Philosophy's Cool Place:

D.Z. Phillips' Contemplative Philosophy of Religion Andy F. Sanders, 2016-05-13 This collection presents a critical discussion and exploration of the late D Z Phillips contemplative approach in the philosophy of religion What are the main characteristics of this ground breaking approach which is inspired by thinkers like Kierkegaard and Wittgenstein and meant as a serious critical alternative to the mainstream way of doing philosophy of religion What is its aim if it is deliberately avoiding apology and defence of faith How does Phillips approach relate to systematic historical and empirical theology and is it really as neutral as he claims it to be Or is he perhaps a certain kind of theologian What are the implications of his contemplative philosophy for central issues of religious life today such as petitionary prayer the hope of eternal life and radical religious diversity The essays of six distinguished scholars from five different nations critically and sympathetically address these questions and are responded to by Phillips in essays of his own written briefly before his sudden death in July 2006

Philosophy's Cool Place Dewi Zephaniah Phillips, 1999 Ludwig Wittgenstein established a cool stance for philosophy contemplating the world without meddling in it D Z Phillips explores this position focusing on its implications for philosophical authorship and the philosophical investigation of the nature of reality Influenced by the views of Wittgenstein and his pupil Rush Rhees Phillips who is one of Rhees's own students first contrasts Wittgenstein's methods with Kierkegaard's religiously oriented dialectic He describes the difficulty in sustaining a contemplative view of philosophy and discusses efforts to go beyond it in the work of Richard Rorty Stanley Cavell Annette Baier and Martha Nussbaum who in different ways propose to make philosophy a guide to living A provocative and challenging work Philosophy's Cool Place is one of the few books that addresses the discipline as an enterprise and explores its relation to moral values religious belief and the nature of Reality By advancing the cause of neutrality it will stimulate debate and foster discussion of what philosophy is to become in the postmodern era

D. Z. Phillips on Religious Language, Religious Truth, and God Hyoseok Kim, 2022-02-25 D Z Phillips 1934 2006 was one of the most influential ingenious and perhaps controversial thinkers in the Anglo American philosophy of religion In particular he is widely regarded as a leading proponent of a Wittgensteinian approach to the philosophy of religion While almost every book on religious language or Anglophone philosophy of religion deals with Phillips thought or at least mentions his name all too frequently his position has been grossly misunderstood and has often attracted unwarranted criticism from various sides Seeking to offer a constructive presentation and critical discussion of Phillips view of philosophy religious language religious truth and God Hyoseok Kim endeavors to resolve some misunderstandings refute undue criticisms of Phillips position and make some suggestions concerning directions in which his view might and ought to be further developed

Wittgenstein within the Philosophy of Religion Thomas D. Carroll, 2014-07-08 The commonly held view that Wittgensteinian philosophy of religion is fideistic loses plausibility when contrasted with recent scholarship on Wittgenstein's corpus and biography This book reevaluates the place of Wittgenstein in

the philosophy of religion and charts a path forward for the subfield by advancing three themes Moral Philosophy and Moral Life Anne-Marie S. Christensen, 2021 Anne Marie S. Christensen presents a new account of the role of moral philosophy and its relationship to our ordinary moral lives She challenges the idea that moral theories have an authoritative explanatory or action guiding role and develops instead a descriptive pluralistic and elucidatory conception of moral philosophy **Philosophy of Religion in the Twenty-First Century** D. Phillips, T. Tessin, 2001-10-25 This book offers the rare opportunity to assess within a single volume the leading schools of thought in contemporary philosophy of religion Their exponents seek to meet objections made to their point of view and to relate it to the other schools represented Further discussions between adherents of the different schools make it an ideal text for assessing the deep proximities and divisions which characterize contemporary philosophy of religion The schools of thought represented are Philosophical Theism Reformed Epistemology Wittgensteinianism Postmodernism Critical Theory and Process Thought Wittgenstein and the End of Philosophy D. Hutto, 2003-09-30 What is the true worth of Wittgenstein's contribution to philosophy Opinions are strongly divided with many resting on misreadings of his purpose This book challenges theoretical and therapeutic interpretations proposing that Wittgenstein saw clarification as the true end of philosophy that his approach exemplifies critical philosophy *Historical Dictionary of Wittgenstein's Philosophy* Duncan Richter, 2014-04-04 Ludwig Wittgenstein was the most influential and arguably the greatest philosopher of the 20th century This fact about his influence is not only a matter of how much he influenced people but also of how many people he influenced His early work was taken up by some of the pioneers of analytical philosophy His later work helped spawn another movement within analytic philosophy that of ordinary language philosophy sometimes called Oxford philosophy He is also considered by some to be a key postmodern thinker and an interest in his work is a distinguishing feature of many post analytical philosophers who seek to bridge the gap between analytical and so called continental philosophy This second edition of *Historical Dictionary of Wittgenstein's Philosophy* covers the history of this philosophy through a chronology an introductory essay and an extensive bibliography The dictionary section has over 300 cross referenced entries on every aspect of his work This book is an excellent access point for students researchers and anyone wanting to know more about Wittgenstein's philosophy *Wittgenstein, Concept Possession and Philosophy* H. A. Knott, 2006-11-28 This book is a Wittgensteinian study of concept possession and conceptual investigation in philosophy It offers advanced introduction to Wittgenstein's philosophy and original treatment of its most crucial regions Written as a Socratic dialogue with a glance to Plato it makes a bold claim about Wittgenstein's place in Western philosophy **A Dictionary of Philosophy of Religion, Second Edition** Charles Taliaferro, Elsa J. Marty, 2018-01-25 A Dictionary of Philosophy of Religion is an indispensable resource for students and scholars Covering historical and contemporary figures arguments and terms it offers an overview of the vital themes that make philosophy of religion the growing vigorous field that it is today It covers world religions and sources from east and west Entries have been

crafted for clarity succinctness and engagement This second edition includes new entries extended coverage of non Christian topics as well as revisions and updates throughout The first edition was named a Choice Outstanding Academic Title of the Year

Embracing the Tune of Phrase: An Emotional Symphony within **Philosophys Cool Place**

In a world eaten by screens and the ceaseless chatter of instantaneous interaction, the melodic elegance and psychological symphony developed by the published term usually fade in to the backdrop, eclipsed by the persistent sound and disruptions that permeate our lives. Nevertheless, situated within the pages of **Philosophys Cool Place** a stunning literary prize filled with fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by an outstanding musician of language, that fascinating masterpiece conducts readers on a mental trip, skillfully unraveling the hidden songs and profound influence resonating within each cautiously crafted phrase. Within the depths with this poignant analysis, we can explore the book is central harmonies, analyze its enthralling writing type, and submit ourselves to the profound resonance that echoes in the depths of readers souls.
