Bhattacharya,2013-11-29 This new addition to Springer s series on Key Thinkers in World Education tracks the intellectual and philosophical journey of a trail blazing innovator whose ideas have fired the imaginations of progressive educationalists for almost a century The volume s in depth analysis of the educational philosophy of Bengali polymath Rabindranath Tagore offers an unrivalled focus on his highly influential views Tagore poet internationalist humanist and the first non European to win the Nobel Prize for literature lived on the cusp of change between two momentous centuries in world civilization and foresaw the dissolution of colonialism and the globalization of culture His ideas on education placed the creative individual at the centre of the quest for knowledge Eschewing the artificial distinctions between elementary and higher learning he advocated the importance of sowing the seed of humanism as early as possible and fostering the individual s enjoyment of education as well as their courage to challenge conventions In doing so he anticipated the modern concern with critical thinking at the same time as he was encouraging independence of thought and action as a counter to colonial oppression and condescension Concise yet thorough this volume on one of the most original thinkers of the last century covers every aspect of Tagore s highly original educational philosophy **The Vedantic Relationality of Rabindranath Tagore** Ankur

Barua,2018-10-25 This book is a thematic study of the poet thinker Rabindranath Tagore s conceptual project of harmonizing the one and its many Tagore s writings in Bengali and in English on religious and social themes are held together by the leitmotif of a harmony which operates across several existential religious and social polarities the finite and the infinite the temporal and the eternal and the individual and the universal Tagore creatively appropriated materials from diverse sources such as the classical Hindu Vedantic systems the folk piety of Bengal and others to configure a dialectic which shapes his writings on both religious and social themes On the one hand each individual is irreducibly distinct from everyone else and on the other hand each individual gains their spiritual depth precisely by being placed within the dynamic matrices of an interrelated whole Thus we find Tagore rejecting certain monastic forms of Hindu world renunciation and also certain ecstatic dimensions of devotional worship the former because they efface individuality and the latter because they can generate self absorbed styles of living Again Tagore is as sharply opposed to Bengali imitativeness of English modes of being in the world as he is to Bengali forms of insularity the former because it dilutes the concrete richness of indigenous lifeforms and the latter because it confines individuals to parochial enclosures Tagore s life long endeavor was to configure a third way by rejecting both the blank homogeneity of an undifferentiated one and the particularistic insularities of a multitude without a deeper center of coherence *Rabindranath Tagore's Ideational Universe* Bidyut Chakrabarty,2023-12-01 This book
