fight against unfairness and distortion within an androcentric culture to a new direction in which such writers describe a situation where women recognise the internalisation of the false consciousness of patriarchy and out of this recognition may be eventually able to develop further their sense of self and individuality. The archetypal motifs in Irish women's stories also illustrate a kind of continuity of an ancient female archetype of female rebellious powers which in female literary imagination never ceases to resurface in the face of patriarchal suppression.

Dictionary of Munster Women Writers 1800-2000 Tina O'Toole, 2005. This dictionary will make an important contribution to the knowledge of writing in Munster in both Irish and English over the past 200 years. The dictionary has entries on 560 writers including 220 in Irish. Each entry contains a bibliographical note, a list of key references and a bibliography where applicable. Advances literary and cultural as distinct from primarily historical research on the region of Munster over the last two centuries enables a new view as a whole of the work of women writers juxtaposes the work of Irish English language and bilingual writers and thereby helps to develop an understanding of the province of Munster as a diverse cultural milieu and focus on the role of regionality in the process of cultural creation. The Munster Women Writers Project based in the English Department at University College Cork was a recovery project aiming to make available the basic materials for biographical and literary research and analysis on the extensive number of women writers with Munster backgrounds or strong Munster connections in the period 1800-2000. The objective was to make more information on these writers available for future literary historians, feminist critics and social historians to develop knowledge and understanding of this material. By making available the basic materials for scholarly research in this field, the project aims to help generate critical analysis of the role of regional class and gender factors in the formation of writers and the intersection of these factors in the nature of the work produced.

Politics in the Republic of Ireland John Coakley, Michael Gallagher, 2012-12-12. *Politics in the Republic of Ireland* is now available in a fully revised fourth edition. Building on the success of the previous

three editions this text continues to provide an authoritative introduction to all aspects of politics in the Republic of Ireland. Written by some of the foremost experts on Irish politics it explains, analyzes and interprets the background to Irish government and contemporary political processes. Crucially it brings the student up to date with the very latest developments. New patterns of government formation, challenges to the established political parties, ever deepening if sometimes ambivalent involvement in the process of European integration, a growing role in the politics of Northern Ireland and sustained discussion of gender issues are among these developments along with evidence revealed by several tribunals of enquiry that Irish politics is not as free of corruption as many had assumed.

Literary Research and Irish Literature Greg J. Matthews, 2008-12-04 Literary Research and Irish Literature Strategies union library catalogs print and online bibliographies manuscripts and archives microfilm and digitization projects scholarly journals periodicals newspapers and reviews and electronic and Web resources To ease comparison and evaluation of references each chapter addresses how to choose and utilize research methods and tools to yield the most relevant information. This guide also examines the strengths and weaknesses of core and specialized electronic and print research tools and standard search techniques and when appropriate covers the historical and cultural contexts and usability issues of unique reference sources. This volume number 5 in the series raises trenchant issues in Irish literary scholarship such as the problem of defining what Irish literature is, gaps in criticism and secondary literature devoted to Irish literature, neglected areas of scholarly inquiry including Irish literature by women and lesser known writers and the rewards of interdisciplinary research. It concludes with a brief consideration of a scenario illustrating how a scholar might use strategies and sources covered in the text to solve a research problem.
