**Patterns of Prejudice     Theories of Race and Ethnic Relations** John Rex, David Mason, 1986 This book brings together internationally known scholars from a range of disciplines and theoretical traditions In setting out the various theories it demonstrates the range and diversity of approaches to race and ethnic relations current in the field As well as identifying important and persistent points of controversy however the collection also reveals much complementarity and indicates the potential for a multi faceted approach to theorization The theories represented include contributions from the perspective of sociology social anthropology sociobiology and social psychology     Liberalism, Black Power, and the Making of American Politics, 1965-1980 Devin Fergus, 2009 In this pioneering exploration of the interplay between liberalism and black nationalism Devin Fergus returns to the tumultuous era of Johnson Nixon Carter and Helms and challenges us to see familiar political developments through a new lens What if the liberal coalition instead of being torn apart by the demands of Black Power actually engaged in a productive relationship with radical upstarts absorbing black separatists into the political mainstream and keeping them from a more violent path What if the New Right arose not only in response to Great Society Democrats but as significantly in reaction to Republican moderates who sought compromise with black nationalists through conduits like the Blacks for Nixon movement Focusing especially on North Carolina a progressive southern state and a national center of Black Power activism Fergus reveals how liberal engagement helped to bring a radical civic ideology back from the brink of political violence and social nihilism He covers Malcolm X Liberation University and Soul City two largely forgotten federally funded black nationalist experiments the political scene in Winston Salem where Black Panthers were elected to office in surprising numbers and the liberal nationalist coalition that formed in 1974 to defend Joan Little a black prisoner who killed a guard she accused of raping her Throughout Fergus charts new territory in the study of America s recent past taking up largely unexplored topics such as the expanding political role of institutions like the ACLU and the Ford Foundation and the emergence of sexual violence as a political issue He also urges American historians to think globally by drawing comparisons between black nationalism in the United States and other separatist movements around the world By

1980 Fergus writes black radicals and their offspring were more likely to petition Congress than blow it up That liberals engaged black radicalism at all however was enough for New Right insurgents to paint liberalism as an effete anti American ideology a sentiment that has had lasting appeal to significant numbers of voters      *Legacy of Hate: A Short History of Ethnic, Religious and Racial Prejudice in America* Philip Perlmuter, 2015-07-17 For all its foundation on the principles of religious freedom and human equality American history contains numerous examples of bigotry and persecution of minorities Now author Philip Perlmuter lays out the history of prejudice in America in a brief compact and readable volume Perlmuter begins with the arrival of white Europeans moves through the eighteenth and industrially expanding nineteenth centuries the explosion of immigration and its attendant problems in the twentieth century and a fifth chapter explores how prejudice racial religious and ethnic has been institutionalized in the educational systems and laws His final chapter covers the future of minority progress      Handbook of Contemporary Families Marilyn Coleman, Lawrence H Ganong, 2004 Coleman and Ganong recruited an outstanding group of scholars to contribute to the Handbook of Contemporary Families Authors represent a wide array of disciplines and the topics touch on every aspect of family life The organization of the book is excellent and the writing of high quality Scholars and students alike will find the book a valuable resource Alan Booth Penn State University Marilyn Coleman and Larry Ganong have produced a comprehensive handbook exploring the changes and challenges confronting contemporary families The chapters written by some of the most distinguished social scientists studying families give a balanced research based analysis of some of the most contentious issues of our time E Mavis Hetherington University of Virginia This useful handbook brings together many of the most important new findings and provocative ideas about America s diverse and changing families An excellent resource Stephanie Coontz author of *The Way We Really Are* Coming to Terms with America s Changing Families What has happened to marriage and families What is the current state of families Where are families headed Where is family scholarship headed As families face challenges today brought on by events that have changed their perception of the world there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future The Handbook of Contemporary Families explores how families have changed in the last 30 years and speculates about future trends Editors Marilyn Coleman and Lawrence H Ganong along with a multidisciplinary group of contributors critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium The Handbook looks at how changes within the contemporary family have been reflected in family law family education and family therapy Features of this Handbook Examines a diverse array of families and relationships in which people live including chapters on alternative lifestyles gay and lesbian relationships economically distressed families religion and families racial and ethnic diversity a feminist vision for families older families and the effect of computers and other technology on family relationships Includes both a historical review and future speculation on the subjects covered in each

**Navigating the Future** Geraldine Downey, Jacquelynne Eccles, Celina Chatman, 2006-01-12 Psychologists now understand that identity is not fixed but fluid and highly dependent on environment In times of stress conflict or change people often adapt by presenting themselves in different ways and emphasizing different social affiliations With changing demographics creating more complex social groupings it is important to understand the costs and benefits of the way social groups are categorized and the way individuals understand cope with and employ their varied social identities Navigating the Future edited by Geraldine Downey Jacquelynne Eccles and Celina Chatman answers that call with a wealth of empirical data and expert analysis Navigating the Future focuses on the roles that social identities play in stressful challenging and transitional situations Jason Lawrence Jennifer Crocker and Carol Dweck show how the prospect of being negatively stereotyped can affect the educational success of girls and African Americans making them more cynical about school and less likely to seek help The authors argue that these issues can be mitigated by challenging these students educationally expressing optimism in their abilities and emphasizing that intelligence is not fixed but can be developed The book also looks at the ways in which people employ social identity to their advantage J Nicole Shelton and her co authors use extensive research on adolescents and college students to argue that individuals with strong positive connections to their ethnic group exhibit greater well being and are better able to cope with the negative impact of discrimination Navigating the Future also discusses how the importance and value of social identity depends on context LaRue Allen Yael Bat Chava J Lawrence Aber and Edward Seidman find that the emotional benefit of racial pride for black adolescents is higher in predominantly black neighborhoods than in racially mixed environments Because most people identify with more than one group they must grapple with varied social identities using them to make connections with others overcome adversity and understand themselves Navigating the Future brings together leading researchers in social psychology to understand the complexities of identity in a diverse social world

**Choosing Homes, Choosing Schools** Annette Lareau, Kimberly Goyette, 2014-03-31 A series of policy shifts over the past decade promises to change how Americans decide where to send their children to school In theory the boom in standardized test scores and charter schools will allow parents to evaluate their assigned neighborhood school or move in search of a better option But what kind of data do parents actually use while choosing schools Are there differences among suburban and urban families How do parents choices influence school and residential segregation in America Choosing Homes Choosing Schools presents a breakthrough analysis of the new era of school choice and what it portends for American neighborhoods The distinguished contributors to Choosing Homes Choosing

Schools investigate the complex relationship between education neighborhood social networks and larger patterns of inequality Paul Jargowsky reviews recent trends in segregation by race and class His analysis shows that segregation between blacks and whites has declined since 1970 but remains extremely high Moreover white families with children are less likely than childless whites to live in neighborhoods with more minority residents In her chapter Annette Lareau draws on interviews with parents in three suburban neighborhoods to analyze school choice decisions Surprisingly she finds that middle and upper class parents do not rely on active research such as school tours or test scores Instead most simply trust advice from friends and other people in their network Their decision making process was largely informal and passive Eliot Weinginer complements this research when he draws from his data on urban parents He finds that these families worry endlessly about the selection of a school and that parents of all backgrounds actively consider alternatives including charter schools Middle and upper class parents relied more on federally mandated report cards district websites and online forums while working class parents use network contacts to gain information on school quality Little previous research has explored what role school concerns play in the preferences of white and minority parents for particular neighborhoods Featuring innovative work from more than a dozen scholars Choosing Homes Choosing Schools adroitly addresses this gap and provides a firmer understanding of how Americans choose where to live and send their children to school
