**Representations of the Post/human** Elaine L. Graham, 2002 This work draws together a wide range of literature on contemporary technologies and their ethical implications It focuses on advances in medical reproductive genetic and information technologies

**Post-Theories in Literary and Cultural Studies** Zekiye Antakyalioglu, 2022-04-25 Post Theories in Literary and Cultural Studies focuses on the shifting paradigms in literary and cultural studies Prompted by the changes and problems on the global scale the last two decades have seen a resurgence of scholarly interest in theories which are more embedded in the social realities and human condition This volume shows that theory can reinvent theory and re define criticism according to the demands of the new millennium In this context it examines new ways of considering the relation of post theory to the concepts such as ethics aesthetics truth value authenticity human and reality to understand the mindset of the new century This volume presents the various suggestions and concerns of post theoretical studies that reflect the sensibilities of the contemporary social and cultural life The book is a source of reference to develop an understanding of this change of attitude in post theoretical studies towards a more directly and sincerely responsive approach to the current problems worldwide their representations in literature and language reflections in theory roots in socio political domains and effects on the material reality

**Children's Literature and the Posthuman** Zoe Jaques, 2015-02-11 An investigation of identity formation in children s literature this book brings together children s literature and recent critical concerns with posthuman identity to argue that children s fiction offers sophisticated interventions into debates about what it means to be human and in particular about humanity s relationship to animals and the natural world In complicating questions of human identity ecology gender and technology Jaques engages with a multifaceted posthumanism to understand how philosophy can emerge from children s fantasy disclosing how such fantasy can build upon earlier traditions to represent complex issues of humanness to younger audiences Interrogating the place of the human through the non human whether animal or mechanical leads this book to have interpretations that radically depart from the critical tradition which in its concerns with the socialization and representation of the child has ignored larger epistemologies of humanness The book considers canonical texts of children s literature alongside recent bestsellers and films locating texts such as Gulliver s Travels 1726 Pinocchio 1883 and the Alice books 1865 1871 as important works in the evolution of posthuman ideas This study provides radical new readings of children s literature and demonstrates that the genre offers sophisticated interventions into the nature boundaries and dominion of humanity

**Posthumanism in Young Adult Fiction** Anita Tarr, Donna R. White, 2018-04-27 Contributions by Torsten Caeners Phoebe Chen Mathieu Donner Shannon Hervey Angela S Insenga Patricia Kennon Maryna Matlock Ferne Merrylees Lars Schmeink Anita Tarr Tony M Vinci and Donna R White For centuries humanism has provided a paradigm for what it means to be human a rational unique unified universal autonomous being Recently however a new philosophical approach posthumanism has questioned these assumptions asserting that being

human is not a fixed state but one always dynamic and evolving Restrictive boundaries are no longer in play and we do not define who we are by delineating what we are not animal machine monster There is no one aspect that makes a being human self awareness emotion artistic expression or problem solving since human characteristics reside in other species along with shared DNA Instead posthumanism looks at the ways our bodies intelligence and behavior connect and interact with the environment technology and other species In *Posthumanism in Young Adult Fiction Finding Humanity in a Posthuman World* editors Anita Tarr and Donna R White collect twelve essays that explore this new discipline s relevance in young adult literature Adolescents often tangle with many issues raised by posthumanist theory such as body issues The in betweenness of adolescence makes stories for young adults ripe for posthumanist study Contributors to the volume explore ideas of posthumanism including democratization of power body enhancements hybridity multiplicity plurality and the environment by analyzing recent works for young adults including award winners like Paolo Bacigalupi s *Ship Breaker* and Nancy Farmer s *The House of the Scorpion* as well as the works of Octavia Butler and China Mi ville

### **Prophets of the Posthuman**

Christina Bieber Lake,2013-09-30 *Prophets of the Posthuman* provides a fresh and original reading of fictional narratives that raise the question of what it means to be human in the face of rapidly developing bioenhancement technologies Christina Bieber Lake argues that works by Nathaniel Hawthorne Walker Percy Flannery O Connor Toni Morrison George Saunders Marilynne Robinson Raymond Carver James Tiptree Jr and Margaret Atwood must be reevaluated in light of their contributions to larger ethical questions Drawing on a wide range of sources in philosophical and theological ethics Lake claims that these writers share a commitment to maintaining a category of personhood more meaningful than that allowed by utilitarian ethics *Prophets of the Posthuman* insists that because technology can never ask whether we should do something that we have the power to do literature must step into that role Each of the chapters of this interdisciplinary study sets up a typical ethical scenario regarding human enhancement technology and then illustrates how a work of fiction uniquely speaks to that scenario exposing a realm of human motivations that might otherwise be overlooked or simplified Through the vision of the writers she discusses Lake uncovers a deep critique of the ascendancy of personal autonomy as America s most cherished value This ascendancy coupled with technology s glamorous promises of happiness helps to shape a utilitarian view of persons that makes responsible ethical behavior toward one another almost impossible *Prophets of the Posthuman* charts the essential role that literature must play in the continuing conversation of what it means to be human in a posthuman world

**The Posthuman Imagination** Tanmoy Kundu,Saikat Sarkar,2021-02-08 This volume including an extended interview with noted philosopher of posthumanism Francesca Ferrando explores the contemporary philosophical literary and cultural landscapes that have emerged as a response to the unavoidable crisis faced by humans in the Anthropocene era The essays gathered here map posthumanism both as theoretical posthumanism which primarily seeks to develop new knowledge and as practical posthumanism which emphasizes socio political economic and technological changes Posthumanism which explores

how one can address the question of what means to be human today is a burgeoning area of interest among universities across the globe Written in accessible yet scholarly language this volume introduces posthumanism in its diverse ramifications and explicates the subject through various literary and filmic texts in order to cater to the needs of researchers and students in the humanities *From Human to Posthuman* Brent Waters,2016-04-22 Technology is one of the dominant forces shaping the emerging postmodern world Indeed the very fabric of daily life is dependent upon various information communication and transportation technologies With anticipated advances in biotechnology artificial intelligence and robotics that dependence will increase Yet this growing dependence is accompanied with a deep ambivalence For many technology symbolises the faith of the postmodern world but it is an ambivalent faith encapsulating both our hopes and fears for the future This book examines the religious foundations underlying this troubled faith in technology as well as critically and constructively engaging particular technological developments from a theological perspective **Cyborg Selves** Jeanine Thweatt-Bates,2016-05-13 What is the posthuman Is becoming posthuman inevitable something which will happen to us or something we will do to ourselves Why do some long for it while others fearfully reject it These questions underscore the fact that the posthuman is a name for the unknown future and therefore not a single idea but a jumble of competing visions some of which may be exciting some of which may be frightening and which is which depends on who you are and what you desire to be This book aims to clarify current theological and philosophical dialogue on the posthuman by arguing that theologians must pay attention to which form of the posthuman they are engaging and to demonstrate that a posthuman theology is not only possible but desirable when the vision of the posthuman is one which coincides with a theological vision of the human **Posthuman Life** David Roden,2014-10-10 We imagine posthumans as humans made superhumanly intelligent or resilient by future advances in nanotechnology biotechnology information technology and cognitive science Many argue that these enhanced people might live better lives others fear that tinkering with our nature will undermine our sense of our own humanity Whoever is right it is assumed that our technological successor will be an upgraded or degraded version of us Human 2 0 Posthuman Life argues that the enhancement debate projects a human face onto an empty screen We do not know what will happen and not being posthuman cannot anticipate how posthumans will assess the world If a posthuman future will not necessarily be informed by our kind of subjectivity or morality the limits of our current knowledge must inform any ethical or political assessment of that future Posthuman Life develops a critical metaphysics of posthuman succession and argues that only a truly speculative posthumanism can support an ethics that meets the challenge of the transformative potential of technology *Singularities* Joshua Raulerson,2013 This groundbreaking volume is the first to mount a sustained and wide ranging critical treatment of Singularity the irrevocable transformation of the nature of human existence by technological advancement as a subject for theory and cultural studies *Religions in the Modern World* Linda Woodhead,Christopher Partridge,Hiroko Kawanami,2016-01-13 Religions in the Modern World Traditions and

Transformations Third Edition is the ideal textbook for those coming to the study of religion for the first time as well as for those who wish to keep up to date with the latest perspectives in the field This third edition contains new and upgraded pedagogic features including chapter summaries key terms and definitions and questions for reflection and discussion The first part of the book considers the history and modern practices of the main religious traditions of the world while the second analyzes trends from secularization to the rise of new spiritualities Comprehensive and fully international in coverage it is accessibly written by practicing and specialist teachers

**Music in Star Trek** Jessica Getman, Brooke McCorkle Okazaki, Evan Ware, 2022-12-30 The tensions between utopian dreams and dystopian anxieties permeate science fiction as a genre and nowhere is this tension more evident than in Star Trek This book breaks new ground by exploring music and sound within the Star Trek franchise across decades and media offering the first sustained look at the role of music in shaping this influential series The chapters in this edited collection consider how the aural visual and narrative components of Star Trek combine as it constructs and deconstructs the utopian and dystopian shedding new light on the series political cultural and aesthetic impact Considering how the music of Star Trek defines and interprets religion ideology artificial intelligence and more while also considering fan interactions with the show's audio this book will be of interest to students and scholars of music media studies science fiction and popular culture

**Monster Anthropology** Yasmine Musharbash, Geir Henning Presterudstuen, 2020-06-03 Monsters are culturally meaningful across the world Starting from this key premise this book tackles monsters in the context of social change Writing in a time of violent upheaval when technological innovation brings forth new monsters while others perish as part of the widespread extinctions that signify the Anthropocene contributors argue that putting monsters at the center of social analysis opens up new perspectives on change and social transformation Through a series of ethnographically grounded analyses they capture monsters that herald drive experience enjoy and suffer the transformations of the worlds they beleaguer Topics examined include the evil skulking new roads in Ancient Greece terror in post socialist Laos's territorial cults a horrific flying head that augurs catastrophe in the rain forest of Borneo benign spirits that accompany people through the mist in Iceland flesh eating giants marching through neo colonial central Australia and ghosts lingering in Pacific villages in the aftermath of environmental disasters By taking the proposition that monsters and the humans they haunt are intricately and intimately entangled seriously this book offers unique cross cultural perspectives on how people perceive the world and their place within it It also shows how these experiences of belonging are mediated by our relationships with the other than human

**On Posthuman War** Mike Hill, 2022-08-16 Tracing war's expansion beyond the battlefield to the concept of the human being itself As military and other forms of political violence become the planetary norm On Posthuman War traces the expansion of war beyond traditional theaters of battle Drawing on counterinsurgency field manuals tactical manifestos data driven military theory and asymmetrical war archives Mike Hill delineates new Areas of Operation within a concept of the human being as not only a social and biological entity but also a

technical one Delving into three human focused disciplines newly turned against humanity OnPosthuman War reveals how demography anthropology and neuroscience have intertwined since 9 11 amid the Revolution in Military Affairs Beginning with the author s personal experience training with U S Marine recruits at Parris Island Hill gleans insights from realist philosophy the new materialism and computational theory to show how the human being per se has been reconstituted from neutral citizen to unwitting combatant As evident in the call for bullets beans and data whatever can be parted out counted and reassembled can become war materiel Hill shows how visible and invisible wars within identity community and cognition shift public sphere activities like racial identification group organization and even thought itself in the direction of war This shift has weaponized social activities against the very notion of society On Posthuman War delivers insights on the latest war technologies strategies and tactics while engaging in questions poised to overturn the foundations of modern political thought

*What is Posthumanism?* Cary Wolfe,2010 What does it mean to think beyond humanism Is it possible to craft a mode of philosophy ethics and interpretation that rejects the classic humanist divisions of self and other mind and body society and nature human and animal organic and technological Can a new kind of humanities posthumanities respond to the redefinition of humanity s place in the world by both the technological and the biological or green continuum in which the human is but one life form among many Exploring how both critical thought along with cultural practice have reacted to this radical repositioning Cary Wolfe one of the founding figures in the field of animal studies and posthumanist theory ranges across bioethics cognitive science animal ethics gender and disability to develop a theoretical and philosophical approach responsive to our changing understanding of ourselves and our world Then in performing posthumanist readings of such diverse works as Temple Grandin s writings Wallace Stevens s poetry Lars von Trier s *Dancer in the Dark* the architecture of Diller Scofidio and David Byrne and Brian Eno s *My Life in the Bush of Ghosts* he shows how this philosophical sensibility can transform art and culture For Wolfe a vibrant rigorous posthumanism is vital for addressing questions of ethics and justice language and trans species communication social systems and their inclusions

and exclusions and the intellectual aspirations of interdisciplinarity In *What Is Posthumanism* he carefully distinguishes posthumanism from transhumanism the biotechnological enhancement of human beings and narrow definitions of the posthuman as the hoped for transcendence of materiality In doing so Wolfe reveals that it is humanism not the human in all its embodied and prosthetic complexity that is left behind in posthumanist thought Posthuman Transformation in Ancient Mediterranean Thought M. David Litwa, 2021-01-07 Ancient theories of posthuman transformation can shape chasten and reform modern biotechnical theories of posthuman enhancement *Byron's Ghosts* Gavin Hopps, 2013-10-11 The first book length examination of spectrality in Byron's work this critical collection questions the popular image of Byron as a sceptical or anti Romantic poet and in so doing reveals a great deal about his work **Endangering Science Fiction Film** Sean Redmond, Leon Marvell, 2015-06-26 *Endangering Science Fiction Film* explores the ways in which science fiction film is a dangerous and endangering genre The collection argues that science fiction's cinematic power rests in its ability to imagine Other worlds that challenge and disturb the lived conditions of the real world as it is presently known to us From classic films such as 2001 A Space Odyssey and Solaris to modern blockbusters including World War Z and Gravity and directors from David Cronenberg to Alfonso Cuarón contributors comment on the way science fiction film engages with dangerous encounters liminal experiences sublime aesthetics and untethers space and time to question the very nature of human existence With the analysis of a diverse range of films from Europe Asia North and South America *Endangering Science Fiction Film* offers a uniquely interdisciplinary view of the evolving and dangerous sentiments and sensibility of this genre

*From Human to Posthuman* Professor Brent Waters, 2013-05-28 Technology is one of the dominant forces shaping the emerging postmodern world Indeed the very fabric of daily life is dependent upon various information communication and transportation technologies With anticipated advances in biotechnology artificial intelligence and robotics that dependence will increase Yet this growing dependence is accompanied with a deep ambivalence For many technology symbolises the faith of the postmodern world but it is an ambivalent faith encapsulating both our hopes and fears for the future This book examines the religious foundations underlying this troubled faith in technology as well as critically and constructively engaging particular technological developments from a theological perspective
