Performing the Queer Past Fintan Walsh, 2023-08-24 Tender and rigorous this book invites readers to linger with difficult pasts and consider how best to grasp their hauntings demands and manifestations in the present This is a book about mourning as well as holding a simultaneous act of exhumation and a laying to rest

anna six author of *Madness Art and Society Beyond Illness* This is an extraordinary book in which queer theatre and performance become sites of celebration and resistance as well as holding the potential for performers and audiences to work through painfully felt yet difficult to articulate experiences towards feelings of hope Replete with rigorous generous and creative readings it is also a meditation on Walsh's own emotional engagement with queer theatre and performance and how our cultural attachments can sustain enliven and contain us

Noreen Giffney psychoanalytic psychotherapist and author of *The Culture Breast in Psychoanalysis* Why do contemporary queer theatre and performance appear to be possessed by the past What aesthetic practices and dramaturgical devices reveal the occupation of the present by painful history How might the experience of theatre and performance relieve the present of its most arduous burdens Following recent legislation and cultural initiatives across many Western countries hailed as confirming the darkest days for LGBTQ people were over this book turns our attention to artists fixed on history's enduring harm Guiding us through an eclectic range of examples including theatre performance installation and digital practices Fintan Walsh explores how this work reckons with complex cultural and personal histories Among the issues confronted are the incarceration of Oscar Wilde the Holocaust racial and sexual objectification the AIDS crisis and Covid 19 alongside more local and individual experiences of violence trauma and grief Walsh traces how the queer past is summoned and interrogated via what he elaborates as the aesthetics and dramaturgies of possession which lend form to the still stinging aches and generative potential of injury injustice and loss These strategies expose how the past continues to haunt and disturb the present while calling on those of us who feel its force to respond to history's unresolved hurt

Out of Turmoil Dean P. Vesperman, Anne Aydinian-Perry, Matthew T. Missias, Whitney G. Blankenship, 2023-01-01 It is not difficult to argue that the social sciences are in a period of transition Our day to day lives have been marked by uncertainty as our social lives have vacillated wildly between highs and lows tensions between fellow citizens have heightened along ideological fault lines and educators have been placed squarely at the center of public discourses about what and how we should be teaching By any measure we are living in a time where every moment seems to be rife with high stakes realities that must be navigated

Ladson Billings 2020 called on educators to reimagine education and contest the notion of a return to normal In the current highly polarized context where we see multiple competing narratives rather than promoting a return to normal or business as usual approach we argue that educators must use the lessons of the last two years as well as draw on what we have learned from history and the social sciences By asking ourselves how we might interrogate and inform current social landscapes and the challenges that arise from them we have the opportunity to take leadership in fostering innovation building solidarity and re imagining the teaching and learning of history and the social sciences We recognize that humans live in multiple complex communities that include intersectional identities relationships with power agency and discourses and lived realities that are as unique as they are divergent Consequently the task of educators and the goal of this volume is to provide a clarion voice to a dynamic relational and undeniably human social world
