Disney A to Z Dave Smith, 1996-08-29 The Official Encyclopedia Walt Disney, from Reader to Storyteller Kathy Merlock Jackson, Mark I. West, 2014-12-12 Walt Disney, best known as a filmmaker, had perhaps a greater skill as a reader. While many would have regarded Felix Salten's *Bambi* and Carlo Collodi's *Pinocchio* as too somber for family-oriented films, he saw their possibilities. He appealed to his audience by selecting, but then transforming, familiar stories. Many of the tales he chose to adapt to film became some of the most read books in America. Although much published research has addressed his adaptation process, often criticizing his films for being too saccharine or not true to their literary sources, little has been written on him as a reader: what he read, what he liked, his reading experiences, and the books that influenced him. This

collection of 15 fresh essays and one classic addresses Disney as a reader and shows how his responses to literature fueled his success Essays discuss the books he read the ones he adapted to film and the ways in which he demonstrated his narrative ability Exploring his literary connections to films nature documentaries theme park creations and overall creative vision the contributors provide insight into Walt Disney s relationships with authors his animation staff and his audience

Forgotten Disney Kathy Merlock Jackson, Carl H. Sederholm, Mark I. West, 2023-06-28 This work demonstrates that not everything that Disney touched turned to gold In its first 100 years the company had major successes that transformed filmmaking and culture but it also had its share of unfinished projects unmet expectations and box office misses Some works failed but nevertheless led to other more stunning and lucrative ones others shed light on periods when the Disney Company was struggling to establish or re establish its brand In addition many Disney properties popular in their time but lost to modern audiences emerge as forgotten gems By exploring the studio s missteps this book provides a more complex portrayal of the history of the company than one would gain from a simple recounting of its many hits With essays by writers from across the globe it also asserts that what endures or is forgotten varies from person to person place to place or generation to generation What one dismisses someone else recalls with deep fondness as a magical Disney memory

The Glocalization of Shanghai Disneyland Ni-Chen Sung, 2021-04-11 Focusing on Disney's production of Shanghai Disneyland this book examines how the Chinese state and the local market influence Disney's ownership and production of the identities and the representations of Shanghai Disneyland Qualitative methods are here applied to combine both primary and secondary data including document analysis participant observation and in depth interviews Shanghai Disneyland is purposely created to be

different from the other Disneylands under the authentically Disney and distinctly Chinese mandate. In order to survive and thrive in China, Disney carefully constructs Shanghai Disneyland as Disneyland with Chinese characteristics. Previous studies tend to link Disney with cultural imperialism; however, this book argues that it is not imperialism but glocalization that promotes a global company's interests in China. In particular, the findings suggest state capital led glocalization, glocalization led by economic capital of the state, direct investment and economic capital with the state market potential. Furthermore, the four categories of glocalization with different conditions, considerations, and consequences illustrate various global local dynamics in the process of a global formation of locality. The Glocalization of Shanghai Disneyland will appeal to students and scholars of sociology, communication studies, business studies, and Asian studies more broadly.
