Race Religion And The Continuing American Dilemma:

Race, Religion, and the Continuing American Dilemma Charles Eric Lincoln, 1984

Race, Religion, and the

Continuing American Dilemma C. Eric Lincoln, 1986-02-01 Argues that Protestantism Catholicism and Judaism have accommodated themselves to predominant social and political mores and require serious self examination *Race, Religion, and the Continuing American Dilemma* C. Eric Lincoln, 2011-04-01 A classic work on religion and the racial problems of modern America now brought up to date Since the early days of the Republic Americans exuberant unchastened idealism their commitment to the notion of a perfect society in the New World has clashed with the reality of ugly American society and religious groups have all too often accommodated themselves to these injustices In *Race Religion and the Continuing American Dilemma* C Eric Lincoln reevaluates what Gunnar Myrdal called the American dilemma and studies particularly the influence of the black church This revised edition takes into account the weakening of welfare and affirmative action and argues that the black church must serve today as a vital moral authority to lead us in to the twenty first century **The Black Church in the African American Experience** C. Eric Lincoln, Lawrence H. Mamiya, 1990-11-07 A nongovernmental survey of urban and rural churches of black communities based on a ten year study From Strength to Strength Robert London Smith, 2007 Drawing on his experience as a member of the clergy and the questions and concerns that arose in the course of ministering to congregants Robert London Smith Jr explores exactly what function the black church performs and importantly why In this provocative work he argues that much black church praxis is less authentic relevant and constructive today because it continues to be implicated by certain values and meanings that are themselves rooted in a historical black thematic universe that is fading and being replaced by a new set of values and meanings located within a contemporary black thematic universe Using a practical theology method Smith develops a theological framework context praxis to create an approach to understanding and creating an informed praxis for the black church He then sets forth a bold project that calls for the critical engagement of black church praxis and what he calls the black thematic universe in its historical and contemporary manifestations The goal is to transform this praxis so that it remains authentic to the Gospel and the religious traditions and history of those who come to interpret and live out its message in the world while being relevant to the issues and challenges of the present historical context in which the black church lives out its meaning and purpose and constructive for the building up and equipping of the Body of Christ Smith's creation of a black existential and theological hermeneutic is an approach that moves toward the realization of this ambitious goal This book challenges many traditional views of black church praxis including pastoral care worship and fellowship and creates a space for a renewed and much needed dialogue about the acts of the black church within contemporary America As such it is an important text for students of practical theology and African American religion as well as those interested in developing a critical understanding of the implications of the intersection of faith and culture *Muslims' Place in the American Public Square* Zahid Hussain Bukhari, 2004 Once a

year Muslims from around the world representing a vast range of ethnicities incomes ages and attitudes perform the Hajj pilgrimage and converge in the holy city of Mecca in Saudi Arabia Now the global diversity of Muslims at the Hajj is almost repliacted in the United States new immigrants Muslims whose families have been here for generations and converts are coming together seeing what unites them and what issues they face together Project MAPS Muslims in the American Public Square began in 1999 to provide much needed information on this understudied and immensely diverse group of six million Americans This first volume emerging from the project Muslims Place in the American Public Square shows where the American Muslim community fits into the American religious and civic landscape both before and after 9 11 Renowned scholars contribute theoretical legal historical and sociological perspectives on how Muslims function in both their own institutions and others For classes in religion or the social sciences or for anyone interested in this increasingly significant community Muslims Place in the American Public Square provides a current balanced introduction

Race Against Time Jack E. Davis,2004-10-01 While many studies of race relations have focused on the black experience Race against Time strives to unravel the emotional and cultural foundations of race in the white mind Jack E Davis combed primary documents in Natchez Mississippi and absorbed the town s oral history to understand white racial attitudes there over the past seven decades a period rich in social change strife and reconciliation What he found in this community that cultivates for profit a romantic view of the Old South challenges conventional assumptions about racial prejudice Davis engagingly and effortlessly weaves between nineteenth and twentieth centuries white observations and black to describe patterns of social interaction in Natchez in the workplace education politics religion and daily life It was not he discovers false notions of biological differences reinforced by class and economic conflict that lay at the heart of the town s racial divide but rather the perception of a black white cultural divergence in values in education work and family White culture

was deemed superior a presumption manifested through a hierarchy of old family elite and other white citizens Since 1930 Natchez has developed a major tourist industry downsized sharecropping expanded its manufacturing sector and participated in the struggles for civil rights school desegregation and black political empowerment Yet the collective white perception of a mythic past has continued reinforced through the sum of Natchez s public history social memory school textbooks breathtaking antebellum mansions and world famous Pilgrimage In *Race against Time* Davis sensitively lays bare the need for shared control of the town s history and the acknowledgment of intercultural dependence to effect true racial equality Building upon the 1941 classic *Deep South A Social Anthropological Study of Caste and Class* Davis brings tremendous passion and insight to the demanding issue of race as he fathoms the contours of Natchez s distinctive racial dynamics in recent decades
