Representative Government In Early Modern France:

Representative Government in Early Modern France James Russell Major, 1980 **Fiscal Crises, Liberty, and Representative Government 1450-1789** Philip T. Hoffman, Kathryn Norberg, 2002-01-02 These essays focus on the growth of representative institutions and the mechanics of European state finance from the end of the Middle Ages to the French Revolution Absolutism and Society in Seventeenth-Century France William Beik, 1985 This analysis of the provincial reality of absolutism argues that the relationship between the regional aristocracy and the crown was a key factor in influencing the traditional social system of seventeenth century France Crown and Nobility in Early Modern France Donna Bohanan, 2017-03-10 This book analyses the evolving relationship between the French monarchy and the French nobility in the early modern period New interpretations of the absolutist state in France have challenged the orthodox vision of the interaction between the crown and elite society By focusing on the struggle of central government to control the periphery Bohanan links the literature on collaboration patronage and taxation with research on the social origins and structure of provincial nobilities Three provincial examples Provence Dauphine and Brittany illustrate the ways in which elites organised and mobilised by vertical ties ties of dependency based on patronage were co opted or subverted by the crown The monarchy s success in raising more money from these pays d etats depended on its ability to juggle a set of different strategies each conceived according to the particularity of the social political and institutional context of the province Bohanan shows that the strategies and expedients employed by the crown varied from province to province conceived on an individual basis they bear the signs of ad hoc responses rather than a grandiose plan to centralise

Changing Identities in Early Modern France Michael Wolfe, 1997 After examining the interplay between competing ideologies and public institutions from the monarchy to the Parlement of Paris to the aristocratic household the volume explores the dynamics of deviance and dissent particularly in regard to women s roles in religious reform movements and such sensationalized phenomena as the witch hunts and infanticide trials **The Politics of Religion in Early Modern France** Joseph Bergin, 2014-11-25 Rich in detail and broad in scope this majestic book is the first to reveal the interaction of politics and religion in France during the crucial years of the long seventeenth century Joseph Bergin begins with the Wars of Religion which proved to be longer and more violent in France than elsewhere in Europe and left a legacy of unresolved tensions between church and state with serious repercussions for each He then draws together a series of unresolved problems both practical and ideological that challenged French leaders thereafter arriving at an original and comprehensive view of the close interrelations between the political and spiritual spheres of the time The author considers the powerful religious dimension of French royal power even in the seventeenth century the shift from reluctant toleration of a Protestant minority to increasing aversion conflicts over the independence of the Catholic church and the power of the pope over secular rulers and a wealth of other interconnected topics **The Rise of Majority Rule in Early Modern Britain and**

Its Empire William J. Bulman, 2021-04-01 This expansive history of the origins of majority rule in modern representative government charts the emergence of majority voting as a global standard for decision making in popular assemblies Majority votes had of course been held prior to 1642 but not since antiquity had they been held with any frequency by a popular assembly with responsibility for the fate of a nation The crucial moment in the global triumph of majority rule was its embrace by the elected assemblies of early modern Britain and its empire William J Bulman analyzes its sudden appearance in the English House of Commons and its adoption by the elected assemblies of Britain's Atlantic colonies in the age of the English Glorious and American Revolutions These events made it overwhelmingly likely that the United Kingdom the United States and their former dependencies would become and remain fundamentally majoritarian polities Providing an insightful commentary on the state of democratic governance today this study sheds light on the nature promise and perils of majority rule

The Origins of French Absolutism, 1598-1661 Alan James, 2014-01-14 This controversial study takes the provocative line that the French monarchy was a complete success James turns the idea of royal absolutism on its head by redefining the French monarchy's success from 1598 1661 The Origins of French Absolutism 1598 1661 maintains that building blocks were not being laid by the so called architects of absolutism but that by satisfying long established traditional ambitions cardinal ministers Richelieu and Mazarin undoubtedly made the confident ambitious reign of the late century possible

Patronage in Sixteenth- and Seventeenth-Century France Sharon Kettering, 2024-10-28 The dual themes of this volume are the characteristics of patronage relationships and their political uses in early modern France The first essays provide an overview of the scholarly literature and suggest that the obligatory reciprocity of the patron client exchange was a defining characteristic The third and fourth essays compare patronage relationships with kinship and friendship while the following two focus on the patronage role of noblewomen Professor Kettering then looks at the role of brokerage in state formation in early modern France comparing this with other early modern societies In the final section she explores the role of patronage in the religious wars of the late 16th century and in the civil war of the Fronde a half century later and the ways in which it was affected by the changing lifestyles of the great nobles during the late 17th century

French Society Sharon Kettering, 2014-08-21 This book provides a birds eye view of social change in France during the long seventeenth century from 1589 1715 One of the most dynamic phases of French history it covers the reigns of the first three Bourbon kings Henri IV Louis XIII and Louis XIV The author explores the upheavals in French society during this period through an examination of the bonds which tied various classes and groupings together including rank honour and reputation family household and kinship faith and the Church and state and obedience to the King Acting as a social glue against instability and fragmentation in periods of great transformation some of these social solidarities are eroded whilst new ones emerge Sharon Kettering shows how nuclear family ties emerged at the expense of extended kinship ties while traditional rural ties were eroded by a combination of demographic crisis and agricultural stagnation Urban ties of neighbourhood sociability and work increased

with rapid urbanisation By 1715 France had become a more peaceful and civilised place and this book discusses some of the reasons why

Class and State in Ancien Regime France David Parker,2002-11 David Parker's challenging interpretation presents a broad in depth study of the economic social ideological and political foundations of French Absolutism This stimulating reassessment runs contrary to much revisionist historiography

Disputing New France Helen Dewar,2022-01-15 From the early sixteenth century thousands of fishermen traders from Basque Breton and Norman ports crossed the Atlantic each year to engage in fishing whaling and fur trading which they regarded as their customary right In the seventeenth century these rights were challenged as France sought to establish an imperial presence in North America granting trading privileges to certain individuals and companies to enforce its territorial and maritime claims Bitter conflicts ensued precipitating more than two dozen lawsuits in French courts over powers and privileges in New France In *Disputing New France* Helen Dewar demonstrates that empire formation in New France and state formation in France were mutually constitutive Through its exploration of legal suits among privileged trading companies independent traders viceroys and missionaries this book foregrounds the integral role of French courts in the historical construction of authority in New France and the fluid nature of legal political and commercial authority in France itself State and empire formation converged in the struggle over sea power control over New France was a means to consolidate maritime authority at home and supervise major Atlantic trade routes The colony also became part of international experimentations with the chartered company an innovative Dutch and English instrument adapted by the French to realize particular strategic political and maritime objectives Tracing the developing tools of governance privilege granting and capital formation in New France *Disputing New France* offers a novel conception of empire one that is messy and contingent responding to pressures from within and without and deeply rooted in metropolitan affairs

Richelieu and Mazarin David Sturdy,2017-03-14 Drawing upon recent research and past studies David J Sturdy presents a concise up to date analysis of the private and public careers of two of the most influential ministers in seventeenth century France Richelieu and Mazarin Adopts a broadly chronological approach interspersed with passages at relevant points which compare and contrast the key achievements of the two Cardinals Examines such central themes as the internal government of France the ministers conduct of foreign policy and the nature of elite and popular resistance to their policies Explores the political ideas and strategies of Richelieu and Mazarin the relations between the ministers and the Crown and the patronage they exercised The book concludes with a comparative assessment of the significance of the two figures for the history of France

Huguenot Heartland Philip Conner,2017-03-02 In the immediate years and months before the outbreak of religious war in 1562 the growth of Protestantism in France had gone unchecked and an overriding sense of Protestant triumphalism emerged in cities across the land However the wars unleashed a vigorous Catholic reaction that extinguished Protestant hopes of ultimate success This offensive triggered violence across the provinces paralysing Huguenot communities and sending many Protestant churches in northern France

into terminal decline But French Protestantism was never a uniform phenomenon and events in southern France took a rather different course from those in the north This study explores the fate of the Huguenot community in the area of its greatest strength in southern France The book examines the Protestant ascendancy in the Huguenot stronghold of Montauban through the period of the religious wars laying open the impact that the new religion had upon the town and its surrounding locality and the way in which the town related to the wider political and religious concerns of the Protestant south In particular it probes the way in which the town related to the nobility the political assemblies Henry of Navarre and the wider world of international Calvinism reflecting upon the distinctive cultural elements that characterised Calvinism in southern France

The Imagined Empire Mi Gyung Kim, 2016-12-23 The hot air balloon invented by the Montgolfier brothers in 1783 launched for the second time just days before the Treaty of Paris would end the American Revolutionary War The ascent in Paris a technological marvel witnessed by a diverse crowd that included Benjamin Franklin highlighted celebrations of French military victory against Britain and ignited a balloon mania that swept across Europe at the end of the Enlightenment This popular frenzy for balloon experiments which attracted hundreds of thousands of spectators fundamentally altered the once elite audience for science by bringing aristocrats and commoners together The Imagined Empire explores how this material artifact the flying machine not only expanded the public for science and spectacle but inspired utopian dreams of a republican monarchy that would obliterate social boundaries The balloon Mi Gyung Kim argues was a people machine a cultural performance that unified and mobilized the people of France who imagined an aerial empire that would bring glory to the French nation This critical history of ballooning considers how a relatively simple mechanical gadget became an explosive cultural and political phenomenon on the eve of the French Revolution

The Polish-Lithuanian Commonwealth Andrzej Chwalba, Krzysztof Zamorski, 2020-10-15 This volume provides a fresh perspective of the history and legacy of the Polish Lithuanian Commonwealth as well as the often disputed memory of it in contemporary Europe The unions between the Crown of the Kingdom of Poland and the Grand Duchy of Lithuania have fascinated many readers particularly because many solutions that have been implemented in the European Union have been adopted from its Central and Eastern European predecessor The collection of essays presented in this volume are divided into three parts the Beginnings of Poland Lithuania the Polish Lithuanian Commonwealth and Legacy and Memory of the Polish Lithuanian Commonwealth and represent a selection of the papers delivered at the Third Congress of International Researchers of Polish History which was held in Cracow on 11-14 October 2017 Through their application of different historiographical perspectives and schools of history they offer the reader a fresh take on the Commonwealth's history and legacy as well as the memory of it in the countries that are its inheritors namely Poland Lithuania Latvia Belarus and Ukraine An exploration of one of the biggest countries in Early Modern Europe this will be of interest to historians political scientists cultural anthropologists and other scholars of the history of Central and Eastern Europe in the Early Modern period

Portraits from the French Renaissance and the Wars of Religion André Thevet, 2009-11-01 Available for the first time in English these thirteen selections from Andr Thevet s Les vrais pourtraits et vies des hommes illustres offer a glimpse of France during a time of great upheaval Originally published in 1584 Thevet s collection contains over two hundred biographical sketches detailing the lives of important persons from antiquity to the sixteenth century Edward Benson and Roger Schlesinger have translated and annotated Thevet s portraits of his contemporaries and divided them into three categories monarchs aristocrats and scholars Additionally an extensive introduction places the work in context and describes the critical attention that Thevet and his writings have received Together these portraits provide a history of sixteenth century France as the country underwent tremendous change from an intellectual renaissance and its first encounter with the New World to the Protestant Reformation and the Wars of Religion that followed France was irrevocably altered by these events and Thevet s account of the lives of individuals who struggled with them is indispensable Distant Tyranny Regina Grafe, 2012-01-08 Spain s development from a premodern society into a modern unified nation state with an integrated economy was painfully slow and varied widely by region Economic historians have long argued that high internal transportation costs limited domestic market integration while at the same time the Castilian capital city of Madrid drew resources from surrounding Spanish regions as it pursued its quest for centralization According to this view powerful Madrid thwarted trade over large geographic distances by destroying an integrated network of manufacturing towns in the Spanish interior Challenging this long held view Regina Grafe argues that decentralization not a strong and powerful Madrid is to blame for Spain s slow march to modernity Through a groundbreaking analysis of the market for bacalao dried and salted codfish that was a transatlantic commodity and staple food during this period Grafe shows how peripheral historic territories and powerful interior towns obstructed Spain s economic development through jurisdictional obstacles to trade which exacerbated already high transport costs She reveals how the early phases of globalization made these regions much more externally focused and how coastal elites that were engaged in trade outside Spain sought to sustain their positions of power in relation to Madrid Distant Tyranny offers a needed reassessment of the haphazard and regionally diverse process of state formation and market integration in early modern Spain showing how local and regional agency paradoxically led to legitimate governance but economic backwardness

Authority and Society in Nantes During the French Wars of Religion, 1558-1598 Elizabeth C. Tingle is Senior Lecturer in History at the University of Northampton, Elizabeth C. Tingle, 2013-07-19 Elizabeth Tingle explores the theory and practice of authority during the sixteenth century in France through an examination of the religious culture and political institutions of the city of Nantes She provides a survey of the socio economic structures of the mid sixteenth century city

Political Thought in the French Wars of Religion Sophie Nicholls, 2021-05-13 Fresh analysis of the political thought of the French Holy League active during the religious wars within its intellectual context
