## **Race To Power:**

*Race, Power, and Political Emergence in Memphis* Sharon D. Wright, 2021-12-12 *Race Power and Political Emergence in Memphis* examines black political behavior and empowerment strategies in the city of Memphis. Each chapter of the text focuses on three themes: mobilization, emergence, and incorporation. By analyzing the effects of race on black political development in Memphis, scholars will be able to examine broader questions about its effects in other cities. How do political machines use substantial black electorates to their advantage? What forms of protest do black communities conduct to rebel against machine rule? What primary mobilization tactics have black citizens used during the different periods of their political development? Why do blacks mobilize more quickly in some cities? In cities with large and predominantly black populations, what elements prevent black candidates from winning citywide races? What constraints do newly elected black mayors face? What benefits do black citizens gain from their representation? After a predominantly black governing coalition is elected, what obstacles remain? Can black citizens translate proportional representation into strong political incorporation? How much power can African Americans realistically expect to gain in cities? This book is the most comprehensive case study of the city's political scene written to date. The text primarily shows that white racism is not the only obstacle to black political development. Black citizens can have population majorities but lose elections for other reasons. Their ability to win elections and gain full incorporation depends heavily on whether they minimize internal conflict and establish coalitions with middle class citizens and the business establishment.

*Race, Power, and the Obama Legacy* Pierre Orelus, 2015-09-25 This book critically examines Obama's presidency and legacy, especially in regard to race inequality, education, and political power. Orelus depicts an interest convergence factor that led many White liberals and the corporate media to help Obama get elected in 2008 and 2012. He assesses Obama's political accomplishments, including parts of his domestic policies that support gay rights and equal pay for women. Special attention is given to Obama's educational policies like Race to the Top and the effects of such policies on both the learning and academic outcome of students, particularly linguistically and culturally diverse students. In a race and power framework, Orelus relates domestic policies to the effects of Obama's foreign policies on the lives of people in poorer countries, especially where innocent children and women have been killed by war and drone strikes authorized by Obama's administration. The author invites readers to question and transcend the historical symbolism of Obama's political victory in an effort to carefully examine and critique his actions as reflected through both his domestic and foreign policies.

*Challenging History* Leah Worthington,Rachel Clare Donaldson,John W. White,2021-07-22 A collection of essays that examine how the history of slavery and race in the United States has been interpreted and inserted at public historic sites For decades racism and social inequity have stayed at the center of the national conversation in the United States sustaining the debate around public historic places and monuments and what they represent These conversations are a reminder of the crucial role that public history professionals play in engaging public audiences on subjects of race and slavery This difficult history has often remained un or underexplored in our public discourse hidden from view by the tourism industry or even by public history professionals themselves as they created historic sites museums and public squares based on white centric interpretations of history and heritage *Challenging History* through a collection of essays by a diverse group of scholars and practitioners examines how difficult histories specifically those of slavery and race in the United States are being interpreted and inserted at public history sites and in public history work Several essays explore the successes and challenges of recent projects while others discuss gaps that public historians can fill at sites where Black history took place but is absent in the interpretation Through case studies the contributors reveal the entrenched false narratives that public history workers are countering in established public history spaces and the work they are conducting to reorient our collective understanding of the past History practitioners help the public better understand the world Their choices help to shape ideas about heritage and historical remembrances and can reform even transform worldviews through more inclusive and ethically narrated histories *Challenging History* invites public historians to consider the ethical implications of the narratives they choose to share and makes the case that an inclusive honest and complete portrayal of the past has the potential to reshape collective memory and ideas about the meaning of American history and citizenship      *Forest and Stream* ,1906      **Critical Race**

Studies and Anthropology      The New Voice in Race Adjustments Arcadius McSwain Trawick,1914      **The Ashgate Research Companion to Feminist Legal Theory** Vanessa E. Munro,2016-04-01 As a distinct scholarly contribution to law feminist legal theory is now well over three decades old Those three decades have seen consolidation and renewal of its central concerns as well as remarkable growth dynamism and change This Companion celebrates the strength of feminist legal thought which is manifested in this dynamic combination of stability and change as well as in the diversity of perspectives and methodologies and the extensive range of subject matters which are now included within its ambit Bringing together contributors from across a range of jurisdictions and legal traditions the book provides a concise but critical review of existing theory in relation to the core issues or concepts that have animated and continue to animate feminism It provides an authoritative and scholarly review of contemporary feminist legal thought and seeks to contribute to the ongoing development of some of its new approaches perspectives and subject matters The Companion is divided into three parts dealing with Theory Concepts and Issues The first part addresses theoretical questions which are of significance to law but which also connect to feminist theory at the broadest and most interdisciplinary level The second part also draws on general feminist theory but with a more specific focus on debates about equality and difference race culture religion and sexuality The Issues section considers in detail more specific areas of substantive legal controversy      **The Americana** Frederick Converse Beach,George Edwin Rines,1911      Report of the Minister of Public Works on the Ottawa River Storage ... Canada. Dept. of Public Works,1916      **The Politics of Race** Jill Vickers,Annette Isaac,2012-06-22 The Politics of Race is an excellent resource for students and general readers seeking to learn about race policies and legislation Arguing that states make race it provides a unique comparison of the development and construction of race in three white settler societies Canada the United States and Australia This timely new edition focuses on the politics of race after 9 11 and Barack Obama s election as president of the United States Jill Vickers and Annette Isaac explore how state sanctioned race discrimination has intensified in the wake of heightened security It also explains the new race formation of Islamophobia in all three countries and the shifts in how Hispanics and Asian Americans are being treated in the United States As race and politics become increasingly intertwined in both academic and popular discourse The Politics of Race aids readers in evaluating different approaches for promoting racial justice and transforming states      **The Subject of Race in American Science Fiction** Sharon DeGraw,2006-12-19 While the connections between science fiction and race have largely been neglected by scholars racial identity is a key element of the subjectivity constructed in American SF In his Mars series Edgar Rice Burroughs primarily supported essentialist constructions of racial identity but also included a few elements of racial egalitarianism Writing in the 1930s George S Schuyler revised Burroughs normative SF triangle of white author white audience and white protagonist and promoted an individualistic highly variable concept of race instead While both Burroughs and Schuyler wrote SF focusing on racial identity the largely separate genres of science fiction and African American literature prevented the

similarities between the two authors from being adequately acknowledged and explored Beginning in the 1960s Samuel R Delany more fully joined SF and African American literature Delany expands on Schuyler s racial constructionist approach to identity including gender and sexuality in addition to race Critically intertwining the genres of SF and African American literature allows a critique of the racism in the science fiction and a more accurate and positive portrayal of the scientific connections in the African American literature Connecting the popular fiction of Burroughs the controversial career of Schuyler and the postmodern texts of Delany illuminates a gradual change from a stable essentialist construction of racial identity at the turn of the century to the variable social construction of poststructuralist subjectivity today

**Biopower, Racism, State Racism and The Modern/Post Modern North Atlantic State: Michel Foucault's Genealogy of the Historico-Political Discourse of Race War Deconstructed** Daurius Figueira , 2018-09-02 The wave of white supremacist discourse impacting North Atlantic politics in the 21st century is yet to be effectively explained by linking this political reality to the power relations of these North Atlantic States This book presents this analysis by deconstructing a genealogy of the historico political discourse of race war Michel Foucault presented in his 1976 public lecture at the College de France where the key discursive concepts of Biopower Racism and State Racism formulated by Michel Foucault expose the nexus between racism and the nature of the North Atlantic State This book insists that in the 21st century North Atlantic hegemonic austere neo liberal financial market capitalism is now utilising a discourse of paranoid extremist militarist white supremacist discourse with a siege mentality to maintain its hegemony over its world empire potently reflected in the politics of the North Atlantic
