Understanding Islam is vital to understanding our world and this text is the definitive authority designed for both general and academic readers

The Qur'an Oliver Leaman,2006-05-02 A RUSA 2007 Outstanding Reference Title The Qur'an is the

source of inspiration for one of the world's major religions followed today by over a billion people. It plays a central role in Islam and ever since it appeared fourteen hundred years ago has been the subject of intense debate. Some of this has been carried out by Muslims and some by those hostile or indifferent to Islam producing a very wide range of views. Authored by forty-three international experts, the objective of *The Qur'an: An Encyclopedia* is to present this diversity of thought approach and school without priority in order to give a strong appreciation of the range of response that the text has provoked throughout its history and providing students and researchers with a powerful one-volume resource covering all aspects of the text and its reception. Islam and the Qur'an are much in the news today and there is a public debate going on in which things are said about the Qur'an without much knowledge or understanding of the book. Every effort has been made to help the reader use the Encyclopedia as an investigative tool in Quranic studies. The volume assumes no previous knowledge of the Qur'an, Islam or Arabic. Technical terms are explained in the text itself and the style of each entry is designed to be as self-contained as possible. Entries are cross-referenced and many include a brief bibliography. At the end of the work there is a substantial annotated bibliography providing a detailed guide to the most significant books, journals and articles in Quranic Studies. There is a full index. The readership will include those seeking basic information on the Qur'an; however, the substantial number of longer entries means that it will also be used by specialists.

The Oxford Handbook of Qur'anic Studies, 2020-04-28. Traditionally revered as the literal word of God, the Qur'an serves as Islam's sacred book of revelation. Accordingly, its statements and pronouncements rest at the core of the beliefs and teachings that have inexorably defined expressions of the Islamic faith. Indeed, over the centuries, engaging with and poring over the contents of the Qur'an inspired an impressive range of traditional scholarship. Notwithstanding its religious pre-eminence, the Qur'an is also considered to be the matchless masterpiece of the Arabic language and its impact as a text can be discerned in all aspects of the Arabic literary tradition. Presenting contributions from leading experts in the field, *The Oxford Handbook of Qur'anic Studies* offers an authoritative collection of chapters that guide readers through the gamut of themes, subjects and debates that have dominated the academic study of the Qur'an and its literary heritage. These range from chapters that explore the text's language, vocabulary, style and structure to detailed surveys of its contents, concepts, transmission, literary influence, historical significance, commentary tradition and even the scholarship devoted to translations. With the aim of serving as an indispensable reference resource, the Handbook assesses the implications of research, discourses and discussions shaping the study of the Qur'an today. There exists no single volume devoted to such a broad review of the scholarship on the Qur'an and its rich commentary tradition.

Historical Dictionary of Islam, Ludwig W. Adamec, 2016-12-14. Muslims believe that the Koran is God's message in Arabic revealed through the medium of the Prophet Muhammad for the guidance of the Arabs and subsequently for all humanity. There is both unity and variety in the Islamic world. Muslims are not a homogeneous people who can be explained solely by their normative texts, the Koran and the Sunnah. Muslims differ vastly in their interpretation of

some of the most powerful prophetic and revelatory passages in religious history offering the vision of a meaningful and just life that anchors the faith of one fifth of the world's inhabitants. In addition to these translations Michael Sells provides an introduction to the Qur'an, commentaries on the Suras, a glossary of technical terms and discussions of the auditory nature and gender aspects of the Arabic text. An ideal resource for students and interested lay readers, this third edition also includes a new full Sura and associated commentary, a new preface and a thoroughly updated bibliography.

a welcome addition to the already available introductory works on Islam. The chapters of the book combine depth of analysis and erudition on a wide range of subjects. Thus in a single volume one finds several superbly written papers not only on the foundations of Islam and the manifestations of Islamic culture but also on issues which are at the centre of contemporary debates among Muslims such as multiculturalism, social justice, democracy and diversity. As a sourcebook, this work is equally useful for students, academicians and general readers. Zafar Ishaq Ansari, Director, Islamic Research Institute, International Islamic University, Islamic Studies is at a critical moment in its history. This timely and stimulating Handbook, edited by world-class experts in the field, provides a comprehensive guide to Islamic Studies today. It examines the main issues in the field and explores the key debates. It provides readers with an indispensable, balanced guide to the roots of Islam and the challenges it faces in the twenty-first century. The Handbook includes discussions of Islam as a community of discourse and a global system, Islam, diaspora and multiculturalism, the Qur'an today, Islam as a moral and judicial system, Islam and politics, Islam and culture, Diversities and Islam. Concise, level-headed and penetrating, this collection will be of interest to anyone who studies contemporary Islam. It brings together an unparalleled collection of international scholars who illuminate some of the most urgent and complex issues in the world today.

Religious Perspectives in Modern Muslim and Jewish Literatures Glenda Abramson, Hilary Kilpatrick, 2006

This book brings together fascinating discussions of the way in which Muslim and Jewish beliefs and practices are represented in modern literary texts of poetry, fiction and drama. The chapters collected here consider elements of the expression of Judaism and Islam in modern literature. Key topics such as religious ideas and teachings, aspects of mysticism, the tenets of religion, uses made of sacred texts, religion and popular culture and reflections of religious controversies are covered. While there is an embodied comparative element to the chapters, the essays are not confined by comparisons and cover a wide range of the literary expression of religious issues. With contributions from a group of international scholars, all of whom are experts in the field and each of whom has brought a particular perspective to the topic, this book is a significant contribution to and will stimulate further research on the various literatures treated. Reflection on comparative work on these two cultural traditions and new interest in literary expressions of religion and religiousness in
