Race For Rome:

The Race for Rome Dan Kurzman, 1977 **Race** Marc Aronson, 2007 Discusses the presence of racial prejudice throughout history and how it dictates the way we relate to others **Race** Denise Eileen McCoskey, 2021-03-25 How do different cultures think about race In the modern era racial distinctiveness has been assessed primarily in terms of a person's physical appearance But it was not always so As Denise McCoskey shows the ancient Greeks and Romans did not use skin colour as the basis for categorising ethnic disparity The colour of one's skin lies at the foundation of racial variability today because it was used during the heyday of European exploration and colonialism to construct a hierarchy of civilizations and then justify slavery and other forms of economic exploitation Assumptions about race thus have to take into account factors other than mere physiognomy This is particularly true in relation to the classical world In fifth century Athens racial theory during the Persian Wars produced the categories Greek and Barbarian and set them in brutal opposition to one another a process that could be as intense and destructive as black and white in our own age Ideas about race in antiquity were therefore completely distinct but as closely bound to political and historical contexts as those that came later This provocative book boldly explores the complex matrices of race and the differing interpretations of ancient and modern across epic tragedy and the novel Ranging from Theocritus to Toni Morrison and from Tacitus and Pliny to Bernal's seminal study *Black Athena* this is a powerful and original new assessment *With the World's People: Greece. Rome. Southern Italy* John Clark Ridpath, 1913 *Race in Post-Fascist Italy* Silvana Patriarca, 2022-02-03 Focusing on the experiences and representations of the brown babies born at the end of World War Two from the encounters between Black Allied soldiers and Italian women this book explores the persistence of racial thinking and racism in post fascist and postcolonial Italy Through the use of a large variety of historical sources including personal testimonies and the cinema Silvana Patriarca illustrates Italian and also American responses to what many considered a problem She sensitively analyses the perceptions of race color among different actors such as state and local authorities Catholic clerics filmmakers geneticists psychologists and ordinary people and her book is rich in detail about their impact on the lives of the children Uncovering the pervasiveness of anti Black prejudice in the early democratic republic as well as the presence and limitations of anti racist sensibilities *Race in Post Fascist Italy* allows us to better understand Italy's conflicted reaction to its growing diversity

Race and Ethnicity in Anglo-Saxon Literature Stephen Harris, 2004-06-01 What makes English literature English This question inspires Stephen Harris's wide ranging study of Old English literature From Bede in the eighth century to Geoffrey of Monmouth in the twelfth Harris explores the intersections of race and literature before the rise of imagined communities Harris examines possible configurations of communities illustrating dominant literary metaphors of race from Old English to its nineteenth century critical reception Literary voices in the England of Bede understood the limits of community primarily as racial or tribal in keeping with the perceived divine division of peoples after their languages and the extension of

Christianity to Bede's Germanic neighbours was effected in part through metaphors of family and race Harris demonstrates how King Alfred adapted Bede in the ninth century how both exerted an effect on Archbishop Wulfstan in the eleventh and how Old English poetry speaks to images of race

Our Race, 1894 Sex and Race, Volume 3 J. A. Rogers, 2014-09-15 In the Sex and Race series first published in the 1940s historian Joel Augustus Rogers questioned the concept of race the origins of racial differentiation and the root of the color problem Rogers surmised that a large percentage of ethnic differences are the result of sociological factors and in these volumes he gathered what he called the bran of history the uncollected unexamined history of black people in the hope that these neglected parts of history would become part of the mainstream body of Western history Drawing on a vast amount of research Rogers was attempting to point out the absurdity of racial divisions Indeed his belief in one race humanity precluded the idea of several different ethnic races The series marshals the data he had collected as evidence to prove his underlying humanistic thesis that people were one large family without racial boundaries Self trained and self published Rogers and his work were immensely popular and influential during his day even cited by Malcolm X The books are presented here in their original editions

The Race for Paradise Paul M. Cobb, 2014-07-24 In 1099 when the first crusaders arrived triumphant and bloody before the walls of Jerusalem they carved out a Christian European presence in the Islamic world that remained for centuries bolstered by subsequent waves of new crusades and pilgrimages But how did medieval Muslims understand these events What does an Islamic history of the Crusades look like The answers may surprise you In *The Race for Paradise* we see medieval Muslims managing this new and long lived Crusader threat not simply as victims or as victors but as everything in between on all shores of the Muslim Mediterranean from Spain to Syria This is not just a straightforward tale of warriors and kings clashing in the Holy Land of military confrontations and enigmatic heroes such as the great sultan Saladin What emerges is a more complicated story of border crossers and turncoats of embassies and merchants of scholars and spies all of them seeking to manage this new threat from the barbarian fringes of their ordered world When seen from the perspective of medieval Muslims the Crusades emerge as something altogether different from the high flying rhetoric of the European chronicles as a diplomatic chess game to be mastered a commercial opportunity to be seized a cultural encounter shaping Muslim experiences of Europeans

until the close of the Middle Ages and as so often happened a political challenge to be exploited by ambitious rulers making canny use of the language of jihad **World Traveler** ,1929 **A Cultural History of Race in Antiquity** Denise Eileen McCoskey,2023-06-01 The era generally referred to as antiquity lasted for thousands of years and was characterized by a diverse range of peoples and cultural systems This volume explores some of the specific ways race was defined and mobilized by different groups including the Greeks Romans Egyptians Persians and Ethiopians as they came into contact with one another during this period Key to this inquiry is the examination of institutions such as religion and politics and forms of knowledge such as science that circumscribed the formation of ancient racial identities and helped determine their meanings and consequences Drawing on a range of ancient evidence literature historical writing documentary evidence and ancient art and archaeology this volume highlights both the complexity of ancient racial ideas and the often violent and asymmetrical power structures embedded in ancient racial representations and practices like war and the enslavement of other persons The study of race in antiquity has long been clouded by modern assumptions so this volume also seeks to outline a better method for apprehending race on its own terms in the ancient world including its relationship to other forms of identity such as ethnicity and gender while also seeking to identify and debunk some of the racist methods and biases that have been promulgated by classical historians themselves over the last few centuries **The conversion of the Teutonic race, or, The first apostles of Europe.
