Hamelynck, James B. Stiehl, 2013-11-11 Worldwide experience with the LCS mobile bearing total knee prosthesis has been unparalleled both in terms of enduring popularity and outstanding long term clinical results Buechel and Pappas's design was based on the principles of restoring anatomical joint function to as near normal as possible minimising contact stresses to avoid wear and damage to the bearing surfaces and finally the idea that constraint should reflect the need for mobility to avoid shear stresses and loosening of the implant In 1977 the LCS knee was implanted by Dr Frederick Buechel This was the first mobile bearing tri compartmental knee implant This was also the first to successfully address the key issues of loosening wear and patello femoral problems associated with earlier designs The unique design solution was the creation of a common articulating geometry for the tibia and patella on the distal femoral surface This resulted in a tibial and patellar articulation that was mobile in nature but with an identical radius of curvature and conformity The mobile bearing concept was considered sufficiently novel and unproven that the US FDA Food Drug Administration required that it be validated in an Investigational Device Evaluation IDE An FDA IDE study involving 25 US surgeons was initiated in 1981 Validation of the clinical success of the device in this study resulted in FDA approval of the LCS Knee for cemented tri compartmental use in 1985 **Federal Register**, 1968-07 **Code of Federal Regulations**, 1982 Special edition of the Federal register containing a codification of documents of general applicability and future effect as of with ancillaries **Air Force Bases** Robert Mueller, 1989 *Air Force Bases: Active Air Force bases within the United States of America on 17 September 1982* Robert Mueller, 1989 *Ugly Thirteen* Chris Ward, 2020-12-13 Evil robots combine with time travel in this darkly comic science fiction tale from Chris Ward acclaimed author of the Tube Riders series It came from the future to be your best friend Life sucks for twelve year old James Newton His bible bashing mother wants to convert him his teenage tempest of a sister wants to berate him and his loudmouthed womanising father just wants him to go away School is no solace either with sadist bully Miles Craddock lurking around every corner James finds comfort in his collection of science fiction novels but when something appears that could have stepped out of the pages of one of his beloved books it seems too good to be true And it is Ugly Thirteen will be James's best friend But the grinning robot from a thousand years in the future will be so so much more For James Newton a Christmas wish is about to turn into a nightmare **Routledge Spanish Dictionary of Telecommunications** **Diccionario Ingles de Telecomunicaciones** Emilio G.
