## **Race Politics And Economic Development Community Perspectives:**

**Race, Politics, and Economic Development** James Jennings, 1992-12-17 In April 1992 the world witnessed a renewal in South Central Los Angeles of the urban violence that had exploded there over a quarter of a century earlier. As in the Watts rebellion of 1965, the spark that ignited the firestorm was Black rage over police brutality. But in both eras the tinder was prepared by decades of social neglect and political disenfranchisement that have left the predominantly non-white urban poor trapped and virtually without hope. *Race Politics and Economic Development* examines the underlying causes of Black urban poverty and recommends means to escape the seemingly endless cycle of retributive violence that it spawns. The book brings together Black activists and scholars including two former mayors of American cities to analyze the theoretical and practical problems facing the Black community in the United States. The essays argue that political influence, power, and wealth are major factors in determining social welfare policies; that both liberal and conservative policies are no longer effective in alleviating a growing human service crisis among Blacks; and that political mobilization of the Black community is absolutely critical in resolving the problem of poverty in urban America. Drawing on work in the social sciences, political theory, and economics, and also on the contributors' activist experiences, these essays present an agenda for the participation of grassroots Black leaders in developing and implementing urban policy.

**Racism in Contemporary America** Meyer Weinberg, 1996-05-23 *Racism in Contemporary America* is the largest and most up-to-date bibliography available on current research on the topic. It has been compiled by award-winning researcher Meyer Weinberg, who has spent many years writing and researching contemporary and historical aspects of racism. Almost 15,000 entries to books, articles, dissertations, and other materials are organized under 87 subject headings. In addition, there are author and ethnic racial indexes. Several aids help the researcher access the materials included. In addition to the subject organization of the bibliography, entries are annotated whenever the title is not self-explanatory. An author index is followed by an ethnic racial index, which makes it convenient to follow a single group through any or all the subject headings. This is a source book for the serious study of America's most enduring problem, as such it will be of value to students and researchers at all levels and in most disciplines.

***Neighborhoods, Family, and Political Behavior in Urban America*** Yvette Alex-Assensoh, 2018-10-24 Undergirded by a multidisciplinary framework of political science, geography, and sociology, this book examines the manner in which neighborhood economic resources and family structure shape individual political behavior among white and black citizens in urban America.

**The Color of Freedom** David Carroll Cochran, 1999-04-23 Offers a fresh, distinctive, and compelling analysis of the United States' continuing dilemma of race.

**Economic Citizenship** Amalia Sa'ar, 2016-07-01 With the spread of neoliberal projects, responsibility for the welfare of minority and poor citizens has shifted from states to local communities. Businesses, municipalities, grassroots activists, and state functionaries share in projects meant to help vulnerable populations become self-supportive. Ironically, such projects produce odd discursive blends of justice, solidarity, and wellbeing.

and place the languages of feminist and minority rights side by side with the language of apolitical consumerism Using theoretical concepts of economic citizenship and emotional capitalism Economic Citizenship exposes the paradoxes that are deep within neoliberal interpretations of citizenship and analyzes the unexpected consequences of applying globally circulating notions to concrete local contexts

Youth Development and Critical Education Richard D. Lakes, 1997-03-13 Public policy debates about urban crime and the fate of America's crumbling inner cities suggest a need to consider solutions that create conditions for sustainable community development where youths join with caring adults in intergenerational coalitions at the grassroots Using a field based approach the author reviews over two dozen youth development projects in non school and after school settings The analyses of these programs examines how young people might achieve a level of economic and political self determination and community control as well as personal fulfillment coupled with healthy adolescent growth Once empowered with critical insights young people can exhibit positive real life displays of their visions dreams and ambitions

Blacks, Latinos, and Asians in Urban America James Jennings, 1994-09-30 This volume of essays by scholars and activists focuses on the political and social relations between blacks Latinos and Asians in key urban centers Collectively the essays examine the particular status of relations between these groups the reasons for conflict or consensus and the prospects for future relations While a number of cities are examined the book focuses on Los Angeles Washington D C and Miami as particularly instructive case studies Urban eruptions in these cities are examined in terms of the nature of political relations between blacks Latinos and Asians These essays provide analyses within a sociohistorical context and offer the kind of political activism that might ensure consensus rather than conflict between these groups in urban America As Luis Fuentes observes This book should be read by all activists and scholars interested in changing the face of urban and ultimately national America for if communities of color can come together for progressive political action then it will only be a matter of

time before America finally begins to look like and act like what it has been preaching for generations      Understanding the Nature of Poverty in Urban America James Jennings, 1994-08-23 This book is designed to help readers navigate through the vast and rapidly growing literature on poverty in urban America The major themes topics debates and issues are examined through an analysis of eight basic questions about the nature and problem of urban poverty What is poverty and how is it measured What kinds of national policies have been utilized to manage poverty What are the major characteristics and trends associated with poverty in America and how are race and ethnicity reflected in these trends What are the major explanations for persistent poverty in the United States What are the major characteristics and themes reflected in the American welfare system and anti poverty policies How is the underclass defined and explained How have the poor utilized political mobilization to fight poverty in the United States How does social welfare policy directed at poverty in America compare to social welfare systems in other countries After analyzing these issues Jennings concludes with a brief overview of how public discussions related to poverty in the 1990s are similar to such debates in earlier periods Essential reading for urban policy makers social scientists and students of contemporary American urban concerns      **Selling Culture** Richard Malin Ohmann, 1996 Surveys the new practices of advertising mass distribution of goods and the birth of the inexpensive mass audience magazine at the end of the 19th century and their role in the creation of the American professional managerial class Focuses on magazine publishing careers of key personalities in the publishing world and the role of fiction in the magazines For students and general readers Annotation copyright by Book News Inc Portland OR      **Dimensions of Black Conservatism in the United States** G. immigration drugs gangs and terrorism for example have been racialized and explains the historical and social origins of these racializing threat narratives The book identifies how these narratives have led directly to relentless profiling that results in arrest deportation massive surveillance or even death for members of suspect populations Readers will come to understand how the problem of profiling is not merely a problem of institutional bias and individual decision making but also a deeply rooted cultural issue stemming from the processes of meaning making and identity construction
