Ennio Morricone's The Good, the Bad and the Ugly Charles Leinberger, 2004-09 This guide demonstrates Morricone's unique and enduring contributions to the art of film music through a discussion of his compositional and orchestrational processes, many of which are evident in his music for *The Good, the Bad and the Ugly* in a way that can be easily understood by both musicians and nonmusicians. Though the guide illuminates theoretical and structural aspects of Morricone's music, it also examines relevant non-musical issues which contribute to the audience's total experience of the film.

The Twenty-First-Century Western Douglas Brode, Shea T. Brode, 2019-12-12 Focusing on twenty-first-century Western films, including all major releases since the turn of the century, the essays in this volume cover a broad range of aesthetic and thematic aspects explored in these films, including gender and race. As diverse contributors focus on the individual subgenres of the traditional Western—the gunfighter, the Cavalry vs. Native American conflict, the role of women in Westerns, etc.—they share an understanding of the twenty-first-century Western, which may be understood as a genre in

itself They argue that the films discussed here reimagine certain aspects of the more conventional Western and often reverse the ideology contained within them while employing certain forms and clichés that have become synonymous internationally with Westerns The result is a contemporary sensibility that might be referred to as the postmodern Western
