Renes Flesh:

René's Flesh Virgilio Piñera, 1989 Finally available in paperback one of the neglected masterpieces of Latin American literature an obsessive yet lucid exploration of the human body as a nexus of power and pleasure Twenty year old Rene is sent to be groomed at a boarding school whose motto is Suffer in silence It is there that his education in the service of pain begins

Out of Bounds Dara E. Goldman, 2008 Out of Bounds teases out the intricacies of a territorial conception of nationhood in the context of a global reorganization that ostensibly renders historical boundaries irrelevant Hispanic Caribbean writers have traditionally pointed toward the supposed perfect equivalence of island and nation and have explained local culture as a direct consequence of that equation The major social political and demographic shifts of the twentieth century increasingly call this equation into question yet authors continue to assert its existence and its centrality in the evolution of Caribbean identity The author contends that traditional forms of identification have not been eviscerated by globalization instead they have persisted and in some cases have been intensified by recent geopolitical shifts Out of Bounds underscores the ongoing role of the nation as the site of identity formation In this manner the book presents Hispanic Caribbean cultural production as a case study that acutely dramatizes the paradoxical status of traditional demarcations of self definition in an increasingly globalized context

Rene Char James R. Lawler, 2015-03-08 Although Ren Char's distinctive voice has brought him to the forefront of contemporary French writers his complex poetry has remained virtually inaccessible to the general reader In this book an eminent authority on French literature describes Char's evolution and through close readings offers a clear and rewarding introduction to the poet's work James Lawler first traces Char's growth by delineating the myth that has guided his poetry for forty years While the Surrealists exerted an early influence on the writer his work diverged from theirs as he gave voice to a more personal attitude toward nature and art to a refashioned poetics and thought The author shows how Char's development culminates in the visionary symbolism of *La Paroi et la Prairie* in which wall and prairie epitomize the unresolved tension of his mature writings Throughout his readings Professor Lawler supplements close textual analysis with consideration of thematic mythological and moral elements of the poetry discussing each aspect as it illuminates the nature of Char's sensibility The ten short poems of *La Paroi et la Prairie* are typical of their author he writes and paradigmatic of a work that is a summit of French poetry since Valéry and Apollinaire Originally published in 1978 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the

distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

The Memoirs of Francois Rene F.A.R. Chateaubriand,1902 Routledge Library Editions: Rene Descartes Various Authors,2021-03-11 Descartes has long been recognized as occupying a pivotal position in Western philosophy At the very centre of Descartes innovation are his intimately related conceptions of mind and knowledge These twin notions form the main problems that have continued to exercise philosophers to this day The volumes in this set originally published between 1932 and 1990 Put the main mathematical and physical discoveries of Descartes in an accessible form for the benefit of English readers Provide a thorough discussion of Ren Descartes philosophy of metaphysics examining the three major points of the mind and body freedom of the will and religion and science Delineate the transition Descartes effects from a prevalent medieval conception of understanding to a modern conception of it Give in depth study of Descartes philosophy with a strong emphasis on the historical approach Rene Girard, Law, Literature, and Cinema Eric M. Wilson,2024-04-05 This book is the first monograph to critically evaluate the work of the literary scholar Ren Girard from the perspectives of Law and Literature and Law and Film Studies two of the most multidisciplinary branches of critical legal theory The central thesis is that Girard s theory of the scapegoat mechanism provides a wholly new and original means of re conceptualizing the nature of judicial modernity which is the belief that modern Law constitutes an internally coherent and exclusively secular form of rationality The book argues that it is the archaic scapegoat mechanism the reconciliation of the community through the direction of unified violence against a single victim that actually works best in explaining all of the outstanding issues of Law and Literature in both of its sub forms law as literature the analysis of legal language and practice exemplified by literacy texts and law in literature the exploration of issues in legaltheory through the fictitious form of the novel The book will provide readers with i a useful introduction to the most important elements of the work of Ren Girard ii a greater awareness of the hidden nature of legal culture and reasoning within a post secular age and iii a new understanding of the subversive or enlightening nature of some of the most iconic works on Law in both Literature and Cinema media which by their nature allow for the expression of truths repressed by formal legal discourse

to do nothing less than create a new foundation for the pursuit of knowledge whether philosophical scientific or theological To that end he laid out a systematic programme that reinterpreted prior definitions of knowledge and reasoned out a systematic means of obtaining verifying and building on existing human knowledge To this end Descartes created a definition of true knowledge as that which is based on things which cannot be called into doubt by radical scepticism If he suggests we can find a belief that cannot be called into doubt this will provide a solid foundation upon which we can build systematic reasoning This cartesian method as it has come to be known is a blueprint for reasoning that continues to shape the study of philosophy today a careful weighing of possibilities searching out solid ground and building on it step by step *Paris En Amerique, Par Le Docteur Rene Lefebvre [Pseud.]* Edouard Laboulaye, 1863 [Fate's Prison](#) Tara Fox Hall, 2016-01-09 When a simple loving encounter with Devlin raises the ghost of his long dead paramour Rene Sarelle intervenes saving Rene's soul from the demon Shaker Forced to share her body with Rene Sarelle works diligently with the sorceress's ghost to magically build her a new body even as attacks by vampire hunters escalate threatening all Sarelle holds dear As Hayden's defenses crumble Sarelle magically escapes certain death only to become Michael's prisoner along with Lash Faced with an eternity of captivity and Lash's impending death Sarelle forges a Hellish pact changing her life forever **Rene Descartes'**
