Schiffman, 1991 From Text to Tradition examines the history of Judaism as it developed from the religion of biblical Israel to the Judaism of the talmudic rabbis Each step in this process is discussed from the historical literary and religious points of view and the context of the political history of the Jews Among the topics covered in this connection are the biblical heritage which underlies all later Judaism the importance of the Persian period for laying the groundwork for postbiblical Judaism the confrontation of Judaism with Hellenism apocrypha pseudepigrapha and the Dead Sea Scrolls Pharisees Sadducees and Essenes the Jewish Christian schism the impact of the Jewish revolts against Rome and the destruction of the Temple the rise of Rabbinic Judaism and the development of the Mishnah Talmud and Jewish law One of the books major theses is that the various approaches to Judaism shared sufficient common ground as to be classified as one albeit variegated religious tradition Diverging trends may be and are traced during this period as is the question of the role of interpretation the impact of external influences and the process by which the competing approaches were eventually supplanted by the rabbinic tradition which became the basis for medieval and modern Judaism In this way Judaism is shown to have travelled the long road from the textual heritage of the Hebrew Bible to the oral tradition of the rabbis **Rabbinic Judaism** Jacob Neusner, 2021-10-01 Rabbinic Judaism in its classical writings produced from the first through the seventh century of the Common Era sets forth a theological system that is orderly and reliable Responding to the generative dialectics of monotheism Rabbinic Judaism systematically reveals the justice of the one and only God of all creation Appealing to the truths of Scripture the Rabbinic sages constructed a coherent theology cogent structure and logical system to reveal the justice of God These writings identify what Judaism knows as the logos of God the theology fully manifest in the Torah This work make its contribution in seeing in the principal conceptions of Rabbinic Judaism a logos a sustained rigorous coherent argument A narrative story of the Rabbinic sages theological system sounds remarkably familiar the age old story of God s justice to which his mercy is integral of humanity s relationship with god as a possessor of the power of will and of humanity s sin and God s response This title is also available in paperback ISBN 0 391 04179 7 **Rabbinic Judaism** David Kraemer, 2015-09-07 In the aftermath of the conquest of the Holy Land by the Romans and their destruction of the Jerusalem

Temple in 70 CE Jews were faced with a world in existential chaos both they and their God were rendered homeless In a religious tradition that had equated Divine approval with peaceful dwelling on the Land this situation was intolerable So the rabbis aspirants for leadership of the post destruction Jewish community appropriated inherited traditions and used them as building blocks for a new religious structure Not unexpectedly given the circumstances this new rabbinic formation devoted considerable attention to matters of space and place Rabbinic Judaism Space and Place offers the first comprehensive study of spatiality in Rabbinic Judaism of late antiquity exploring how the rabbis reoriented the Jewish relationship with space and place following the destruction of the Jerusalem temple Drawing upon the insights of theorists such as Tuan and LeFebvre who define the crisis that homelessness represents and argue for the deep relationship of human societies to their places the book examines the compositions of the rabbis and discovers both a surprisingly aggressive rabbinic spatial imagination as well as places most notably the synagogue where rabbinic attention to space and place is suppressed or absent It concludes that these represent two different but simultaneous rabbinic strategies for re placing God and Israel strategies that at the same time allow God and Israel to find a place anywhere This study offers new insight into the centrality of space and place to rabbinic religion after the destruction of the Temple and as such would be a key resource to students and scholars interested in rabbinic and ancient Judaism as well as providing a major new case study for anthropologists interested in the study of space

*The Origins of Organized Charity in Rabbinic Judaism* Gregg E. Gardner, 2015-06-04 This book examines the origins of communal and institutional almsgiving in rabbinic Judaism It undertakes a close reading of foundational rabbinic texts Mishnah Tosefta Tannaitic Midrashim and places their discourses on organized giving in their second to third century CE contexts Gregg E Gardner finds that Tannaim promoted giving through the soup kitchen tamhui and charity fund quppa which enabled anonymous and collective support for the poor This protected the dignity of the poor and provided an alternative to begging which benefited the community as a whole poor and non poor alike By contrast later Jewish and Christian writings from the fourth to fifth centuries would see organized charity as a means to promote their own religious authority This book contributes to the study of Jews and Judaism history of religions biblical studies and ethics

**Christianity and Rabbinic Judaism** Jonas E. Alexis, 2013 Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaire s self appointed cheerleaders such as Diderot Helvitius d Holbach D Alembert Lametrie and Baron

Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lamettrie produced Man A Machine and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying crasez l inf me Rousseau of course was a disciple of Voltaire and declared that Voltaire s work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross

Theological Dictionary of Rabbinic Judaism: Principal theological categories Jacob Neusner, 2005 Rabbinic theological language has made possible a vast range of discourse on many subjects over long spans of recorded time and in diverse cultural settings This theological dictionary defines the principal theological usages of Rabbinic Judaism as set forth in the Rabbinic canon of late antiquity Mishnah Talmuds and Midrash compilations It systematically lays 1 the theological categories that are native to those writings 2 cogent statements that can be made with them 3 coherent propositions that those statements set forth and within their own terms and framework logically demonstrate as true and self evident both Volume One of this dictionary covers vocabulary that permits the classification of religious knowledge and experience and the organization and categorization of those data into intelligible and cogent sense units Volume Two shows how these classifications combine and recombine in sentences We may deem these rules of theological discourse concerning religious experience to be the counterpart of syntax which words combine or do not combine with which other words in what inflection or signaled relationship and why Volume Three shows how the theology accomplishes its goals of analysis explanation and anticipation in order to make sense of and impose meaning upon a subject That marks the point at which constructive theology commences and systematic theology will find its language
