Race and Ethnicity in Comparative Perspective Georgia A. Persons,2018-04-24 Contradictory forces are at play at the close of the twentieth century There is a growing closeness of peoples fueled by old and new technologies of modern aviation digital based communications new patterns of trade and commerce and growing affluence of significant portions of the world's population Television permits individuals around the world to learn about the cultures and lifestyles of peoples of physically distant lands These developments give real meaning to the notion of a global village Peoples of the world are growing closer in new and increasingly important ways Nonetheless there are disturbing signs of a growing awareness of ethnic differences in all parts of the world the United States included and a concomitant rise in ethnic based conflicts many of them extraordinarily violent in nature Fear resentment intolerance and mistreatment of the other abound in world news accounts Not only does this phenomenon pose an interesting juxtaposition to the concept of the emergent global village but its emergence in the post cold war era internationally and the post civil rights era in the United States raises significant and compelling questions Why are such conflicts occurring now How do analysts explain these developments The essays in *Race and Ethnicity in Comparative Perspective* lucidly explore some of the complexities of the persistence and re emergence of race and ethnicity as major lines of divisiveness around the world Contributors analyze manifestations of race

based movements for political empowerment in Europe and Latin America as well as racial intolerance in these same settings. Attention is also given to the conceptual complexities of multidimensional and shared cultural roots of the overlapping phenomena of ethnicity, nationalism, identity, and ideology. The book greatly informs discussions of race and ethnicity in the international context and provides an interesting perspective against which to view America's changing problem of race. *Race and Ethnicity in Comparative Perspective* is a timely, thought-provoking volume that will be of immense value to ethnic studies specialists, African American studies scholars, political scientists, historians, and sociologists. **Communication and Organizational Changemaking for Diversity, Equity, and Inclusion** Bobbi J. Van Gilder, Jasmine T. Austin, Jacqueline S. Bruscella, 2023-11-03 This book explores the opportunities, challenges, and effective approaches to organizational change regarding diversity, equity, inclusion, and belonging. Featuring application-based case studies and practical guidelines for meaningful organizational change, this book problematizes some of the current DEI initiatives in today's organizations. It examines multiple forms of diversity, e.g., race, age, and mental health, from a variety of perspectives, e.g., leadership and employee, with case studies that demonstrate how changemaking efforts can be reimaged and implemented in better, more nuanced, and more sustainable ways to produce meaningful organizational change. Through these case studies, readers learn from organizations' successes and failures in their attempts to implement DEI practices. Each chapter concludes with explicit practical implications and/or actionable recommendations for organizational changemaking. This text will make an impactful addition to courses in communication and diversity or organizational communication change at the advanced undergraduate or graduate level and will be an essential guide for professionals wishing to lead change in their organizations. **Race, Immigration, and Social Control** Ivan Y. Sun, Yuning Wu, 2018-05-09 This book discusses the issues surrounding race, ethnicity, and immigrant status in U.S. policing, with a special focus on immigrant groups' perceptions of the police and factors that shape their attitudes toward the police. It focuses on the perceptions of three rapidly growing yet understudied ethnic groups: Hispanic/Latino, Chinese, and Arab Americans. Discussion of their perceptions of and experience with the police revolves around several central themes, including theoretical frameworks, historical developments, contemporary perceptions, and emerging challenges. This book appeals to those interested in or researching policing, race relations, and immigration in society and to domestic and foreign government officials who carry law enforcement responsibilities and deal with citizens and immigrants in particular. *The Children of Africa in the Colonies* Melanie J. Newton, 2008-06 When a small group of free men of color gathered in 1838 to celebrate the end of apprenticeship in Barbados, they spoke of emancipation as the moment of freedom for all colored people, not just the former slaves. The fact that many of these men had owned slaves themselves gives a hollow ring to their lofty pronouncements. Yet in *The Children of Africa in the Colonies*, Melanie J. Newton demonstrates that simply dismissing these men as hypocrites ignores the complexity of their relationship to slavery. Exploring the role of free blacks in Barbados from 1790 to 1860, Newton argues that the emancipation of the free blacks in Barbados was a key moment in the process of racial formation. **Racial Formation in the United States** Omi Michael, Howard Winant, 2014-03-01 This book is a landmark work in the study of race and ethnicity.
