Daniel Boyarin, 2003-11-01 There are two major themes running through the essays reprinted in this book the first is the typological relation of rabbinic Judaism to Christianity while the second is the re animation by going back to the roots of a rabbinic Judaism that would not manifest some of the deleterious social ideologies and practices that modern orthodox Judaism generally does a project that was thought of as radical orthodoxy long before that term achieved its current and almost diametrically opposing sense among Christian theologians The book is divided into two parts The first part consists of several essays on midrash exploring various aspects of rabbinic culture and their relation to hermeneutic practices These papers are essentially more detailed studies of particular issues that were raised in two of Boyarin's books *Intertextuality* and *the Reading of Midrash and Carnal Israel Reading Sex in Talmudic Culture* California 1993 The second part of the book consists of reprints of four essays published in the journal *Diacritics* during that same decade The material treated in the book should be of interest to historians of Judaism and Christianity Talmudists and scholars and readers interested in the cultural study of religion **Sparks of the Logos** Daniel Boyarin, 2003 This work covers the typological relation of rabbinic Judaism to Christianity and provides a re examination by going back to the roots of a rabbinic Judaism that would not manifest some of the deleterious social ideologies and practices that modern orthodox Judaism generally does **Rabbinic Stories** Jeffrey L. Rubenstein, 2002 Stories from the main works of classical rabbinic literature which were produced by Jewish sages in either Hebrew or Aramaic between 200 and 600 CE **Essays on the Thought and Philosophy of Rabbi Kook** Ezra Gellman, 1991 Each essay in this anthology is an analysis or evaluation of one or several aspects of the thought and philosophy of Rabbi Abraham Isaac Kook the first Chief Rabbi of Israel *Fathers of the World* Burton L. Chilton, William Scott

Green, Gary Porton, 2014-10-16 In a career spanning over fifty years the questions Jacob Neusner has asked and the critical methodologies he has developed have shaped the way scholars have come to approach the rabbinic literature as well as the diverse manifestations of Judaism from rabbinic times until the present The essays collected here honor that legacy illustrating an influence that is so pervasive that scholars today who engage in the critical study of Judaism and the history of religions more generally work in a laboratory that Professor Neusner created Addressing topics in ancient and Rabbinic Judaism the Judaic context of early Christianity American Judaism World Religions and the academic study of the humanities these essays demarcate the current state of Judaic and religious studies in the academy today The Significance of Yavneh and Other Essays in Jewish Hellenism Shaye J. Gershoni, 2000-01-01 This book examines the impact of changing modes of cultural transmission on Jewish and Western cultures over the past two thousand years The contributors to the volume survey some of the ways conscious and subconscious in which cultural elements are selected shaped and transmitted and some of the ways they in turn shape the future of their cultures Focusing on a range of Jewish cultures from late antiquity the Middle Ages and the modern period the authors consider both the transformation of traditions in their travels from one contemporaneous cultural context to another and their transformation within a single culture overtime Some of the

studies in the book deal with the transition from mixed oral written cultures to ones in which written print is nearly exclusive Other chapters deal with the processes of transmission such as anthologizing translating teaching and sermonizing By contextualizing Jewish culture within Western culture and including a comparative perspective the book makes an important contribution to Judaic studies as well as to other areas of the humanities concerned with questions of textuality and culture
