Intermarriage from Central Europe to Central Asia Adrienne Edgar, Benjamin Frommer, 2020-06-01 Intermarriage from Central Europe to Central Asia examines the practice and experience of interethnic marriage in a range of countries and eras from imperial Germany to present day Tajikistan In this interdisciplinary volume Adrienne Edgar and Benjamin Frommer have drawn contributions from anthropologists and historians The contributors explore the phenomenon of intermarriage both from the top down in the form of state policies and official categories and from the bottom up through an intimate look at the experience and agency of mixed families in modern states determined to control the lives and identities of their citizens to an unprecedented degree Contributors address the tensions between state ethnic categories and the subjective identities of individuals the status of mixed individuals and families in a region characterized by continual changes in national borders and regimes and the role of intermarried couples and their descendants in imagining supranational communities The first of its kind Intermarriage from Central Europe to Central Asia is a foundational text for the study of intermarriage and ethnic mixing in Eastern Europe and Eurasia

Multiculturalism and Democracy in North Africa Moha Ennaji, 2014-04-16 Investigating the connections between multiculturalism minorities citizenship and democracy in North Africa this book argues that multiculturalism in this region and in the Arab world at large has reached a significant level in terms of scale and importance In the rest of the world there has been a trend albeit a contested one toward a greater recognition of minority rights The Arab world however particularly North Africa seems to be an exception to this trend as Arab states continue to promote highly unitary and homogenizing ideas of nationhood and state unity whilst discouraging or even forbidding minority political mobilization The central theoretical premise of this book is that North Africa is a multicultural region where culture is inherently linked to politics religion gender and society and a place where democracy is gradually taking root despite many political and economic hurdles Addressing the lacuna in literature on this issue this book opens new avenues of thought and research on diversity linking policy based on cultural difference to democratic culture and to social justice Multiculturalism and Democracy in North Africa will be of use to students and researchers with an interest in Sociology Cultural Studies and Political Science more broadly

Mapping the Middle East Zayde Antrim, 2018-04-15 Mapping the Middle East explores the many ways people have visualized the vast area lying between the Atlantic Ocean and the Oxus and Indus River Valleys over the past millennium By analyzing maps produced from the eleventh century on Zayde Antrim emphasizes the deep roots of mapping in a region too often considered unexamined and unchanging before the modern period As Antrim argues better known maps from the nineteenth and twentieth centuries a period coinciding with European colonialism and the rise of the nation state not only obscure this rich past but also constrain visions for the region's future Organized chronologically

Mapping the Middle East addresses the medieval Realm of Islam the sixteenth to eighteenth century Ottoman Empire French and British colonialism through World War I nationalism in modern Turkey Iran and Israel Palestine and alternative geographies in the twentieth and twenty first centuries Vivid color illustrations throughout allow readers to compare the maps themselves with Antrim s analysis Much more than a conventional history of cartography Mapping the Middle East is an incisive critique of the changing relationship between maps and belonging in a dynamic world region over the past thousand years

Gateway State Sarah Miller-Davenport,2021-07-06 How Hawai i became an emblem of multiculturalism during its journey to statehood in the mid twentieth century Gateway State explores the development of Hawai i as a model for liberal multiculturalism and a tool of American global power in the era of decolonization The establishment of Hawai i statehood in 1959 was a watershed moment not only in the ways Americans defined their nation s role on the international stage but also in the ways they understood the problems of social difference at home Hawai i s remarkable transition from territory to state heralded the emergence of postwar multiculturalism which was a response both to independence movements abroad and to the limits of civil rights in the United States Once a racially problematic overseas colony by the 1960s Hawai i had come to symbolize John F Kennedy s New Frontier This was a more inclusive idea of who counted as American at home and what areas of the world were considered to be within the U S sphere of influence Statehood advocates argued that Hawai i and its majority Asian population could serve as a bridge to Cold War Asia and as a global showcase of American democracy and racial harmony In the aftermath of statehood business leaders and policymakers worked to institutionalize and sell this ideal by capitalizing on Hawai i s diversity Asian Americans in Hawai i never lost a perceived connection to Asia Instead their ethnic difference became a marketable resource to help other Americans navigate a decolonizing world As excitement over statehood dimmed the utopian vision of Hawai i fell apart revealing how racial inequality and U S imperialism continued to shape the fiftieth state and igniting a backlash against the islands white dominated institutions

Disciples of the State? Kristin Fabbe,2019-03-28 As the Ottoman Empire crumbled the Middle East and Balkans

became the site of contestation and cooperation between the traditional forces of religion and the emergent machine of the sovereign state Yet such strategic interaction rarely yielded a decisive victory for either the secular state or for religion By tracing how state builders engaged religious institutions elites and attachments this book problematizes the divergent religion state power configurations that have developed There are two central arguments First states carved out more sovereign space in places like Greece and Turkey where religious elites were integral to early centralizing reform processes Second region wide structural constraints on the types of linkages that states were able to build with religion have generated long term repercussions Fatefully both state policies that seek to facilitate equality through the recognition of religious difference and state policies that seek to eradicate such difference have contributed to failures of liberal democratic consolidation

Rethinking the Racial Moment Barbara Brookes, Alison Holland, 2011-05-25 In recent years race has fallen out of historiographical fashion being eclipsed by seemingly more benign terms such as culture ethnicity and difference This timely and highly readable collection of essays re energises the debate by carefully focusing our attention on local articulations of race and their intersections with colonialism and its aftermath In *Rethinking the Racial Moment* Essays on the Colonial Encounter Alison Holland and Barbara Brookes have produced a collection of studies that shift our historical understanding of colonialism in significant new directions Their generous and exciting brief will ensure that the book has immediate appeal for multiple readers engaged in critical theory as well as those more specifically involved in Australian and New Zealand history Collectively they offer new and invigorating approaches to understanding colonialism and cultural encounters in history via the interpretive not merely temporal frame of the moment

Human Behavior Theory and Applications Elizabeth DePoy, Stephen French Gilson, 2011-09-21 In *Human Behavior Theory and Applications* authors Elizabeth DePoy and Stephen Gilson use a critical thinking approach to engage students to think in depth about theory and its use in social work practice With a strong focus on diversity this book expands its theory coverage to include progressive and the most cutting edge contemporary thinking The authors skillfully introduce theory critically examine each theory including developmental theories environmental theories diversity theories systems theories and new and emerging theories and then apply each theory to social work practice providing a synthesis of classical and contemporary theory for scholarly analysis and application to professional intellectual and social action

Forward Without Fear Derek Taira, 2024-06 During Hawai i s territorial period 1900 1959 Native Hawaiians resisted assimilation by refusing to replace Native culture identity and history with those of the United States By actively participating in U S public schools Hawaiians resisted the suppression of their language and culture subjection to a foreign curriculum and denial of their cultural heritage and history which was critical for Hawai i s political evolution within the manifest destiny of the United States In *Forward without Fear* Derek Taira reveals that many Native Hawaiians in the first forty years of the territorial period neither subscribed nor succumbed to public schools aggressive efforts to assimilate and Americanize them but instead engaged with American education to

envision and support an alternate future one in which they could exclude themselves from settler society to maintain their cultural distinctiveness and protect their Indigenous identity Taira thus places great emphasis on how they would have understood their actions as flexible and productive steps for securing their cultural sovereignty and safeguarding their future as Native Hawaiians and reshapes historical understanding of this era as one solely focused on settler colonial domination oppression and elimination to a more balanced and optimistic narrative that identifies and highlights Indigenous endurance resistance and hopefulness

The Reckoning of Pluralism Kabir Tambar, 2014-04-16 The Turkish Republic was founded simultaneously on the ideal of universal citizenship and on acts of extraordinary exclusionary violence Today nearly a century later the claims of minority communities and the politics of pluralism continue to ignite explosive debate The Reckoning of Pluralism centers on the case of Turkey's Alevi community a sizeable Muslim minority in a Sunni majority state Alevites have seen their loyalty to the state questioned and experienced sectarian hostility and yet their community is also championed by state ideologues as bearers of the nation's folkloric heritage Kabir Tambar offers a critical appraisal of the tensions of democratic pluralism Rather than portraying pluralism as a governing ideal that loosens restrictions on minorities he focuses on the forms of social inequality that it perpetuates and on the political vulnerabilities to which minority communities are thereby exposed Alevites today are often summoned by political officials to publicly display their religious traditions but pluralist tolerance extends only so far as these performances will validate rather than disturb historical ideologies of national governance and identity Focused on the inherent ambivalence of this form of political incorporation Tambar ultimately explores the intimate coupling of modern political belonging and violence of political inclusion and domination contained within the practices of pluralism

Militant and Migrant Radhika Chopra, 2012-03-12 This book is a study of the transformations in Punjab created by biotechnological revolutions economic restructuring persistent migrations and political upheaval in the late 20th century The sacred centre at Amritsar the transnational settlement of Southall and a Doaba village form the terrain for this three sites that can be seen as metonymic spaces of identity that transcend geographic boundaries and form the structure of this book Relations between the rural the sacred and the transnational fostered through migration marriage and material exchange existed well before 1984 After 1984 however and through the violent decades of the militancy period these three locations became connected via the circulation of political ideologies violent deaths financial aid a sense of disaffection and the migration of men Analysis of the linkages between transnational migration and religious revival is a key theme of this study Conversely the enhanced engagements of the diaspora with homeland politics became a source of support and created sanctuary spaces for political asylum seekers and transnational migrant labour Re-analysing existing material and drawing on fieldwork based interviews as well as local history archives the book presents a different framework to analyse the politics and social history of Punjab

Good White Queers? Kai Linke, 2021-03-15 How do white queer people portray our own whiteness Can we in the stories we tell about ourselves face the uncomfortable fact that while queer we might still be racist If we cannot what does that say about us as potential allies in intersectional struggles A careful analysis of Dykes To Watch Out For and Stuck Rubber Baby by queer comic icons Alison Bechdel and Howard Cruse traces the intersections of queerness and racism in the neglected medium of queer comics while a close reading of Jaime Cortez's striking graphic novel Sexile Sexilio offers glimpses of the complexities and difficult truths that lie beyond the limits of the white queer imaginary Connecting Seas and Connected Ocean Rims

Donna R. Gabaccia, Dirk Hoerder, 2011-04-11 With a series of rich case studies focused on mobile laborers this book demonstrates how the regional migrations of the early modern era came to be connected contributing to the creation of an increasingly integrated nineteenth century world **The Routledge Companion to African Diaspora Art History**

Eddie Chambers, 2024-10-31 This is an authoritative companion that is global in scope recognizing the presence of African Diaspora artists across the world It is a bold and broad reframing of this neglected branch of art history challenging dominant presumptions about the field Diaspora pertains to the global scattering or dispersal of in this instance African peoples as well as their patterns of movement from the mid twentieth century onwards Chapters in this book emphasize the importance of cross fertilization interconnectedness and intersectionality in the framing of African Diaspora art history The book stresses the complexities of artists born within or living and working within the African continent alongside the complexities of Africa born artists who have migrated to other parts of the world The group of international contributors emphasizes and accentuates the interplay between for example Caribbean art and African Diaspora art or Latin American art and African Diaspora art or Black British art and African Diaspora art The book will be of interest to scholars and students working in art history the various branches of African studies African American studies African Diaspora studies Caribbean studies and Latin American studies **Japanese Americans**

Paul R. Spickard, 2009 Since 1855 nearly half a million Japanese immigrants have settled in the United States and today more than twice that number claim Japanese ancestry While these immigrants worked hard established networks and repeatedly distinguished themselves as entrepreneurs they also encountered harsh discrimination Nowhere was this more evident than on the West Coast during World War II when virtually

the entire population of Japanese Americans was forced into internment camps solely on the basis of ethnicity
