Political Economy Of Soviet Defence Spending:

The Political Economy of Soviet Defence Spending R.T. Maddock, 1988-06-18 **Political Economy of Soviet Military Power** Leo Cooper, 1989-06-18 A study of the political economy of Soviet military power examining Soviet Russian ideology and tradition theory and practice of the military doctrine the domestic aspect and new economic realism technology and efficiency and Perestroika and Glasnost from 1985 1987 *The Political Economy of Military Spending in the United States* Alex Mintz, 2002-01-31 This is a timely collection of essays utilizing the political economy approach to military spending primarily by the United States The articles deal specifically with the relationships between defense spending and a political business cycles public opinion and the US Soviet relationship b military action i e war c economic performance the trade deficit guns versus butter issues and fiscal policy *The Political Economy of the Arms Race* R.T. Maddock, 1990-06-18 Written by the author of *The Political Economy of Soviet Defence Spending* and co author of *The Growth of the British Economy* this book looks at the international dimension the American and the Soviet defence economy the NATO alliance the Warsaw Pact and the international arms trade **The Political Economy of Soviet Defence Spending** Roland Thomas Maddock, 1988-01-01 **Handbook of the Economics and Political Economy of Transition** Paul Hare, Gerard Turley, 2013-05-02 Transition from central planning to a market economy involving large scale institutional change and reforms at all levels is often described as the greatest social science experiment in modern times As more than two decades have passed since the fall of the Berlin Wall and the collapse of the Soviet Union it is now an excellent time to take stock of how the transition process has turned out for the economies that have moved on from socialism and the command economy This new handbook assembles a team of leading experts many of whom were closely involved in the transition process as policymakers and policy advisors to explore the major themes that have characterized the transition process After identifying the nature of initial conditions and the strengths and weaknesses of institutions the varying paths and reforms countries have taken are fully analyzed from the shock therapy privatization or gradualism of the early years to the burning issues of the present including global integration and sustainable growth Topics covered include the socialist system pre transition economic reforms institutions the political economy of transition performance and growth enterprise restructuring and people and transition The country coverage is also extensive from the former socialist countries of the USSR and the satellite states of Central and Eastern Europe to the Asian countries of China Vietnam and others The rise of China as a key actor in the drama is chronicled along with the emergence of a new more confident oil rich Russia The comparative prosperity of the Central European countries such as Poland and the Czech Republic is contrasted with the mixed fortunes of the former USSR where some countries are stagnating while others boom This Handbook of the Economics and Political Economy of Transition is the definitive guide to this new order of things in the former Communist world *Military Expenditure* Saadet Deger, Somnath Sen, 1990 The purpose of this book is to analyse world military expenditure at the end of the 1980s and to

discuss its political and economic implications After a decade of unprecedented expansion of international military spending its level is falling though modestly Political developments in Europe and the success of arms control negotiations raise hopes for further reductions In addition technological and economic structural disarmament is adding to the pressure for reductions However performance has not matched up to promises and formidable obstacles to defence spending limitations still remain Military Expenditure surveys recent events and describes the process of change that characterizes international military expenditure and its determinants at this time of transformation The Political Economy of U.S. Militarism I. Hossein-zadeh,2006-08-05 This wide ranging interdisciplinary analysis blends history economics and politics to challenge the prevailing accounts of the rise of U S militarism While acknowledging the contributory role of some of the most widely cited culprits this study explores the bigger but largely submerged picture the political economy of war and militarism The Political Economy Of National Security Helen V Milner,David A Baldwin,2019-07-11 This bibliography focuses on books and articles dealing with the interplay of wealth and power in the context of national security policy emphasising on the economic instruments of statecraft that are used to pursue national security goals and examining the politics of economic cooperation

A Political Economy of American Hegemony Thomas Oatley,2015-02-23 This book demonstrates that episodes of major financial instability develop when the United States engages in large deficit financed military buildup The Economics of Military Spending Adem Yavuz Elveren,2019-05-17 The Economics of Military Spending offers a comprehensive analysis of the effect of military expenditures on the economy It is the first book to provide both a theoretical and an empirical investigation of how military spending affects the profit rate a key indicator of the health of a capitalist economy The book presents a general discussion on the economic models of the nexus of military spending and economic growth as well as military Keynesianism and the military industrial complex Including an account of the Marxist crisis theories it focuses on military spending as a counteracting factor to the tendency of rate of profit to fall Using a range of econometric methods and adopting a Marxist perspective this book provides comprehensive evidence on the effects of military spending on the rate of profit for more than thirty countries The findings of the book shed light on the complex linkages between military spending and the profit rate by considering the role of countries in the arms trade Offering a Marxist perspective and an emphasis on quantitative analysis The Economics of Military Spending will be of great interest to students and scholars of defence and peace economics as well as Marxist economics *Reluctant Cold Warriors* Vladimir Kontorovich,2019-09-02 The academic study of the Soviet economy in the US was founded to help fight the Cold War Vladimir Kontorovich evaluates how well the new field fulfilled this task and shows that it largely neglected the military sector which underpinned the Soviet Cold War effort Professional norms of economics and political pressures drove researchers to ignore the priorities of their government sponsors and to fundamentally misinterpret their subject

Heterodox Economics of Military Spending Adem Yavuz Elveren,2025-04-22 Covering Institutional Post Keynesian

Marxist and Feminist perspectives Heterodox Economics of Military Spending provides a comprehensive analysis of the effect of military expenditures on the economy The impact of military spending on economic growth has always been a crucial issue for policymakers and academics There exists an extensive body of literature on how military spending affects macroeconomic variables including but not limited to economic growth profit rates income inequality gender inequality and employment Different schools of economic thought have proposed various theoretical approaches to investigate the role of military production in a capitalist economy While some of these approaches are competitive others complement each other Heterodox Economics of Military Spending is the first book to analyze the effects of military spending on various macroeconomic perspectives by considering all major alternative economic schools This book also contributes to the literature by introducing new theoretical models and empirical evidence with a special focus on its impact on economic growth This book will be of great interest to readers in defense and peace economics the history of economic thought Marxist economic theory feminist economics and pluralist approaches to economics

Political Economy and Grand Strategy Mark R. Brawley, 2009-09-10 This book examines traditional balance of power theory from a political economic perspective using historical examples to draw out distinctions between the liberal and realist approach and how this affects grand strategy The realist view of the balance of power theory includes implicit assumptions that economic assets can be turned quickly into power and that states always respond to threats quickly and only with a view to the short run These assumptions drive many of the expectations generated from traditional balance of power theory discouraging realists from looking at domestic sources of power which in turn undermined their ability to frame strategic decisions properly By thinking about how power must be managed over time however we can model the choices policy makers confront when determining expenditures on defense while keeping an eye on the impact of those costs on the economy By emphasizing the role of the state identifying different causal patterns in domestic politics and demonstrating the importance of systemic competition this book aims to establish why a neo classical realist approach is not only different from a liberal approach but also superior when addressing questions on grand strategy This book will be of much interest to students of security studies international political economy grand strategy and IR theory in general Mark R Brawley is Professor of Political Science at McGill University Montreal Canada He is author of several books on International Relations specialising in the connections between political economic issues and security

Why Communism Failed Jasper Becker, 2022-11-01 Communism was destroyed not from without but from within by a persistent failure to make its economic theories work in practice But what exactly did go wrong with its central planning Until the last moment top western economists claimed that Communism was superior to western models Even now centralized Marxist planning retains its admirers especially among the young With the benefit of new archival research we can finally grasp how falsified and manipulated statistics blindfolded Communist governments and confused western leaders leading to staggering errors of judgement Both sides believed that East Germany had a stronger economy than West Germany that North Korea would overtake South Korea that Mao's China was a paradise for its starving peasants Those who warned that a dearth of reliable economic data would condemn central planning to irrational misallocation of investment and labor were ignored or belittled But ultimately they were vindicated Jasper Becker answers the big question what accounts for the fall of Communism in the Soviet Union China and everywhere else And why don't present debates acknowledge that failure This unconventional history of Communism and the Cold War explains why the same old clash of theories is continuing to shape the world today

Emerging Powers in Africa Justin van der Merwe, Ian Taylor, Alexandra Arkhangelskaya, 2016-12-09 This empirically and theoretically grounded book provides insights into the

ascendance of powers such as Turkey South Korea and Indonesia and their relationship with Africa Leading scholars present case studies from the BRICS and beyond to demonstrate the constantly evolving and complex character of these ties and their place in the global capitalist order They also offer new theoretical insights as well as theorisation of the spatio temporal dynamics involved in processes of accumulation within the African space Their contention is that despite their supposed anti imperialism these emerging powers have become agents for continued uneven development This innovative edited collection will appeal to students and scholars of international relations political science development studies area studies geography and economics Military Technology, Armaments Dynamics and Disarmament Hans Gunter Brauch,1989-01-13
