Process: Architecture ,1994 Modernity and the Architecture of Mexico Edward R. Burian,2010-06-28 Since the mid 1970s there has been an extraordinary renewal of interest in early modern architecture both as a way of gaining insight into contemporary architectural culture and as a reaction to neoconservative postmodernism This book undertakes a critical reappraisal of the notion of modernity in Mexican architecture and its influence on a generation of Mexican architects whose works spanned the 1920s through the 1960s Nine essays by noted architects and architectural historians cover a range of topics from broad based critical commentaries to discussions of individual architects and buildings Among the latter are the architects Enrique del Moral Juan O Gorman Carlos Obreg n Santacilia Juan Segura Mario Pani and the campus and stadium of the Ciudad Universitaria in Mexico City Relatively little has been published in English regarding this era in Mexican architecture Thus *Modernity and the Architecture of Mexico* will play a groundbreaking role in making the underlying assumptions ideological and political constructs and specific architect s agendas known to a wide audience in the humanities Likewise it should inspire greater appreciation for this undervalued body of works as an important contribution to the modern movement *Architecture and Building* ,1923 *Pacific Coast Architect* ,1924 *Architecture* ,1912 *The Western Architect* ,1911 *Understanding Architecture* Hazel Conway,Rowan Roenisch,2005 *Understanding Architecture* is a comprehensive introduction to architecture and architectural history and exceptional in its approach *The Architecture of Bart Prince* Christopher Curtis Mead,1999 The only book on the exuberant work of a uniquely original American architect Bart Prince whose breathtaking buildings stand from Ohio to Hawaii is recognized internationally for embodying the American tradition of individualism personified by Louis Sullivan Frank Lloyd Wright and Bruce Goff *Industrial Arts Index* ,1927 **Readers' Guide to Periodical Literature** Anna Lorraine Guthrie,Bertha Tannehill,Neltje Marie Tannehill Shimer,1925 An author subject index to selected general interest periodicals of reference value in libraries **The Making of Mexican Modernist Architecture** Celia Esther Arredondo Zambrano,2023-05-03 This book presents the making of Mexican Modernist architecture through five power structures academic social status economic political gender and postcolonial and by interviews and analysis of 13 key Mexican architects These include Luis Barrag n Jos Villagr n Garc a Juan O Gorman Pedro Ram rez V zquez Agust n Hern ndez Abraham Zabludovsky Carlos Mijares Ricardo Legorreta Juan Jos D az Infante Enrique Norton Alberto Kalach Javier Sordo Madaleno and Clara de Buen Although the five power structures framed what was built the testimony of these Mexican architects helps us to recognize and discover subtleties and nuances Their views thereby shed light on what contributed to making Mexican Modernist architecture so distinctive globally Even if these architects were not always aware of the power structures their projects nonetheless supported discrimination marginalization and subjugation In that sense the book also reveals the extent to which these power structures are still present today The Making of Mexican Modernist Architecture s uniqueness lies in uncovering the remarkable buildings that

arose amid the five power structures while at the same time questioning their validity It also voices the urgent need today for a new kind of architecture outside these boundaries The book is essential reading for anyone studying Mexican and Latin American architecture *Temples for a Modern God* Jay M. Price,2012-11-02 Temples for a Modern God is one of the first major studies of American religious architecture in the postwar period and it reveals the diverse and complicated set of issues that emerged just as one of the nation s biggest building booms unfolded Jay Price tells the story of how a movement consisting of denominational architectural bureaus freelance consultants architects professional and religious organizations religious building journals professional conferences artistic studios and specialized businesses came to have a profound influence on the nature of sacred space Debates over architectural style coincided with equally significant changes in worship practice Meanwhile suburbanization and the baby boom required a new type of worship facility one that had to attract members and serve a social role as much as honor the Divine Price uses religious architecture to explore how Mainline Protestantism Catholicism Judaism and other traditions moved beyond their ethnic regional and cultural enclaves to create a built environment that was simultaneously intertwined with technology and social change yet rooted in a fluid and shifting sense of tradition Price argues that these structures as often mocked as loved were physical embodiments of a significant if underappreciated era in American religious history **The American Architect and Building News** ,1883
