Renzo Piano Fondation Beyeler A Home For Art:

Renzo Piano Fondation Beyeler, 1998 With the museum of the Fondation Beyeler in Riehen near Basel Renzo Piano has created a building in which the often repeated demand for an exhibition architecture adequate for art has finally been realized The architect described his task as follows A museum building should try to interpret the quality of the collection and define its relationship with the outside world This equals an active but not aggressive role Thus an architecture of a timeless and discrete elegance has been created bringing nature space light and art into a harmonic relationship This book presents the building from different perspectives as a new type of museum It introduces this museum in an architectural historical and typological context as well as in its topographic and urban situation finally with the spatial presentation of the collection it shows why this building has every right to be called a home for art *Fondation Beyeler* Fondation Beyeler, 2001 With the Fondation Beyeler on the outskirts of Basel Renzo Piano 1998 Pritzker Prize laureate has laid a milestone in modern museum architecture Set in park like grounds this much acclaimed building was expanded in 2000 The second revised edition of Birkhäuser's monograph pays tribute to these developments presenting the museum from various perspectives design and realisation technology and construction history and typology landscaping and presentation of the art collection **On Tour with Renzo Piano** Renzo Piano, 2004-12 An intimate tour with Renzo Piano himself around his key buildings *Museum Space* Kali Tzortzi, 2016-03-09 Museums are among the iconic buildings of the twenty first century as remarkable for their architectural diversity as for the variety of collections they display But how does the architecture of museums affect our experience as visitors This book proposes that by seeing space as common ground between architecture and museology and so between the museum building and its display we can illuminate the individuality of each museum and the distinctive experience it offers for example how some museums create a sense of personal exploration while others are more intensely didactic and how the visit in some cases is transformed into a spatial experience and in other cases into a more social event The book starts with an overview of the history of museum buildings and display strategies and a discussion of theoretical and critical approaches It then focuses on specific museums as in depth case studies and uses methods of spatial analysis to look at the key design choices available to architects and curators and their effects on visitors behaviour Theoretically grounded methodologically original and richly illustrated this book will equip students researchers and professionals in the fields of architecture museum studies curating exhibition design and cultural studies with a guide for studying museums and a theoretical framework for their interpretation **Architects Today** Kester Rattenbury, Robert Bevan, Kieran Long, 2006-08-10 This volume offers both an introduction to and an insight into key contemporary architects as well as giving a snapshot of the varied nature of architecture today For each architect there are details of their life and work and illustrations of their most representative and iconic buildings *The Fourth BMW Art Guide by Independent Collectors* Silvia Anna Barillà, Nicole Büsing, Alexander Forbes, Jeni Fulton, Heiko Klaas, Christiane Meixner, Anne Reimers, 2020-09-30
