Race Class Women And The State:

Race, Class, and Gender in the United States Paula S. Wekerle, 1997-01-01 Explains not only how women are affected by changes in policy and programming but how they can take an active role in shaping these changes **The Motherless State** Eileen McDonagh, 2009-08-01 American women attain more professional success than most of their counterparts around the world but they lag surprisingly far behind in the national political arena Women held only 15 percent of U S congressional seats in 2006 a proportion that ranks America behind eighty two other countries in terms of females elected to legislative office A compelling exploration of this deficiency The Motherless State reveals why the United States differs from comparable democracies that routinely elect far more women to their national governing bodies and chief executive positions Explaining that equal rights alone do not ensure equal access to political office Eileen McDonagh shows that electoral gender parity also requires public policies that represent maternal traits Most other democracies she demonstrates view women as more suited to govern because their governments have taken on maternal roles through social welfare provisions gender quotas or the continuance of symbolic hereditary monarchies The United States has not adopted such policies and until it does McDonagh insightfully warns American women run for office with a troubling disadvantage *Experiencing Race, Class, and Gender in the United States* Virginia Cyrus, 1997 **Our Social World: Condensed** Jeanne H. Ballantine, Keith A. Roberts, Kathleen Odell Korgen, 2019-07-09 Our Social World Condensed by Jeanne H Ballantine Keith A Roberts and Kathleen Odell Korgen inspires you to develop your sociological imaginations to see the world and personal events from a new perspective and to confront sociological issues on a day to day basis The award winning author team organizes the text around the Social World model a conceptual framework that demonstrates the relationships among individuals the micro level organizations institutions and subcultures the meso level and societies and global structures the macro level The use of the Social World Model across chapters represented in a visual diagram in the chapter openers helps you to develop the practice of using three levels of analysis and to view sociology as an integrated whole rather than a set of discrete subjects

The Condensed version is adapted from Our Social World Introduction to Sociology The Sixth Edition of the Condensed version is made approximately 30% shorter than the full edition by removing selected boxes editing the main narrative and combining four chapters into two Family Education and Politics Economics *Investigating Social Problems* A. Gender and Jim Crow Glenda Elizabeth Gilmore,2013-04-01 Glenda Gilmore recovers the rich nuances of southern

political history by placing black women at its center She explores the pivotal and interconnected roles played by gender and race in North Carolina politics from the period immediately preceding the disfranchisement of black men in 1900 to the time black and white women gained the vote in 1920 Gender and Jim Crow argues that the ideology of white supremacy embodied in the Jim Crow laws of the turn of the century profoundly reordered society and that within this environment black women crafted an enduring tradition of political activism According to Gilmore a generation of educated African American women emerged in the 1890s to become in effect diplomats to the white community after the disfranchisement of their husbands brothers and fathers Using the lives of African American women to tell the larger story Gilmore chronicles black women s political strategies their feminism and their efforts to forge political ties with white women Her analysis highlights the active role played by women of both races in the political process and in the emergence of southern progressivism In addition Gilmore illuminates the manipulation of concepts of gender by white supremacists and shows how this rhetoric changed once women black and white gained the vote

Sisters in the Statehouse Nadia E. Brown,2014 Theories of descriptive representation among female legislators consistently document the ways in which women are marginalized in office However they tend to treat identity as constant over time and context and so fail to account for the substantive work of legislators Sisters in the Statehouse looks at the situation from a different angle taking an in depth look at African American female state legislators to examine the impact of race and gender on Black women s political experiences policy preferences and legislative influence Brown links personal narratives to the political behavior of her interview subjects to understand how their experiences with racism and sexism have influenced their legislative decision making and policy preferences As such this is the first study that empirically examines how difference is recognized and put into practice among Black women legislators Brown demonstrates that identity influences political decision making in ways that distinguish the work of Black women from that of other state legislators Sisters in the Statehouse is a groundbreaking inquiry into how an intersectional approach can enhance our understanding of political representation
