Shopping for Pleasure Erika Rappaport, 2021-06-08 In Shopping for Pleasure Erika Rappaport reconstructs London's

Victorian and Edwardian West End as an entertainment and retail center In this neighborhood of stately homes royal palaces and spacious parks and squares a dramatic transformation unfolded that ultimately changed the meaning of femininity and the lives of women shaping their experience of modernity Rappaport illuminates the various forces of the period that encouraged and discouraged women s enjoyment of public life and particularly shows how shopping came to be seen as the quintessential leisure activity for middle and upper class women Through extensive histories of department stores women s magazines clubs teashops restaurants and the theater as interwoven sites of consumption Shopping for Pleasure uncovers how a new female urban culture emerged before and after the turn of the twentieth century Moving beyond the question of whether shopping promoted or limited women s freedom the author draws on diverse sources to explore how business practices legal decisions and cultural changes affected women in the market In particular she focuses on how and why stores presented themselves as pleasurable secure places for the urban woman in some cases defining themselves as instrumental to civic improvement and women s emancipation Rappaport also considers such influences as merchandizing strategies credit policies changes in public transportation feminism and the financial balance of power within the home Shopping for Pleasure is thus both a social and cultural history of the West End but on a broader scale it reveals the essential interplay between the rise of consumer society the birth of modern femininity and the making of contemporary London

Knowing Their Place Lucy Delap,2011-06-16 Historians have traditionally seen domestic service as an obsolete or redundant sector from the middle of the twentieth century Knowing Their Place challenges this by linking the early twentieth century employment of maids and cooks to later practices of employing au pairs mothers helps and cleaners Lucy Delap tells the story of lives and labour within British homes from great houses to suburbs and slums and charts the interactions of servants and employers along with the intense controversies and emotions they inspired Knowing Their Place also examines the employment of men and migrant workers as well as the role of laughter and erotic desire in shaping domestic service The memory of domestic service and the role of the past in shaping and mediating the present is examined through heritage and televisual sources from Upstairs Downstairs to The 1900 House Drawing from advice manuals magazines novels cinema memoirs feminist tracts and photographs this fascinating book points to new directions in cultural history through its engagement in innovative areas such as the history of emotions and cultural memory Through its attention to the contemporary rise in the employment of domestic workers Knowing Their Place sets modern Britain in a new and compelling historical context

A Space of Their Own Katie Baker,Naomi Walker,2023-03-31 This collection explores how nineteenth and twentieth century women writers incorporated the idea of place into their writing Whether writing from a specific location or focusing upon a particular geographical or imaginary place women writers working between 1850 and 1950 valued a space of their own in which to work The period on which this collection focuses straddles two main areas of study nineteenth century writing and early twentieth century modernist writing so it enables discussion of how ideas of space

progressed alongside changes in styles of writing It looks to the many ways women writers explored concepts of space and place and how they expressed these through their writings for example how they interpreted both urban and rural landscapes and how they presented domestic spaces A Space of Their Own will be of interest to those studying Victorian literature and modernist works as it covers a period of immense change for women s rights in society It is also not limited to just one type or definition of space Therefore it may also be of interest to academics outside of literature for example in gender studies cultural geography place writing and digital humanities *The Diary of a Provincial Lady* E.

Delafield,2017-07-23 Edm e Elizabeth Monica Dashwood n e de la Pasture 9 June 1890 2 December 1943 commonly known as E M Delafield was a prolific English author She is best known for her largely autobiographical Diary of a Provincial Lady which took the form of a journal of the life of an upper middle class Englishwoman living mostly in a Devon village of the 1930s In sequels the Provincial Lady buys a flat in London travels to America attempts to find war work during the Phoney War and tours the Soviet Union **Women, Social Leadership, and the Second World War** James Hinton,2002-11-21

The associational life of middle class women in twentieth century England has been largely ignored by historians During the Second World War women s clubs guilds and institutes provided a basis for the mobilization of up to a million women mainly housewives into unpaid part time work Women s Voluntary Service which was set up by the Government in 1938 to organize this work generated a rich archive of reports and correspondence which provide the social historian with a unique window into the female public sphere Questioning the view that the Second World War served to democratize English society James Hinton shows how the war enabled middle class social leaders to reinforce their claims to authority Displaying character through their voluntary work the leisured women at the centre of this study made themselves indispensable to the war effort James Hinton delineates these continuities of class reconstructing intimate portraits of local female social leadership in contrasting settings across provincial England towns large and small shire counties the Durham coalfield tracing complex and often acerbic rivalries within the voluntary sector and uncovering gulfs of mutual distrust and incomprehension dividing publicly active women along gendered frontiers of class and party This study reminds us how much Britain s wartime mobilization relied on a Victorian ethos of public service to cope with the profoundly un Victorian problems of total war The women s associations so evocatively explored here reached the apex of their effectiveness during the Second World War sustaining an uneasy balance between voluntarism and the expanding power of the state In the longer term female social leaders found themselves marginalized by bureaucracy and professionalization The stories told here demonstrate that the Second World War changed English society far less than is often assumed It was not until the 1950s and 1960s that practices and attitudes laid down in the nineteenth century finally lost their purchase
