**Virtue** Tom Edwards, Cosimo Chiera, 2019-05-31 Come on a journey with two travellers not virtuous just trying to be Virtue is not for everyone and many people find their happiness in the green valleys of life But for those of us with a little chutzpah a summit looms high above and time is of the essence What makes a person no matter their background intelligence or resilience stand out from the crowd to display excellence in the art of living It was this question that led two friends a behavioural neuroscientist turned counsellor and a mathematician both experienced academics and educators to embark on a journey of discovery into the ingredients for human excellence The dish they found is called virtue Virtue sits in the background of daily life yet influences everything we say and do It is about a person's style and substance in spite of their physical strength or intellect Virtue is for us all not only for the strong and the smart So how do we attain a life of excellence amidst a modern world that has provided so many technical advances yet in which we still suffer so much anxiety depression obesity and conflict The authors argue our need to always feel comfortable if not happy has robbed us of achieving excellence in our own lives Taking an evidence based approach they examine research findings from positive psychology anthropology and biology and delve into the tenets of religion and philosophy to identify six virtues which are foundational to our humanity and which orientate each of us to our best lived life Cutting across cultural and religious barriers this unique book provides readers with practical tools in the daily art of living useful to parents teachers mental health professionals community workers and business leaders Create your own clear path to a life of excellence through virtue

Grounds,2007-05-01 In this stirring book Grounds has ably sketched the background against which the theology of revolution has emerged Grounds puts it this way I have sought to let the critics of the Establishment

Christian and secular alike present in their own words the case for revolutionary change I have also sought to let the revolutionary theologians set forth their interpretation of Christianity in detail Quite literally I have allowed them to speak for themselves I have sought further to let Christian scholars who dissent from this new theology engage its proponents in debate Very heavily I have drawn upon the work of Jacques Ellul the towering French sociologist who is rapidly gaining in the United States the attention and respect which his rare fusion of professional distinction intellectual power and biblical commitment deserves I shall feel amply regarded if through these pages he wins a wider readership among American evangelicals An additional purpose has been to confront my own ecclesiastical tradition that of Protestant orthodoxy with the inexpressibly pressing need of permitting the anguish of our world to drive theological conservatism back to a New Testament discipleship which is nothing less than revolutionary
