## **Race And Law In Great Britain:**

**Race, Law, and "The Chinese Puzzle" in Imperial Britain** S. Auerbach, 2009-04-27 In the early twentieth century Chinese immigration became the focal point for racial panic in Britain Fears about its moral and economic impact amplified by press sensationalism and lurid fictional portrayals of London's original Chinatown as a den of vice and iniquity prompted mass arrests deportations and mob violence Even after the neighborhood was demolished and its inhabitants dispersed the stereotype of the Chinese criminal mastermind and other yellow peril images remained as permanent aspects of British culture This painstakingly researched study traces the historical evolution of Chinese communities in Britain during this period revealing their significance in the development of race as a category in British culture law and politics

practitioners academics and those concerned with racial discrimination      Race, Ethnicity, Nationality and the Law András L. Pap, 2025-09-05 This book provides a complex insight into how law as a distinct tool and technology conceptualizes and operationalizes race ethnicity and nationality The focus of the comparative project by bringing examples from five continents and scores of jurisdictions as well as showcases for hybrid intersectional groups is specifically the morphology and dynamics of legal categorization Separate discussions concentrate on conceptualizing groupness and membership as well as agency and contestation The book shows that although identity politics has dominated recent decades ethno racial self identification is not the only operationalizing model legal regimes apply especially with the recent boost in artificial intelligence AI and bio genetic research Examples for the re biologization of ethno racial conceptualization are brought from a wide range of legal regimes including citizenship anti discrimination asylum and Indigenous law The work provides a journey through the administrative political construction and contestation of ethno racial classifications with particular attention paid to the concepts of free choice of identity covering and fraud as well as the arbitrariness the historical path dependence and the role of merit in conceptualization While the starting point of the book is to capture ethnicity as a category of law it shows how legal conceptualization and operationalization are intertwined with categories of analysis and experience The methodology applied is comparative constitutional and international law but the research will have wider interdisciplinary appeal offering a novel perspective for a broad audience in social sciences and humanities      **God and greater Britain: the British race from the 20th century B.C. to the 20th century A.D., an up-to-date Bible revelation of the approaching millennial revolution** Robert Douglas (vicar of Kidsgrove.), 1902      **Race, Law, and American Society** Gloria J.

Browne-Marshall, 2013-05-02 This second edition of Gloria Browne Marshall s seminal work tracing the history of racial discrimination in American law from colonial times to the present is now available with major revisions Throughout she advocates for freedom and equality at the center moving from their struggle for physical freedom in the slavery era to more recent battles for equal rights and economic equality From the colonial period to the present this book examines education property ownership voting rights criminal justice and the military as well as internationalism and civil liberties by analyzing the key court cases that established America s racial system and demonstrating the impact of these court cases on American society This edition also includes more on Asians Native Americans and Latinos Race Law and American Society is highly accessible and thorough in its depiction of the role race has played with the sanction of the U S Supreme Court in shaping virtually every major American social institution      Race Politics in Britain and France Erik Bleich, 2003-05-26 Britain and France have developed substantially different policies to manage racial tensions since the 1960s in spite of having similar numbers of post war ethnic minority immigrants This book provides the first detailed historical exploration of race policy development in these two countries In this path breaking work Bleich argues against common wisdom that attributes policy outcomes to the role of powerful interest groups or to the constraints of existing institutions instead emphasizing the

importance of frames as widely held ideas that propelled policymaking in different directions British policymakers framing of race and racism principally in North American terms of color discrimination encouraged them to import many policies from across the Atlantic For decades after WWII by contrast French policy leaders framed racism in terms influenced largely by their Vichy past which encouraged policies designed primarily to counter hate speech while avoiding the recognition of race found across the English Channel *The Law of Nations and Britain's Quest for Naval Security* Scott Andrew

Keefer,2016-11-13 As the centenary of the Treaty of Versailles approaches this book presents the pre 1914 precursors to the interwar naval arms treaties arising from the peace of 1919 providing a fresh perspective on arms control efforts through an interdisciplinary approach Interweaving historical investigation with legal analysis Scott Keefer traces the British role in the development of naval arms control outlining the pragmatic Foreign Office approaches towards international law By emphasizing what was possible within the existing legal system rather than attempting to create radically powerful international institutions statesmen crafted treaties to exploit the unique pace of naval construction Utilizing previously overlooked archival resources this book investigates how the great powers exploited treaties as elements of national security strategies The result is a fuller analysis of the Hague Peace Conferences Anglo German discussions and lesser known regional agreements from the American Great Lakes to South America and a richer exploration of pre 1914 diplomacy providing insights into how a past generation perceived questions of war and defence **Challenging Racism in Britain**

**and Germany** Z. Layton-Henry,C. **Race and U.S. Foreign Policy from Colonial Times Through the Age of Jackson** E. Nathaniel Gates, 2021-12-24 First published in 1998 Explores the concept of race The term race which originally denoted genealogical or class identity has in the comparatively brief span of 300 years taken on an entirely new meaning In the wake of the Enlightenment it came to be applied to social groups This ideological transformation coupled with a dogmatic insistence that the groups so designated were natural and not socially created gave birth to the modern notion of races as genetically distinct entities The results of this view were the encoding of race and racial hierarchies in law literature and culture How racial categories facilitate social control The articles in the series demonstrate that the classification of humans according to selected physical characteristics was an arbitrary decision that was not based on valid scientific method They also examine the impact of colonialism on the propagation of the concept and note that racial categorization is a powerful social force that is often used to promote the interests of dominant social groups Finally the collection surveys how laws based on race have been enacted around the world to deny power to minority groups A multidisciplinary resource This collection of outstanding articles brings multiple perspectives to bear on race theory and draws on a wider range of periodicals than even the largest library usually holds Even if all the articles were available on campus chances are that a student would have to track them down in several libraries and microfilm collections Providing of course that no journals were reserved for graduate students out for binding or simply missing This convenient set saves students substantial time and effort by making available all the key articles in one reliable source Revolutions of race Robert Vaughan, 1860 *Acts of the Parliament of the United Kingdom of Great Britain and Ireland...* Canada, 1896 Race, Government and Politics in Britain Zig Layton-Henry, Paul B.
