The Great Fear: Race in the Mind of America Gary B. Nash,Richard Weiss,1970 The nine essays in this volume probe the historical origins of the white racial attitudes from the time Europeans first set foot in the New World They show all too clearly that the current crisis between the promise and the reality of American life has roots acknowledged by only a few Beginning with the Englishman s first contact with native Americans in the early 17th century these essays explore racial attitudes first toward the Negro and the Indian then toward the European minorities who flooded the labor market later in the 19th century the Asian immigrants whose entrance to the United States at the beginning of this century was severely restricted and finally the plight of Mexican Americans What emerges is a clear pattern of fear and consequent discrimination whose cumulative effect as the last chapter points out is present in the shockwaves of today s racial crisis The various texts give evidence of longheld racist assumptions and raises the question whether life liberty and the pursuit of happiness had been intentionally restricted from the outset **Race, Gender, and Class in Criminology** Dragan Milovanovic,Martin D. Schwartz,2015-12-22 These essays first published in 1996 focus on class race and gender as organising and analytical concepts in criminology For many years their importance in studying how the world relates to crime and its control was minimized or ignored It is clear however that these concepts are of critical importance in understanding societal issues especially crime and societal responses to it This title will be of interest to students of criminology *Encyclopedia of Race and Crime* Helen Taylor Greene,Shaun L. Gabbidon,2009-04-14 The organization of the reader s guide especially the groupings of landmark cases race riots and criminology theories is impressive Other related titles lack the breadth detail and accessibility of this work Recommended for all libraries essential for comprehensive social studies collections Library Journal As seen almost daily on local and national news race historically and presently figures prominently in crime and justice reporting within the United States in the areas of hate crimes racial profiling sentencing disparities wrongful convictions felon disenfranchisement political prisoners juveniles and the death penalty and culturally specific delinquency prevention programs The Encyclopedia of Race and Crime covers issues in both historical and contemporary context with information on race and ethnicity and their impact on crime and the administration of justice These two volumes offer a greater appreciation

for the similar historical experiences of varied racial and ethnic groups and illustrate how race and ethnicity has mattered and continues to matter in the administration of American criminal justice Key Features Covers a number of broad thematic areas basic concepts and theories of criminal justice the police courts and corrections juvenile justice public policy the media organizations specific groups and populations and specific cases and biographies Addresses such topics as gender hate bias crimes immigrant experiences international and cross cultural issues race and gangs and race and law Presents experiences of all major racial and ethnic groups in the U S including Asians Blacks Latinos Native Americans and Ethnic Whites as well as religious minorities such as Muslims Includes coverage of recent incidents like the alleged rape of a black female North Carolina Central University student by white male members of the Duke University Lacrosse Team the Jena 6 incident the Tulia Texas drug arrests the Rodney King beating the O J Simpson trials in the 1990s and more recent racial profiling incidents Two appendices provide information on locating and interpreting statistical data on race and crime as well as detailed instructions on how to access statistical data on the web for such specific areas as arrests drugs gang membership hate crimes homicide trends juvenile justice prison populations racial profiling the death penalty and victimization Because the topic of race and crime is of wide interest and relevance entries in this Encyclopedia are written in an accessible style to appeal to a broad audience making it a welcome addition to academic and public libraries alike Turn Del

expressions its transcendence of Black white binaries and its link to neo liberalism its epistemological and ethical implications and ultimately its future *Race and the Obama Phenomenon* G. Reginald Daniel, Hettie V. Williams, 2014-07-17

The concept of a more perfect union remains a constant theme in the political rhetoric of Barack Obama From his now historic race speech to his second victory speech delivered on November 7 2012 that striving is evident Tonight more than two hundred years after a former colony won the right to determine its own destiny the task of perfecting our union moves forward stated the forty fourth president of the United States upon securing a second term in office after a hard fought political contest Obama borrows this rhetoric from the founding documents of the United States set forth in the US Constitution and in Abraham Lincoln s Gettysburg Address How naive or realistic is Obama s vision of a more perfect American union that brings together people across racial class and political lines How can this vision of a more inclusive America be realized in a society that remains racist at its core These essays seek answers to these complicated questions by examining the 2008 and 2012 elections as well as the events of President Obama s first term Written by preeminent race scholars from multiple disciplines the volume brings together competing perspectives on race gender and the historic significance of Obama s election and reelection The president heralded in his November 2012 acceptance speech The idea that if you re willing to work hard it doesn t matter who you are or where you come from or what you look like whether you re black or white Hispanic or Asian or Native American These essayists argue the truth of that statement and assess whether America has made any progress toward that vision **Dictionary of Race, Ethnicity and Culture** Guido Bolaffi, 2003 Race ethnicity and culture are concepts that are interpreted in various and often contradictory ways This dictionary provides the historical background and etymology of a wide range of words related to these concepts and ideas Race, Class, and Gender in the United States Paula S. Rothenberg, 2004 Race Class and Gender in the United States An Integrated Study presents students with a compelling clear study of issues of race gender and sexuality within the context of class Rothenberg offers students 126 readings each providing different perspectives and examining the ways in which race gender class and sexuality are socially constructed Rothenberg deftly and consistently helps students analyze each phenomena as well as the relationships among them thereby deepening their understanding of each issue surrounding race and ethnicity **Legacies of Lynching** Jonathan Markovitz, 2004 Between 1880 and 1930 thousands of African Americans were lynched in the United States Beyond the horrific violence inflicted on these individuals lynching terrorized whole communities and became a defining characteristic of Southern race relations in the Jim Crow era As spectacle lynching was intended to serve as a symbol of white supremacy Yet Jonathan Markovitz notes the act s symbolic power has endured long after the practice of lynching has largely faded away Legacies of Lynching examines the evolution of lynching as a symbol of racial hatred and a metaphor for race relations in popular culture art literature and political speech Markovitz credits the efforts of the antilynching movement with helping to ensure that lynching would be understood not as a method of punishment for black

rapists but as a terrorist practice that provided stark evidence of the brutality of Southern racism and as America's most vivid symbol of racial oppression. Cinematic representations of lynching from *Birth of a Nation* to *Do the Right Thing* he contends further transform the ways that American audiences remember and understand lynching as have disturbing recent cases in which alleged or actual acts of racial violence reconfigured stereotypes of black criminality. Markovitz further reveals how lynching imagery has been politicized in contemporary society with the example of Clarence Thomas who condemned the Senate's investigation into allegations of sexual harassment during his Supreme Court confirmation hearings as a high tech lynching. Even today as revealed by the 1998 dragging death of James Byrd in Jasper Texas and the national soul searching it precipitated lynching continues to pervade America's collective memory. Markovitz concludes with an analysis of debates about a recent exhibition of photographs of lynchings suggesting again how lynching as metaphor remains always in the background of our national discussions of race and racial relations. Jonathan Markovitz is a lecturer in sociology at the University of California San Diego.

Violence and the Body Arturo J. Aldama, 2003-05-28 *Violence and the Body* Race Gender and the State explores the relationship between subalternity the discourse and technology of the body and the rise and proliferation of racial colonial sexual domestic and state violence examining the materiality of violence on the otherized body. Grounded in U S Mexico border and Latin American cultural studies the essays in this collection intersect discussions of subalternity violence and discourses of the body in a transethnic feminist and global cultural studies context. They provide a global mapping of contemporary modes and acts of physical and representational violence and demonstrate how discourses of otherization are reinforced and interanimated through violence on what Elizabeth Grosz has called the intensities and flows of the body.

The American Race Problem: A Study of the Negro Edward Byron Reuter, 1927 *Race and State* Karen Fricker, Ronit Lentin, 2009-01-14 Speaking about racism in the western political climate of the first decade of the twenty first century is more difficult than ever before. There is a feeling in post colonial and post immigration societies that the blatant overt racism of the past is no longer as pressing. Admitting racism elicits discomfort because common wisdom tells us that racism opposes everything that we believe in as citizens of democratic civilised modern states. Yet state racism appears to be here to stay and in many ways is more acceptable than ever before. Immigration detention centres the deportation of failed asylum seekers and illegal immigrants racial profiling and the rolling back of liberties won by the civil rights movement are all examples of how state racism impacts on our daily lives. *Race and State* contributes to breaking the taboo of discussing the links between race and state. The papers collected in this book highlight the interconnections between race and state from historical theoretical or contemporary sociological perspectives. Part I of the book looks at theoretical issues in conceptualising the race state relationship. Part II examines racism in its most pernicious contemporary manifestation the racialisation of terror. Part III on the racial state's of Ireland is an important addition to the debate examining Ireland as a test case for demonstrating and interpreting the relationship between race and state.

Social Equity Susan T Gooden, 2015-01-28 In this compelling book the author contends that social equity specifically racial equity is a nervous area of government Over the course of history this nervousness has stifled many individuals and organizations thus leading to an inability to seriously advance the reduction of racial inequities in government The author asserts that until this nervousness is effectively managed public administration social equity efforts designed to reduce racial inequities cannot realize their full potential Chapters 2 and 8 of this book are freely available as downloadable Open Access PDFs at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license
