Race Struggles Theodore Koditschek, Sundiata Keita Cha-Jua, Helen A. Neville, 2009 The essays in this collection start with the premise that although race like class and gender is socially constructed all three categories have been shaped profoundly by their context in a capitalist society Race in other words is a historical category that develops not only in dialectical relation to class and gender but also in relation to the material conditions in which all three are forged In addition to discussing and analyzing various dimensions of the African American experience contributors also consider the ways in which race plays itself out in the experience of Asian Americans and in the very different geopolitical environments of the British Empire and postcolonial Africa Contributors are Pedro Caban Sundiata Keita Cha Jua David Crockett Theodore Koditschek Scott Kurashige Clarence Lang Minkah Makalani Helen A Neville Ibitola O Pearce David Roediger Monica M White and Jeffrey Williams

*White Ignorance and Complicit Responsibility* Eva Boodman, 2022-01-10 White ignorance is a form of collective denial that aggressively resists acknowledging the role of race and racism It dominates our political landscape warps white moral frameworks and affective responses intervenes in white self conceptions and organizes white identities In this way white ignorance poses a problem for conceptions of responsibility that rely on individuals intentions causal contributions or knowledge of the facts As Eva Boodman shows our moral concepts for responding to racism are implicated in the process of racialization when they understand responsibility as the attribution of blame or absolution innocence or guilt *White Ignorance and Complicit Responsibility* challenges these binary punitive moralities arguing that they reproduce racial harm by encouraging white people to seek innocence and the purification of moral taint instead of addressing the material conditions of racial harm Instead Boodman claims the space of complicity as a place of anti racist possibility Linking the construction of whiteness to a racist punishment paradigm this book makes the case for a different way of responding to harm as necessary for dismantling the moral racial political and affective constructs that keep racial capitalism in place

Undoing Privilege Professor Bob Pease, 2013-04-04 For every group that is oppressed another group is privileged In Undoing Privilege Bob Pease argues that privilege as the other side of oppression has received insufficient attention in both critical theories and in the practices of social change As a result dominant groups have been allowed to reinforce their dominance Undoing Privilege explores the main sites of privilege from Western dominance class elitism and white and patriarchal privilege to the less examined sites of heterosexual and able bodied privilege Pease points out that while the vast majority of people may be oppressed on one level many are also privileged on another He also demonstrates how members of privileged groups can engage critically with their own dominant position and explores the potential and limitations of them becoming allies against oppression and their own unearned privilege This is an essential book for all who are concerned about developing theories and practices for a socially just world A Nation Divided: The Conflicting Personalities, Visions, and Values of Liberals and Conservatives Anthony Walsh, 2019-10-02 Activists have long claimed that the personal is political but this book posits the converse that the political is personal The United States today is bitterly divided It is less an aspirational melting pot of immigrants and more a salad bowl made up of distinct often clashing flavors The successive elections of two divisive presidents one committed to the perennial leftist dream of fundamental change and the other to a conservative vision of Making America Great Again have exacerbated what is arguably the greatest rift in politics since the election of Abraham Lincoln Taking inspiration from Coleridge s belief that all humans are temperamentally destined to follow the path of Plato the Idealist or Aristotle the Realist this book examines the political divide in terms of these temperamental differences Liberals and conservatives views of human nature have a large bearing on the political policies they espouse but their temperaments and personalities have the most significant impact This book analyses the personality traits of liberals and conservatives in terms of the Big Five model openness to experience conscientiousness extraversion agreeableness and neuroticism Conservatives are found in almost all studies to be more conscientious agreeable and extroverted while liberals are found to be more open to new experience and neurotic The political divisions I explore in this book are all essentially fueled by personality differences There is a deepening divide between liberals and conservatives in the battle for America s soul one side seeks to steer the nation sharply to the left into socialist selfdom whereas the other side desires a wealthy and free America under the watchful eye of God s providence A preponderance of academic texts

belongs to the liberal tradition Conservatives have long lacked a comparable intellectual tradition of their own although an incipient one is now beginning to form This book while maintaining a measure of scholarly distance is unashamedly written from a conservative point of view

*The Other Side of Terror* Erica R. Edwards, 2021-08-10 WINNER 2022 John Hope Franklin Prize given by the American Studies Association HONORABLE MENTION 2022 Gloria E Anzald a Book Prize given by the National Women s Studies Association Reveals the troubling intimacy between Black women and the making of US global power The year 1968 marked both the height of the worldwide Black liberation struggle and a turning point for the global reach of American power which was built on the counterinsurgency honed on Black and other oppressed populations at home The next five decades saw the consolidation of the culture of the American empire through what Erica R Edwards calls the imperial grammars of blackness This is a story of state power at its most devious and most absurd and at the same time a literary history of Black feminist radicalism at its most trenchant Edwards reveals how the long war on terror beginning with the late Cold War campaign against organizations like the Black Panther Party for Self Defense and the Black Liberation Army has relied on the labor and the fantasies of Black women to justify the imperial spread of capitalism Black feminist writers not only understood that this would demand a shift in racial gendered power but crafted ways of surviving it *The Other Side of Terror* offers an interdisciplinary Black feminist analysis of militarism security policing

diversity representation intersectionality and resistance while discussing a wide array of literary and cultural texts from the unpublished work of Black radical feminist June Jordan to the memoirs of Condoleezza Rice to the television series Scandal With clear moving prose Edwards chronicles Black feminist organizing and writing on the other side of terror which tracked changes in racial power transformed African American literature and Black studies and predicted the crises of our current era with unsettling accuracy

*Class Struggles* Dennis L. Dworkin, 2014-05-22 In the 1960s and 1970s the study of history and sociology was heavily influenced by Marxism and theories of class But the collapse of Communism and significant changes in culture and society threw the study of class into crisis Its most basic premises were called into question More recently accelerating globalisation proliferating multinational corporations and unbridled free market capitalism have given the study of class a new significance and caused historians and sociologists to revisit the debate This book looks at the

changes that caused the crisis in the study of class and shows how new vibrant theories have appeared that will drive forward our understanding of history and sociology

**Racing to Justice** John A. Powell, 2024-11-19 In *Racing to Justice* renowned social justice advocate John A. Powell persuasively argues that we have yet to achieve a truly post racial society and that there is much work to be done to redeem the American promise of inclusive democracy. Gathered from a decade of writing about social justice and spirituality these meditations on race identity and social policy provide an outline for laying claim to our shared humanity and a way toward healing ourselves and securing our future. With an updated foreword and a new chapter on polarization this new edition continues to challenge us to replace the attitudes and institutions that promote and perpetuate social suffering with those that foster relationships and a way of being that transcends disconnection and separation. *Racing to Justice* is a thought provoking book that offers readers a look into the issues that continue to plague our society. It is a reminder that we have yet to address and reckon with the challenges we face in providing equal opportunities for all people in this country and the world.

**Moral and Immoral Whiteness in Immigration Politics** Yalidy Matos, 2023 Immigration has been at the heart of US politics for centuries. In *Moral and Immoral Whiteness in Immigration Politics* Yalidy Matos examines the inherent moral value based nature of white Americans immigration attitudes including preferences on local immigration enforcement programs federal immigration policy and levels of legal immigration allowed. Does identifying as white always signify a commitment to maintain the racial status quo or can it result in commitments to racial justice? How do we understand the passage of state level sanctuary and anti sanctuary immigration legislation through a white identity political lens? Thinking about whiteness as a moral choice complicates the idea that immigration policy preferences are mostly about demographic shifts. To examine the centrality of morality in white Americans immigration attitudes Matos looks at public opinion survey data as well as the roll call votes of elected officials. She examines the conditions under which white Americans choose to reproduce a system structured on white supremacy or repudiate it as well as the role of socialization in their choices and immigration attitudes. As immigration continues to be weaponized to divide Matos highlights the importance of understanding the roots of immigration attitudes in the United States and the ways in which whiteness structures these attitudes.

**Whiteness at the Abyss** Derek Hook, 2025-01-29 Whiteness is an omnipresent term within research on race and racism. This book differs from existing conceptualizations by adopting a psychoanalytic line of approach and by directing its attention to a particular socio historical instantiation of whiteness: the investments, fantasies and fears apparent within post apartheid South African contexts. It foregrounds the notion of white anxiety which is conceptualized not only via notions of psychical temporality but with reference to the dystopian visions of the future, ideas of inter generational guilt and fantasies of demise. To posit an imagined end to whiteness is not of course an uncontroversial gesture. The closing section of the book surveys the key themes: antisemitism, white Nationalism, the trope of the race traitor in online attacks. The author was subjected to. This compelling work will appeal to all those with an interest in psychoanalytic approaches to race

and racism and to anyone working in the areas of critical race and whiteness studies      *The Lesbian South* Jaime Harker, 2018-09-25 In this book Jaime Harker uncovers a largely forgotten literary renaissance in southern letters Anchored by a constellation of southern women the Women in Print movement grew from the queer union of women's liberation civil rights activism gay liberation and print culture Broadly influential from the 1970s through the 1990s the Women in Print movement created a network of writers publishers bookstores and readers that fostered a remarkable array of literature With the freedom that the Women in Print movement inspired southern lesbian feminists remade southernness as a site of intersectional radicalism transgressive sexuality and liberatory space Including in her study well known authors like Dorothy Allison and Alice Walker as well as overlooked writers publishers and editors Harker reconfigures the southern literary canon and the feminist canon challenging histories of feminism and queer studies to include the south in a formative role      Race Traitor, 2000      Colored White David R.
