

RACE, CLASS, and the WORLD SYSTEM

Race Class And The World System The Sociology Of Oliver C Cox

Mathias Sajovitz

Race Class And The World System The Sociology Of Oliver C Cox:

Race, Class, and the World System Herbert Hunter, Sameer Y. Abraham, 1987 The World-System and Africa Immanuel Wallerstein, 2017-05-31 In *The World System and Africa* Immanuel Wallerstein examines three important interconnected themes that link Africa and the capitalist world system of the last 500 years While drawing attention to the structural crisis of the modern world system Wallerstein uses the first set of essays to explore the impact of this worldwide structural crisis on Africa Next he turns to identity politics a political stance that came to prominence in the last thirty years and considers the world system context for the African dilemmas posed by this approach Not unique to Africa identity politics has become central to political struggles everywhere in the world system Finally Wallerstein reflects on African thinkers analyses of current affairs both in the world system and in Africa Coming from someone who has been involved in writing about Africa for over seventy years Wallerstein argues that if Africa is going to play an appropriate and significant role in resolving the structural crisis of the modern world system it is crucial that there continue to be a well informed and intellectually relevant debate about the issues involved the moral choices to be made and the political strategies to follow

A Different Vision Thomas D Boston, 2002-01-04 *A Different Vision* African American Economic Thought brings together for the first time the ideas philosophies and interpretations of North America s leading African American economists Presented in two volumes Volume 1 includes An in depth discussion of the economics of race and gender Assessments of the contribution and influence of major African American economists and economic philosophies An examination of racism within the economics profession An interdisciplinary approach which is largely free of technical jargon The volumes draw the inescapable conclusion that racial inequality has had an immense impact in every sphere of African American life Race and Ethnicity: Debates and controversies Harry Goulbourne, 2001 **Shades of Difference** Richard Rees, 2007-02-23 From its prehistory in the biological theories of racial difference formulated in the 1800s to its current position in academic debate Richard Rees investigates the diverse fields of scholarship from which the multifaceted understanding of the term ethnicity is derived At the same time Rees traces the broader historical forces that shaped the needs to which the concept of ethnicity responded and the social purposes to which it was applied Centrally he focuses upon the emergence of ethnicity in the early 1940s as a means of resolving contradictions and ambiguities in the racial status of European immigrants and its subsequent legacy and implications on race and caste *Shades of Difference* introduces new perspectives on the definition of whiteness in America and makes an original contribution to the larger discussion of race through a detailed account of ethnicity s original meaning and its revaluation when later appropriated by the discourse of Black Nationalism in the 1960s and 70s Rees has produced a powerful new analysis of the cultural and political history of ethnicity in America *Encyclopedia of African American Business History* Juliet E. K. Walker, 1999-11-30 Black business activity has been sustained in America for almost four centuries From the marketing and trading activities of African slaves in Colonial America to the rise of 20th century

black corporate America African American participation in self employed economic activities has been a persistent theme in the black experience Yet unlike other topics in African American history the study of black business has been limited General reference sources on the black experience with their emphasis on social cultural and political life provide little information on topics related to the history of black business This invaluable encyclopedia is the only reference source providing information on the broad range of topics that illuminate black business history Providing readily accessible information on the black business experience the encyclopedia provides an overview of black business activities and underscores the existence of a historic tradition of black American business participation Entries range from biographies of black business people to overview surveys of business activities from the 1600s to the 1990s including slave and free black business activities and the Black Wallstreet to coverage of black women s business activities and discussions of such African American specific industries as catering funeral enterprises insurance and hair care and cosmetic products Also there are entries on blacks in the automotive parts industry black investment banks black companies listed on the stock market blacks and corporate America civil rights and black business and black athletes and business activities

African American Pioneers of Sociology Pierre Saint-Arnaud,2009-02-07 In *African American Pioneers of Sociology* Pierre Saint Arnaud examines the lasting contributions that African Americans have made to the field of sociology Arguing that science is anything but a neutral construct he defends the radical stances taken by early African American sociologists from accusations of intellectual infirmity by foregrounding the racist historical context of the time these influential works were produced Examining key figures such as W E B Du Bois Edward Franklin Frazier Charles Spurgeon Johnson Horace Roscoe Cayton J G St Clair Drake and Oliver Cromwell Cox Saint Arnaud reveals the ways in which many aspects of modern sociology emerged from these authors radical views on race gender religion and class Beautifully translated from its original French *African American Pioneers of Sociology* is a stunning examination of the influence of African American intellectuals and an essential work for understanding the origins of sociology as a modern discipline

The Mind of Oliver C. Cox Christopher McAuley,2004 Born in Trinidad in 1901 Oliver C Cox immigrated to the US in 1919 establishing himself as a controversial sociologist McAuley s approach to Cox s life and work is shaped by his belief that Cox s Caribbean upbringing and background gave him an unorthodox perspective on race and social change

Culture, Power And History Stephen J. Pfohl,2006 This volume brings together theoretical meditations and empirical studies of the intersection of culture power and history in social life Contributors bring a diversity of critical sociological perspectives and subject matters to this important edited book

E. Franklin Frazier and Black Bourgeoisie James E. Teele,2002-05-02 When E Franklin Frazier was elected the first black president of the American Sociological Association in 1948 he was established as the leading American scholar on the black family and was also recognized as a leading theorist on the dynamics of social change and race relations By 1948 his lengthy list of publications included over fifty articles and four major books including the acclaimed *Negro Family in the United*

States Frazier was known for his thorough scholarship and his mastery of skills in both history and sociology. With the publication of *Bourgeoisie Noire* in 1955 translated in 1957 as *Black Bourgeoisie*, Frazier apparently set out on a different track one in which he employed his skills in a critical analysis of the black middle class. The book met with mixed reviews and harsh criticism from the black middle and professional class. Yet Frazier stood solidly by his argument that the black middle class was marked by conspicuous consumption, wish fulfillment, and a world of make-believe. While Frazier published four additional books after 1948, *Black Bourgeoisie* remained by far his most controversial. Given his status in American sociology, there has been surprisingly little study of Frazier's work. In *E. Franklin Frazier and Black Bourgeoisie*, a group of distinguished scholars remedies that lack by focusing on his often scorned *Black Bourgeoisie*. This in-depth look at Frazier's controversial publication is relevant to the growing concerns about racism, problems in our cities, the limitations of affirmative action, and the promise of self-help.

Routledge Handbook of Pan-Africanism Reiland Rabaka, 2020-04-30 The Routledge Handbook of Pan Africanism provides an international, intersectional, and interdisciplinary overview of and approach to Pan Africanism, making an invaluable contribution to the ongoing evolution of Pan Africanism and demonstrating its continued significance in the 21st century. The handbook features expert introductions to and critical explorations of the most important historic and current subjects, theories, and controversies of Pan Africanism and the evolution of black internationalism. Pan Africanism is explored and critically engaged from different disciplinary points of view, emphasizing the multiplicity of perspectives and foregrounding an intersectional approach. The contributors provide erudite discussions of black internationalism, black feminism, African feminism, and queer Pan Africanism alongside surveys of black nationalism, black consciousness, and Caribbean Pan Africanism. Chapters on neo-colonialism, decolonization, and Africanization give way to chapters on African social movements, the African Union, and the African Renaissance. Pan African aesthetics are probed via literature and music, illustrating the black internationalist impulse in myriad continental and diasporan artists' work. Including 36 chapters by acclaimed, established, and emerging scholars, the handbook is organized into seven parts, each centered around a comprehensive theme: Intellectual origins, historical evolution, and radical politics of Pan Africanism; Pan Africanist theories; Pan Africanism in the African diaspora; Pan Africanism in Africa; Literary Pan Africanism; Musical Pan Africanism; The contemporary and continued relevance of Pan Africanism in the 21st century. The Routledge Handbook of Pan Africanism is an indispensable source for scholars and students with research interests in continental and diasporan African history, sociology, politics, economics, and aesthetics. It will also be a very valuable resource for those working in interdisciplinary fields such as African studies, African American studies, Caribbean studies, decolonial studies, postcolonial studies, women and gender studies, and queer studies.

Growth Against Democracy H. L. T. Quan, 2012-08-31 *Growth against Democracy: Savage Developmentalism in the Modern World* by H. L. T. Quan is a compelling interrogation of the ways in which we have thought about modernity, capitalism, and democracy, and how those ideas inform neoliberal economics, diplomacy, and impact.

human life To explicate contemporary theories of development Quan introduces the concept of savage developmentalism with its attendant distortions of the ideals of equality and freedom and assumptions that foment antidemocratic social and political forms By outlining the pitfalls of security obsessed developmental approaches Growth against Democracy troubles the simple notion that modernity is inherently superior and development will benefit everyone It shows how capitalists needs for market finance and profitability often lead to development programs that engender expansionism dispossession and repression Drawing on political theory international political economy critical ethnic studies legal studies and feminist analytics this groundbreaking study exemplifies how multi disciplinary scholarship best addresses the increasingly complex and multi layered issues facing humanity today It analyzes the linkages between development and national security and provides sustained attention to the making of foreign policy the development of capitalism and corporate globalization The book highlights three critical examples of where savage developmentalism has eventuated worse living conditions severe social repression and displacement Brazilian Japanese economic relations in Brazil under military rule 1964 1985 China s aggressive courting of African good will and resources and the United States reconstruction of Iraq These three major historical cases represent some of the most momentous global development in the last sixty years and never before have such powerful cases been analyzed in the same monograph Growth against Democracy helps re evaluate the promises of progress security and freedom and broadens our ideas about and priorities for humane public policy at the national and global levels

Encyclopedia of the African Diaspora Carole Boyce Davies, 2008-07-29 The authoritative source for information on the people places and events of the African Diaspora spanning five continents and five centuries The field of African Diaspora studies is rapidly growing Until now there was no single authoritative source for information on this broad complex discipline Drawing on the work of over 300 scholars this encyclopedia fills that void Now the researcher from high school level up can go to a single reference for information on the historical political economic and cultural relations between people of African descent and the rest of the world community Five hundred years of relocation and dislocation of assimilation and separation have produced a rich tapestry of history and culture into which are woven people places and events This authoritative accessible work picks out the strands of the tapestry telling the story of diverse peoples separated by time and distance but retaining a commonality of origin and experience Organized in A Z sections covering global topics country of origin and destination country the work is designed for easy use by all

The African Diaspora in the Austrian Political Economy: A Marxist Analysis Mathias Sajovitz, 2008-10-12 More than 25 000 people of African descent are living in Austria one of the richest political economies in the world that is part and parcel of one of the strongest neo imperialist blocks in the form of the European Union Migration of Africans to Austria thus must be seen in the context of global capitalism which has harmfully impacted on the global South by means of neo imperialism and thus has led to migration to the global North Byreferring to Marxist theory more particularly world systems theory and Marxist migration theory the book at hand

examines the African Diaspora in Austria from a twofold perspective First it illustrates the role of Austria in the global economy after World War II and during the emergence of global turbo capitalism Second the narrative illustrates how people deprived of their livelihoods on the African continent become subjects of exploitation and discrimination in Austria via the asylum route

Pages from a Black Radical's Notebook James Boggs, 2011 Stephen M Ward is assistant professor at the University of Michigan in the Center for Afroamerican and African Studies and the Residential College Book Jacket [Social Inequality](#) Charles E. Hurst, 2015-10-14 A user friendly introduction to social inequality This text is a broad introduction to the many types of inequality economics status political power sex and gender sexual orientation race and ethnicity in U S society and in a global setting The author provides a wide range of explanations for inequality and using the latest research on the multiple impacts of inequality surveys in detail the personal and social consequences of social inequality Learning Goals Upon completing this book readers will be able to Understand that inequality is multidimensional Understand that it is essential to understand the explanations of the various forms of inequality in order to further a resolution to any inequality's undesirable consequences Understand the discussion of inequality in its broader historical cultural and international context

American Capitalism Nelson Lichtenstein, 2011-06-03 At the dawn of the twenty first century the legitimacy of American capitalism seems unchallenged The link between open markets economic growth and democratic success has become common wisdom not only among policy makers but for many intellectuals as well In this instance however the past has hardly been prologue to contemporary confidence in the free market American Capitalism presents thirteen thought provoking essays that explain how a variety of individuals many prominent intellectuals but others partisans in the combative world of business and policy engaged with anxieties about the seismic economic changes in postwar America and in the process reconfigured the early twentieth century ideology that put critique of economic power and privilege at its center The essays consider a broad spectrum of figures from C L R James and John Kenneth Galbraith to Peter Drucker and Ayn Rand and topics ranging from theories of Cold War convergence to the rise of the philanthropic Right They examine how the shift away from political economy at midcentury paved the way for the 1960s and the culture wars that followed Contributors interrogate what was lost and gained when intellectuals moved their focus from political economy to cultural criticism The volume thereby offers a blueprint for a dramatic reevaluation of how we should think about the trajectory of American intellectual history in twentieth century United States

Recent Marxian Theory John F. Sitton, 1996-01-01 Brings together prominent recent analyses within the Marxist tradition that bear on class formation and social conflict in contemporary capitalism and concludes that class relations continue to be important for analyzing the historical trajectory of and challenges to capitalism although not in the way Marx imagined

[The Paralysis of Analysis in African American Studies](#) Stephen Ferguson II, 2023-09-21 Stephen C Ferguson II provides a philosophical examination of Black popular culture for the first time From extensive discussion of the philosophy and political economy of Hip Hop music through to a

developed exploration of the influence of the postmodernism poststructuralist ideology on African American studies he argues how postmodernism ideology plays a seminal role in justifying the relationship between corporate capitalism and Black popular culture Chapters cover topics such as cultural populism capitalism and Black liberation the philosophy of Hip Hop music and Harold Cruse s influence on the cultural turn in African American studies Ferguson combines case studies of past and contemporary Black cultural and intellectual productions with a Marxist ideological critique to provide a cutting edge reflection on the economic structure in which Black popular culture emerged He highlights the contradictions that are central to the juxtaposition of Black cultural artists as political participants in socioeconomic struggle and the political participants who perform the rigorous task of social criticism Adopting capitalism as an explanatory framework Ferguson investigates the relationship between postmodernism as social theory current manifestations of Black popular culture and the theoretical work of Black thinkers and scholars to demonstrate how African American studies have been shaped

Teaching Race and Anti-Racism in Contemporary America Kristin Haltinner, 2013-10-16 This book presents thoughtful reflections and in depth critical analyses of the new challenges and opportunities instructors face in teaching race during what has been called the post racial era It examines the racial dimensions of the current political economic and cultural climate The book features renowned scholars and experienced teachers from a range of disciplines and offers successful strategies for teaching important concepts through case studies and active learning exercises It provides innovative strategies novel lesson plans and classroom activities for college and university professors who seek effective methods and materials for teaching about race and racism to today s students A valuable handbook for educators this book should be required reading for all graduate students and college instructors
