Qur'an Translation Hussein Abdul-Raof, 2001 The Qur'an is read by millions of Muslims on a daily basis yet there is no book available to the reader Arab or non Arab which provides a linguistic and rhetorical insight into Qur'anic discourse This book explains Qur'an translational problems and provides a thorough account of the unique syntactic semantic phonetic prosodic pragmatic and rhetorical features of the Qur'an

**Literary Translation and Cultural Mediators in 'Peripheral' Cultures** Diana Roig-Sanz, Reine Meylaerts, 2018-07-20 This book sets the grounds for a new approach exploring cultural mediators as key figures in literary and cultural history It proposes an innovative conceptual and methodological understanding of the figure of the cultural mediator defined as a cultural actor active across linguistic cultural and geographical borders occupying strategic positions within large networks and being the carrier of cultural transfer Many studies on translation and cultural mediation privileged the major metropolis of Paris London and New York as centres of cultural production and translation However other cities and megacities that are not global centres of culture also feature vibrant translation scenes This book abandons the focus on innovative centres and imitative peripheries and follows processes of cultural exchange as they develop Thus it analyses the role of cultural mediators as customs officers or smugglers or both in different proportions in so called peripheral cultures and offers insights into an under analysed body of actors and institutions promoting intercultural transfer in often multilingual and less studied venues such as Trieste Tel Aviv Buenos Aires Lima Lahore or Cape Town

*New Theory of the Holy Qur'an Translation. A Textbook for Advanced University Students of Linguistics and Translation* Ali Alhaj, 2015-02-09 Translation is as old as the art of writing or as old as history of education in general It is occasioned by the social needs of people Whenever for instance two linguistic groups interact as neighbors to each other translation from and to each other's languages becomes inevitable if they must

meaningfully communicate with each other in matters of commerce intermarriage education legal issues etc Religious books like those that the Holy Qur'an and the Bible have been facilitating essentially translated to numerous languages in different parts of the world Translation is also regarded as a significant key that connects the literary works of authors from diverse culture It also plays a pivotal role in minimizing the cultural divergences Translation has been widely practiced over the centuries in the world in general and in Arab world in particular The founding mythology and the sacred texts of the dominant religions are all based on translations In short translation has been essential for development and change in literature commerce technology politics so on and so forth Contemporary Rationalist Islam in Turkey Gokhan

Bacik,2021-07-29 Nineteenth century Istanbul was an intellectual hub of rich discussions about Islam in which leading reformists had a significant role Turkey today appears to be an intellectual vacuum to anyone searching for ongoing critical engagement with Islam The main purpose of this book is to adjust this view of Turkey by showcasing the modern Turkish theologians who challenge mainstream Sunni interpretations of Islam Labelling these theologians as rationalist rather than reformist the author reveals that their theology is inherently anti establishment and thus a religiously oriented challenge to the hegemony of the state sanctioned Islam for the rationalists Turkey's problems have their origins in the Sunni interpretation of Islam Contemporary Rationalist Islam in Turkey analyses nine prominent scholars of Islam who provide a religious opposition to the Sunni revival in Turkey Hseyin Atay Yasar Nuri Zerk M Hayri Kirbasoglu Ilhami Guler R Ihsan Elialik merzsoy Mustafa Zerk Israfil Balci and Mehmet Azimli These scholars writings are almost exclusively published in Turkish so this book makes their ideas available in English for the first time It also examines the scope methodology and argumentation of the scholars theology categorizing their theological interpretations from historicist to universalist and from empiricist to rationalist In identifying a new rationalist school of Turkish theology and outlining its different manifestations the book breaks new ground It fills a significant gap in the literature on Islamic studies and reveals an understudied dimension of Turkey and Turkish Islam beyond the well known ideas of the AKP and the Gulenists **Arabic Translation**

**Across Discourses** Said Faiq,2019-06-13 A rare contribution to global translation as a cross cultural open concept Arabic Translation Across Discourses provides explorations of Arabic translation as an instance of transcultural and translingual encounters transcultuaging This book examines the application and interrogation of discourses of translation in the translation of discourses religion literature media politics technology community audiovisual and automated systems of communication for translation The contributors provide insights into the concerns and debates of Arabic translation as a tradition with local yet global dimensions of translation and intercultural studies This volume will be of great interest to students and researchers of all translation studies but will also provide a rich source for those studying and researching history geopolitics intercultural studies globalization and allied disciplines *The (Un)Translatability of Qur'anic Idiomatic Phrasal Verbs* Ali Yunis Aldahesh,2021-07-27 Qur'anic idiomaticity in its all aspects poses a great deal of challenge to Qur'an

readers learners commentators and translators One of the most challenging aspects of Qur'anic idiomaticity is Qur'anic idiomatic phrasal verbs where significances of proper Arabic verbs are entirely fused with significances of prepositions following them to produce new significances that have nothing to do with the basic significances of those verbs and prepositions By examining a corpus of ten of the most influential English translations of the Qur'an this study scrutinizes how some translators of the Qur'an have dealt with the phenomenon of Qur'anic idiomatic phrasal verbs the difficulties that they have encountered when translating them into English and the strategies that they have employed in their attempts to overcome the inherent ambiguity of such expressions and provide their functional pragmatic equivalents for English readership The study proposes a working model for analysing and assessing the translation of the Qur'anic idiomatic phrasal verbs and provides a number of theory based recommendations for translators in general and Qur'an translators in particular

Tantawi Jawhari and the Qur'an Majid Daneshgar, 2017-08-07 Shaykh an w Jawhar was an Egyptian exegete known for having produced a scientific interpretation of the Qur'an A pioneering scholar in terms of familiarising the people of his time with many previously neglected matters regarding Islam and science his publications shocked the Cairo educational system and other Muslim places of learning in the early twentieth century This book examines the intersection between an w Jawhar and Egyptian history and culture and demonstrates that his approach to science in the Qur'an was intimately connected to his social concerns Divided into three parts part one contains three chapters which each introduce different aspects of an w Jawhar himself The second part explores the main aspects of his tafsir discussing his approach to science and the Qur'an and how he presented Europeans in his tafsir and then addressing the impact of his tafsir on wider Muslim and non Muslim society The third section draws attention to the themes
